We are aware that the man, by nature, is very inquisitive to know what the future has in store for him. The contents in Bhrigu Samhita satisfy that urge. It is a compilation of results based on predictive astrology to help average people cope with the pressures of life by learning how to become morally and spiritually strong and also the path they should follow in their daily lives. Prepared from about five lakh horoscopes of different people, Maharshi Bhrigu made predictions of their current and future lives as well as the past. Each of these horoscopes was based upon the planetary positions of the Sun, Moon, Mercury, Venus, Mars, Jupiter, Saturn, and Rahu (North Node of the Moon) and Ketu (South Node of the Moon).

Readers of the book will be able to understand the meaning and importance of the terms used in astrology, such as Birth chart, Horoscope, House, Zodiac, Rashi, Stars in motion, Sun, Planetary movements etc., in their everyday life. # Preface

From time immemorial man has tried to establish a relation between himself and wider cosmos around him. The stars and planets have a sense of wonder. Man's quest for knowing the world around is the science of Astrology, the study of patterns and relationships of planets and stars in motion and its consequent impact and influence on individual birth charts. Astrology provides mankind a guide to know the unknown future flagging some indications and possibilities.

During the Hindu Vedic period, *Maharishi Bhrigu*, one of the *Saptarishis* or the seven great sages, after extensive observations and study of the celestial objects, compiled thousands of birth charts and made predictions for them as case studies, covering all possible combinations of planetary positions. This exhaustive compilation is referred to as the *Bhrigu Samhita*. *The Bhrigu Samhita is considered a treasure trove for the student of astrology.*

This book contains the essence of findings and notations of the *Bhrigu Samhita* puts forth all the basic information required for the study of astrology and, creation and analysis of birth charts for beginners and scholars alike. This book has 25 chapters in all.

I have also included the '*Laghu Parashari*' principles/rules scripted in the form of 42 Shlokas that tell about the basic principles, correlations of planetary positions and their effects. According to the Hindu birth chart 12 lagnas are drawn out with markings of various planets present in each house at the time of birth. Each lagna with its associations, the planets stationed in them, their combinations and their implications are codified herein.

Some unique and typical planetary patterns like – Triangles, Trines, Planetary conjunctions and *Vimshotri Dasha* system are also discussed in this book in detail to assist in making predictions of opportune times for individual birth charts.

Apart from deciphering the future, astrology helps to establish compatibility among two individuals for making the perfect match. In the book, there is a section, which deals with comparison of birth charts and assessing levels of compatibility among to become couples.

According to Hindu mythology and Vedic astrology each planet is associated with a God and when planetary positions are unfavorable one may appease the celestial being by chanting certain mantras that create vibrations to offset or lessen the harmful effects. These prescriptions have also been discussed here for the benefit of human beings.

This book contains 36 tables and 24 examples which demonstrate the efficacy of the rules, the step-by-step processes and their interpretations mentioned in the book. They will guide and enable you to imbibe and practice the divine skills.

During the writing phase of this book I have tried to delve into the depths of the astonishing world of astrology. I am sure that readers and astrologers will enjoy the benefits of lagna-wise planetary predictions.

# Maharishi Bhrigu and Existence of Bhrigu Samhita

## Who was Maharishi Bhrigu?

Maharishi Bhrigu was one of the seven great sages, the Saptarshis, (one of the Prajapatis, the facilitators of the Creation made by Brahma, the God of Creation). He was the first compiler of predictive astrology, and was the author of Bhrigu Samhita, an astrological classic. Bhrigu is considered as a Manasa *Putra*, mind-born son of Lord Brahma, his caste name, Bhargava Brahmins.

Maharishi Bhrigu was married to Khyati, the daughter of Prajapati Daksha. He had two sons by her, named Dhata and Vidhata. His daughter Sri or Bhargavi, married to Vishnu. Maharishi Bhrigu had one more son by Kavyamata, who is known as Shukra, the learned sage and *Guru* of the Asuras. The sage, Chyavana is also said to be his son through Puloma. One of his descendants was the sage, Jamadagni, who was the father of sage, Parshurama, who is considered as an avatar of Vishnu.

## Why did Bhrigu write Bhrigu Samhita?

Once many great sages and saints gathered at the bank of the river, Saraswati to participate in Maha Yagya organized by Daksha Prajapati, Bhrigu's father in law. But all of them could not decide which of the Trinity Lord Vishnu, Brahma and Shiva, is pre-eminent and to whom they should offer Pradhan Pada (Master Chair) of the Yagya. With the consensus of all, it was decided that Maharishi Bhrigu would test and decide, the pre-eminence of the three.

First, Maharishi Bhrigu decided to test Lord Brahma. He went on to see Lord Brahma in Brahmaloka. On reaching there the Maharishi showed utter disrespect to Lord Brahma. Lord Brahma got angry and wanted to punish the Maharishi but Maa Saraswati, the wife of Lord Brahma saved Maharishi from his anger. Maharishi Bhrigu cursed Lord Brahma that no one would worship Brahma in Kaliyuga. At present, there is one Brahma Temple at Pushkar near Ajmer in Rajasthan in India. Then Maharishi Bhrigu decided to visit Lord Shiva at Kailash Parvata. On reaching there, Nandi stopped him from going inside because, Shiva and Parvati were sporting fun. Bhrigu cursed that Lord Shiva would be worshipped in the form of Linga only. The temple of Maha Mrityunjaya in Kashi, which is in the form of Linga is said to be 400 years old.

Then in order to test Lord Vishnu, Maharishi reached the Vaikunth Dhama. He entered the Dhama without Lord Vishnu's permission and saw that the Lord was taking rest at that time. Maharishi asked him to wake up but Lord was in deep sleep. On seeing no reaction from Vishnu, Maharishi hit the Lord on his chest. Lord Vishnu got up after the stroke and realized what had happened. On realizing that Maharishi had hit him with his foot, Lord asked him, "Maharishi, are you hurt? My chest is strong but your foot is not so strong". On seeing the decorum of Lord Vishnu, Bhrigu was pleased and declared Him superior amongst the *Trideva*.

According to Hindu theology, the goddess of prosperity and wife of Lord Vishnu, Maha Lakshmi also witnessed the whole incident in the Vaikunth Dhama. She could not tolerate disrespect showed by Maharishi Bhrigu towards Lord Vishnu and cursed him that henceforth she would never visit Brahmins and they will all live in absence of wealth.

### **What is Bhrigu Samhita?**

After the incidence of curse, Maharishi Bhrigu decided to write his famous book of astrology, the Bhrigu Samhita, to help Brahmins earn their living. Maharishi Bhrigu collected birth charts, wrote the whole life predictions and compiled them together as Bhrigu Samhita. The Samhita is believed to be the first book of its kind in the field of astrology during the Vedic Period. It is said that the book contains 5 million horoscopes, in which Maharishi wrote down the fate of every human being in the universe. Maharishi Bhrigu is known as the "Father of Hindu Astrology" who authored the first astrological classic Bhrigu Samhita. It is believed that only about hundredth of these horoscopes have survived to this age. During foreign invasion, Brahmins scattered all over India, and each of them took some parts of Bhrigu Samhita. The invaders also captured this asset of Brahmins. The worst of it was the destruction of Nalanda University Library, where original Bhrigu Samhita was kept. At present, it is believed that about thousand leaflets of the horoscopes are available with a *Pandit* in Hoshiarpur (Punjab).

# Panchang and Its Five Limbs

## What is Panchang (Almanac)?

A Panchang is a Hindu calendar and almanac, which follows traditional units of Indian time keeping, and presents important dates and their calculations in a tabular form. Accuracy of attributes depending upon the Moon's motions is considered most crucial for reliability of the panchang, because the Moon is the fastest moving among all heavenly entities shown in traditional panchangs. Its all limbs, which are five in number i.e. Tithi, Vara, Nakshatra, Yoga and Karna, depend upon Moon's motions. The word 'Panchang' or 'Panchangam' is a Sanskrit word, literally meaning "having five limbs". If these five limbs or attributes depending upon Moon are accurate, an almanac is considered reliable, because other elements are not so difficult to compute due to their slow rates of change. In Vedic astrology "five attributes" or limbs of the day can be described as follows.

## Tithi or Miti (Lunar Date/Day)

The first attribute or limb is Tithi or Miti. It is the angular relationship between Sun and Moon (Apparent Moon minus Apparent Sun) is estimated a lunar day i.e. one Tithi or one Miti. One Tithi equals  $12^\circ$  degrees difference between Moon and Sun. The Moon completes  $360^\circ$  degrees in 30 Tithis or Mitis (Lunar days). In Indian calendar a Mass (Month) is of 30 days based on the shape of Moon. A complete circle (Full Moon) is called Poornima i.e. the full Moon day. The Moon starts decreasing during these 15 days. When it is not visible, it is called Amavasya. The Moon then starts increasing during another 15 days. The period, when Moon is increasing is called the Bright Half (*Shukal Paksha*) and the period, when Moon is decreasing is called the Dark Half (*Krishan Paksha*). Table for each Paksha is given below:

### Lunar Date – Shukal Paksha (Bright Half Tithi)

### Horas in a Vara (Week Day)

The word 'hora' means a unit of time equivalent to an hour. It is derived from two words "aho" and "ratra" meaning "day" and "night" respectively. Thus 'hora' also means the most primary two-fold division of time on the basis of the day and night. This takes into account not only the time frames but also the quality of time like the day is dominated or ruled by the Sun and the night by the Moon. This word also forms the first sub-division of the signs between two Hora's or hours ruled by the Sun and Moon. Thus, the word HORA broadly describes the quantity and quality of time. There are 24 Horas or Hours in a full day i.e. in a day and night.

## Nakshatra (Constellation):

The third limb is Nakshatara (Constellation). Our learned seers and sages have divided the 360° degrees of Zodiac in 27 sub divisions for astrological considerations. One sub division consisting of several stars or a group of stars having special shape and size like horse, dog, snake, deer, elephant etc. is called area of one constellation. It is further divided into four segments/quadrants. They are named after the bigger stars of the groups such as Krittika for Pleiades, Rohini for Aldebaran, Mrigshira for Lambda Orionis, Ardra for Betel Geuse, Punarvasu for Pollux, and so on.

Actually these Nakshatara (Constellations) are used as imaginary milestones or sky rail stations to know angular distance of the planets, which come in the way of the revolution of moon around Earth. One full day travelling distance of the Moon makes one tithi or Miti (lunar date). Indian Almanac (Panchangs) show these tithis or Mitis (lunar dates) along with calendar dates (solar dates). Tithi and day starts from one sunrise and ends to next sunrise, while calendar date and day starts from one midnight and ends at next midnight. One constellation in degrees is  $360^\circ \div 27 = 13^\circ-20'$  and its one segment/quadrant in degrees is  $13^\circ-20' \div 4 = 3^\circ-20'$ . Nine segments or  $2\frac{1}{4}$  constellations totalling 30° degrees confirm a sign (Rashi). It indicates that some of the constellations are not fully confined to a sign. They overlap the signs. To understand them well, see natural characteristics of 27 constellations with 12 signs in the following table.

## Classification of Constellations

At present the position of each constellation is seen a little bit backward in the sky. It is because of the motions of earth but no ill effect. Favourables are positive and beneficial as usual. Adverse are always adverse and harmful. Constellations on the basis of nature and temperament can be classified as under:

### SPECIAL NOTE

*Out of these constellations, last five 23, 24, 25, 26 and 27 are Panchak Sangyak. During Panchak days, none should do travelling to south direction, cover house (Shelter), cremate the dead (Pret Dah), collect grass and wood and knit a cot.*

Six constellations 1, 9, 10, 18, 19 and 27 are Mool Sangyak. During the days of these mool sangyak nakshatras, the birth of a child is considered harmful for the child himself/herself and his/her family especially in certain segments of these nakshatras. First segment of Ashwini, Magha and Moola nakshatras and fourth segment of Ashlesha and Jyeshtha nakshatras are said to be dangerous to the parents and the child. It is possible that the child may not survive, and if the child survives due to some good combinations, then he/she will be a halo of glory in old age. If Moon is in first or second segment of Jyeshtha at birth, it may cause danger to the life of elder brother/younger brother. His/her brother may be sickly or die. For happiness and peace of the child and family, after 27 days of birth i.e. on the day same Nakshatra is appearing, it is essential to perform Shanti path and Hawan at home.

Six are Gand or Khand Nakshatras, first two Ghatis (48 minutes) of No. 1, 9, 10 constellations and last two Ghatis (48 minutes) of No. 18, 19, 27 constellations. They are the junction point, where a sign and a constellation ends. It is considered a critical area. Birth in these Ghatis is also said to be dangerous for the child.

### Yoga

The fourth limb is Yoga. Yoga is the period during which the joint motion of longitudes of Sun and Moon amounts to 13° degree and 20' minutes of arc. It means One Yoga equals 13° degrees and 20' minutes. It is an Ending Moment of the angular relationship between Sun and Moon (Apparent Moon plus Apparent Sun). There are 27 Yogas in 360° degrees. A table of Yoga at birth and its effects is given below.

# Twelve Signs of Zodiac

## What is a Sign of Zodiac and/or a Rising Sign?

Now the question arises what is a Rising sign (An Ascendant Sign)? A Rising sign is the base value and face value of a birth chart. A Rising sign means the Ascendant sign (Lagna sign). Our Zodiac is constantly moving and all the twelve signs get an opportunity to rise to be an ascendant till 24 hours comprising a day. Generally, the duration of an Ascendant sign is two hours. Ascendant sign can also be Moon sign (Janam Rashi), if Moon occupies Ascendant sign (lagna rashi). Moon sign (Janam Rashi) means the sign, in which Moon is posited at the time of birth. In Vedic astrology Moon sign is called "Chandra lagna" and it is as important as Janam lagna (Ascendant) in a birth chart. The effects of the signs, in which Janam lagna or Chandra lagna falls, will almost be the same. Thus, both should be taken together, while predicting one's birth chart.

## Twelve Signs of Zodiac

The zodiac, an imaginary circle of 360° degrees, is a broad belt in the heavens extending about 9° degrees on each side of the path of the Sun. This path of the Sun is called ecliptic and it passes through the centre of the zodiac. Our learned seers divided this zodiac in 12 groups of bigger stars having different shapes and sizes of living/non living things such as a human's (a male or female), an animal's (a lion or a bull), a watery creature's (an alligator or a fish), non living's (a balance or a water pot). These 12 groups of bigger stars are known as 12 Signs of zodiac (Rashis). Each sign consists of 30° degrees and thus twelve signs constitute the zodiac, an imaginary circle of 360° degrees. The Sun takes about one month to cross one sign of zodiac to reach to the next, while Moon takes only 2 ¼ days to cross the area of a sign. All the 12 signs rise in the east every day after almost every two hours. The names are:

1. Aries 2. Taurus 3. Gemini 4. Cancer 5. Leo 6. Virgo 7. Libra 8. Scorpio 9. Sagittarius 10. Capricorn 11. Aquarius 12. Pisces

## Nine Planets with their Vedic Qualities & Mottos

In Vedic astrology seven of heavenly bodies and two nodes of Moon, total nine planets, are considered because of their size, proximity, and influence on the earth and on living and non living things. For various reasons, it is more convenient to speak of the Sun as transiting the zodiac instead of earth. It is very simple to imagine the earth as the centre of observation and all planets revolving around it. Although in astronomy Sun is the epicentre of the Universe and father of all the planets and they revolve around the Sun, yet in astrology earth and its inhabitants living and nonliving are more important, who are always being affected by the Sun. The same way, Moon being a satellite of the earth and revolving around earth is given the position of a planet. Moon appears to be going through one sign (rashi) to the next sign (rashi) making a circuit of about 28 days. Moreover, North and South nodes of Moon, Rahu and Ketu are also given the position of planets, though they are not the physical bodies. They are the points of intersection of the apparent lunar and solar orbital path. Rahu is north node (ascending) and Ketu south node (descending). Indeed they are shadowy planets but more effective and influential. Sun and Moon are the lords of simply one sign, While Mars, Mercury, Jupiter, Venus and Saturn are the lords of two signs. Rahu and Ketu are lords of no sign. Thus, total nine planets are given places in Vedic or Indian astrology. Natural characteristics of all the nine planets are as under:

### NOTE

1. *Degrees of different Planets are extremely important. Suppose there are 4 planets such as Venus, Mars, Rahu and Sun in one house of a Zodiacal Birth Chart. We need to know, which planet is in the highest degree in that sign/house. If Mars is having the highest degree in that sign/house, the results would be quite different from the other like Venus or Rahu or Sun having lesser degree. Therefore degrees should be noted while analyzing the results.*
2. *When the planets in Zodiacal Birth Chart move to the other house, they give 25% results in the moveable house and 75% of the houses in which they are sitting.*
3. *The planets in Zodiacal Birth Chart, if are Vakri, they give 25% results in the previous house and 75% of the house, in which they are sitting.*
4. *The planets sitting in benefic/malefic houses in Navansh Chart add some effect on the house, where the planet is posited in the Zodiacal Birth Chart.*
5. *The planets having 28, 29, 00, 01, 02 Degrees at the time of birth are weak, hence lead to poor and bad results. Planets with the Sun in a Zodiacal Birth Chart also lead to poor and bad results. Planets having 10° to 20° degrees longitudes are most powerful, hence bestow beneficial and better results.*

### Planetary Strength (Graha Bal)

Every planet is most powerful when it is in an exalted position. As and when it occupies other sign (Rashi), it becomes less powerful. For more details you can see the Planetary Table. To know the power of a planet the following points are to important. First see the degree of the planet to confirm the fact.

- (i) Most powerful, when the planet is placed in its Exalted sign.
- (ii) More powerful, when it is placed in its Mool Trikon sign.
- (iii) Powerful, when it is placed in its Own sign.
- (iv) Weak and afflicted, when it is placed in its Debilitated sign.

### Planetary Power or strength (Graha Bal) can be divided into six kinds:

- (i) **Positional Strength (Sthan bal):** The planets which are in its an exalted, own, friendly and mool trikon sign are called Sthan bali. Moon and Venus in even sign and remaining i.e. Sun, Mars, Mercury, Jupiter, Saturn, Rahu and Ketu in odd sign are Sthan bali.
- (ii) **Directional Strength (Dig bal):** Kendras in an Horoscope are called 1st house East, 4th house North, 7th house West and 10th house South. Mercury and Jupiter in 1st house, Moon and Venus in 4th house, Saturn in 7th house and Sun and Mars in 10th house are Dig bali.
- (iii) **Temporal Strength (Kaal bal):** Sun, Mercury and Venus are Kaal bali, when someone takes birth in day time. Moon, Saturn and Mars are kaal bali, when someone takes birth in night time. Jupiter is always kaal bali either the day birth or the night birth.

- (iv) **Permanent Strength (Naisargik bal):** Saturn, Mars, Mercury, Jupiter, Venus, Moon and Sun are more powerful in series. Mars is more powerful than Saturn, Mercury than Mars, Jupiter than Mercury, Venus than Jupiter, Moon than Venus and Sun than Moon. Sun is more powerful.
- (v) **Motional Strength (Cheshtha bal):** From Capricorn to Gemini sign, in any sign, if Sun and Moon are placed, they are called Cheshtha bali and if Mars, Mercury, Jupiter, Venus, Saturn are sitting with Moon, then they are Cheshtha bali.
- (vi) **Aspectal Strength (Dristhi bal):** If a malefic is aspected by a benefic planet, then it is called Dristhi bali. For example, if Saturn is sitting in 7th house and Jupiter is placed in 11th house. If Jupiter aspects Saturn by its 9th Dristhi, then Saturn will be called Dristhi bali.

### **Planetary State (Graha Awastha)**

Mainly there are ten types of planetary positions or states (Graha Awasthas), which affects human life everyday.

- (i) **Luminous (Deept):** When a planet is sitting in an exalted sign, it is called its bright (Deept) Awastha. The native gets transport facility, reputation and wealth. He has children and wins over enemies.
- (ii) **Healthy (Swastha):** When a planet is placed in its own sign, it is called in its healthy (Swastha) Awastha. The native gets reputation and wealth. He prospers the family. He has a beautiful wife and good children.
- (iii) **Happy (Mudit):** When a planet is sitting in a friendly sign, it is called in its happy (Mudit) Awastha. The native gets transport facility, honour, reputation and wealth. He has obedient children and wins over the enemies.
- (iv) **Peaceful (Shant):** When a planet is placed in a benefic sign/house of a Varga Kundli such as (Hora, Dreshkan, Santan, Chaturthansh, Navmansh, Dashmansh, Trishansh etc. kundlis), it is called its favourable (Shant) Awastha. This is an auspicious period. The native is learned, religious and a minister.
- (v) **Powerful (Shakt):** When a planet is Vakri in a sign/house, it is called in its powerful (Shakt) Awastha, it strikes on health and wealth of the native. If it is sitting in a benefit house, the native is popular, honourable and wealthy.
- (vi) **Unhappy (Peedit):** The span of life of a planet is 30° degrees. When it is between 0° to 3° degree or 28° to 30°, then it is called Unhappy (Peedit). It is ineffective and harmful. It creates enemies and brother's separation. The native resides in a foreign country.
- (vii) **Helpless (Deen):** When a planet is sitting in an inimical sign, it is called in its helpless (Deen) Awastha. It decreases wealth and inspires the native to do sins. The native suffers for his honour and reputation.
- (viii) **Vile (Khal):** When a planet is sitting in a debilitated sign, it is called Vile (Khal) Awastha. This is a troublesome period for the native. He spends much wealth on court cases and punishments for safety. The native feels mentally tensed and worried.
- (ix) **Disturbed (Vikal):** When a planet is combust due to nearness of Sun, it is called its Uneasy (Vikal) Awastha. When there is a difference of 12° degrees with Moon, 17° degree with Mars, 13° degree with Mercury, 11° degree with Jupiter, 9° degree with Venus and 15° degree with Saturn from the Sun, the planets are combust. The combust planets are ineffective. The native becomes poor, characterless and wanderer.
- (x) **Fearful (Bhayabheet):** When a planet moves fast on its track and tries to go ahead of others, it is called its fearful (Bhayabheet) Awastha. It affects badly. The native is powerless and gets defeat. He loses wealth and feels worried and troubled.

# Casting a Birth Chart?

## What is a Birth Chart?

A birth chart (Janam Kundli) is a sky map (space chart) which shows the positions of planets at the time of an Individual's birth in a square/triangular/circular shape chart with 12 columns called houses (bhavas). It is prepared on the basis of rising sign of zodiac in the eastern horizon putting it in the first house. The first house is known as Ascendant (Lagna).

## Requirements for casting a Birth Chart?

We need the four items i.e. exact date of birth, exact time of birth, exact place of birth and sidereal time in the form stating below for casting a Birth Chart of a person.

### Exact date of birth

Either English Calendar date that is solar date or Indian Panchang (Almanac) Tithi that is lunar date is required. The calendar date starts from one midnight to next midnight, while Panchang Tithi starts from one sunrise to next sunrise. The Calendar date from midnight to 12 Noon is called A.M. and from 12 Noon to Midnight is called P.M.

### Exact time of birth

Exact time of birth is the moment when the child is completely severed from umbilical cord of the mother and becomes a separate entity.

### Exact place of birth

Exact place of birth may be a village, a town and a city. Mention the village/town/city alongwith Latitudes North or South from Equator 0° Degree Latitude and Longitudes East or West from Greenwich 0° Degree Longitude. Also note that the I.S.T. was advanced by one hour from 01/09/1942 to 15/10/1945 almost 3 years because of War. While casting a birth chart of this period, deduct one hour.

## Sidereal Time

This is the time taken by the Earth to make one full rotation. It is not exactly 24 hours. It goes on changing according to increase or decrease in the duration of days and nights. It is called Vernal Equinox Time. It is a measurement of Earth's rotation with respect to the equinox, which has a very small retrograde motion.

## Casting a Birth Chart

Nowadays it is most easy to cast a Birth chart (Janam Kundli). In India many Almanacs (Panchangs) based on certain Latitudes and Longitudes of cities such as Solan, Chandigarh, Delhi, Jullundur, Neemach, Varansi, Jaipur etc. are available. In these Panchangs month-wise tables of ascendants (*Dainik Lagna Sarinis*) for the year are given. The tables of Latitudes and Longitudes of important cities of India and other countries of world are also given. Latitudes differ on time of Dainik lagna, therefore time correction is needed. For correction in time, other tables such as a table of conversion or change in time of ascendants i.e. Dainik Lagan Parivartan Sarini or Lagna Sanskar Sarini is also given. As per date, time and latitude of the place of birth, one can find out the correct time of desired lagna from Dainik Lagna Sarini after doing plus or minus for the difference in time of higher latitudes from eqater or if it needs for correction.

## Knowing correct Ascendant (Lagna) Through Sidereal Method

Recently Published "Ascendant and Astrological Tables" in English/Hindi is based on Sidereal Method applied by Akhil Bhartiya Jyotish Sanstha Sangh-X35, Okhla Phase-2, New Delhi-110020. It has introduced seven tables-(1) Sidereal time table (2) Yearly time correction table (3) Birth Place sidereal time correction table (4) Birth time hour-minute correction (5) Yearly Precession correction (6) Ascendant Tables (Lagan Sarinis) based on different latitudes and (7) Tenth house cuspal longitude table.

### NOTE

*The Sidereal time is based on the year 2001, time 00:00 hours on IST line 82°- 30° Longitude. First we have to calculate the correct Sidereal Time on the basis of date of birth of the person concerned. Here we take Mr. Narendra Modi Prime Minister, India and Late Mrs. Margaret Hilda Thatcher Ex. Prime Minister of England.*

Mr. Narendra Damodardas Modi Prime Minister, India DOB: 17-09-1950, TOB 12-21 (IST), POB-Vadnagar (Gujrat)

#### From table – 1

Hrs. Min. Sec.

Sidereal Time for 17-09-2001 = 23-43-05

#### From table – 2

Year 1950 Time Correction = (–) 00-02-33

Sidereal Time for 17.09.1950 = 23-40-32

#### From table – 3

Vadnagar Time Correction = (+) 00-00-06

Sidereal Time Total ..... (i) = 23-40-38

Mrs. Margaret Hilda Thatcher Ex. Prime Minister, England DOB 13-10-1925, TOB 11-14(BST), POB-Grantham (England)

Hrs. Min. Sec.

Sidereal Time for 13-10-2001 = 01-25-36

Year 1925 Time Correction = (–) 00-02-20

Sidereal Time for 13-10-1925 = 01-24-10

Grantham Time Correction = (+) 00-00-54

Sidereal Time Total ..... (i) = 01-24-10

Now we have to calculate Local Time at birth for Mr. Modi's birth Vadnagar (Gujrat) IST and Mrs. Margaret Hilda Thatcher's birth Grantham (England) BST.

Hrs. Min. Sec.

Birth Time = 12-21-00

Vadnagar Difference = (–) 00-39-28

Local Mean Time at Birth = 11-41-32

Hrs. Min. Sec.

Birth Time = 11-14-00

Grantham Difference = (–) 00-02-32

Local Mean Time at Birth = 11-11-28

**From table-4**

|                            | Hrs. Min. Sec. |                            | Hrs. Min. Sec. |
|----------------------------|----------------|----------------------------|----------------|
| City Time correction =     | (+) 00-01-55   | City Time correction =     | (+) 00-01-50   |
| Final Total --- (ii)       | = 11-43-27     | Final Total --- (ii)       | = 11-13-18     |
| Add (i) & (ii) Final Total | = 23-40-38     | Add (i) & (ii) Final Total | = 01-24-10     |
|                            | (+) 11-43-27   |                            | (+) 11-13-18   |
| Total (i) & (ii)           | = 35-24-05     | Total (i) & (ii)           | = 12-37-28     |
| Full day time              | (-) 24-00-00   | Full day time              | = 00-00-00     |
| Desired Sidereal Time      | = 11-24-05     | Desired Sidereal Time      | = 12-37-28     |

Now we have to find out Birth Ascendant and Cusp of Tenth house (Cuspal Longitude in Rashi Aans Kala Vikla).

|                                               |                                               |

| = 07-18-37-00                                 | = 07-15-05-39                                 |

**From table-5**

|                   |               |                   |               |

|---------------|---------------|---------------|---------------|
| Correct lagan | = 07-18-57-34 | Correct lagna | = 07-16-16-39 |
|---------------|---------------|---------------|---------------|

**From table-7**

|                    |               |                    |               |
|--------------------|---------------|--------------------|---------------|
| Cusp of 10th house | = 04-27-03-41 | Cusp of 10th house | = 05-17-22-23 |
|--------------------|---------------|--------------------|---------------|

**NOTE**

*In both the cases Birth Ascendant is Scorpio (Vrishchik Lagna). Now for the House Cuspal longitudes (Bhava Chalit Figures) for the above Birth Charts, we have to adopt following methods. We take Mr. Narendra Modi's chart.*

|                                                     |                 |                                                      |                 |
|-----------------------------------------------------|-----------------|------------------------------------------------------|-----------------|
| After knowing the longitude of<br>ascendant (lagna) | = 07-18-57-34   | After knowing the longitude of<br>Cusp of 10th house | = 04-27-03-41   |
| Add 6 Rashis to it to know<br>the cusp of 7th house | (+) 06-00-00-00 | Add 6 Rashis to it to know<br>the cusp of 4th house  | (+) 06-00-00-00 |
| Cusp of 7th house                                   | = 01-18-57-34   | Cusp of 4th house                                    | = 10-27-03-41   |

**Note:** Now we have collected the longitude for the cusps of first, seventh, tenth and fourth houses. For further we have used to methods.

**Two Methods**

For the longitude of cusps of remaining 8 houses we have to adopt be following methods. In case of Mr. Modi remaining calculations are as under—

1. First we have to minus the cuspal figures of 10th house from the cuspal figures of 1st house (Ascendant) (07-18-57-34) – (04-27-03-41) = 02-21-53-53 and

then take out one third part of the difference i.e.  $02-21-53-53 \div 3 = 00-27-17-58$ . After it, adds one third part of the difference to cusp of 10th house. It is cusp of 11th house. Add one third part of the difference to cusp of 11th house. It is cusp of 12th house.

2. Secondly we have to minus cuspal figures of 1st house (Ascendant) from the cuspal figures of 4th house ( $10-27-03-41$ ) – ( $07-18-57-34 = 03-08-06-07$ ) and then take out one third part of the difference i.e.  $03-08-06-07 \div 3 = 01-02-42-02$ . After it adds one third part of the difference to cusp of 1st house (Ascendant). It is cusp of 2nd house. Adds one third part of the difference to the cusp of 2nd house. It is cusp of 3rd house. Add 6 Rashis to cusp of 2nd house to know cusp of 8th house. Add 6 Rashis to cusp of 3rd house to know cusp of 9th house. Add 6 Rashis to cusp of 11th house to know cusp of 5th house. Add 6 Rashis to cusp of 12th house to know cusp of 6th house. Thus, you may cover the cusps of all the twelve houses.

## Two Methods

Now for calculating Junction longitudes (Sandhi) between the two cusps of the 12 houses, we have to adopt the following two methods.

1. First we have to minus the cuspal figures of 10th house from the cuspal figures of 1st house (Ascendant) i.e. ( $07-18-57-34$ ) – ( $04-27-03-41$ ) =  $02-21-53-53$  and then take out one sixth part of the difference i.e.  $02-21-53-53 \div 6 = 00-13-38-59$ . After it, add one sixth part of the difference to cusp of 10th house. It is Sandhi after cusp of 10th house. Add one sixth part of the difference to the cusp of 11th house. It is Sandhi after the cusp of 11th house. Add one sixth part of the difference to the cusp of 12th house. It is Sandhi after the cusp of 12th house. Add one sixth part of the difference to the cusp of 4th house. It is Sandhi after cusp of 4th house. Add one sixth part of the difference to the cusp of 5th house. It is Sandhi after the cusp of 5th house. Add one sixth part of the difference to the cusp of 6th house. It is Sandhi after the cusp of 6th house.

2. Secondly we have to minus cuspal figures of 1st house (Ascendant) from the cuspal figures of 4th house i.e. ( $10-27-03-41$ ) – ( $07-18-57-34$ ) =  $03-08-06-07$  and then take out one sixth part of the difference =  $03-08-06-07 \div 6 = 00-16-21-01$ . After it add one sixth part of the difference to cusp of 1st house (Ascendant). It is Sandhi after cusp of 1st house. Add one sixth part of the difference to the cusp of 2nd house. It is Sandhi after cusp of 2nd house. Add one sixth part of the difference to the cusp of 3rd house. It is Sandhi after cusp of 3rd house. Add one sixth part of the difference to the cusp of 7th house. It is Sandhi after cusp of 7th house. Add one sixth part of the difference to the cusp of 8th house. It is Sandhi after cusp of 8th house. Add one sixth part of the difference to the cusp of 9th house. It is Sandhi after cusp of 9th house. Thus you may cover all the twelve Junctions (Sandhis) between all the twelve houses.

## NOTE

*We can adopt the above formula in calculating the remaining House cuspal Longitude in case of Mrs. Margret Hilda Thacher Ex. P.M. England. We have calculated it and results are as under. You can check them. See below Mr. Modi, the male and Mrs. Thacher, the female house cuspal longitude tables (Bhava Spastha Sarinis).*

### NOTE

Both Birth Charts and Bhava Chalit Charts of Male, Mr. Narendra Damodardas Modi and Female, Mrs. Margaret Hilda Thacher with correct analysis of both are given. In Bhava Chalit Charts of both some planets have changed their house positions. In case of Mr. Narendra Damodardas Modi, Jupiter is now posited in 3rd house, Rahu in 4th house, Sun-Mercury-Ketu in 10th house and Mars in 12th house. In case of Mrs. Margaret Hilda Thacher, Ketu is now posited in 2nd house, Rahu in 8th house, Moon in 9th house, Sun- Mars in 10th house and Mercury in 11th house. In such a position 25% good or bad effects of the bhava changed planets goes to the next house. Therefore, it should also be kept in mind, while predicting a birth chart.

## Difference in the Birth Charts of Men and Women

The predictions given in this book are applicable for both male and female birth charts. There is practically not much difference in predictions except the following and when the female is not an independent earning member but living separately or maintaining separate individuality, then all the effects read out of her and certain few to the person, on whom she is totally dependant. He/She may be her father or mother or brother or husband.

Let us examine birth chart of an independent earning female. If her birth chart ascendant sign is an odd sign, she may be cruel and harsh but if an even sign, she may be kind and mild. It indicates her physical features such as complexion, beauty and appearance, her health and overall personality. The sign with 7th house will indicate the conditions of married life, sexual passions and relations, husband character, her fortune and personal happiness. The 8th house will show her longevity, widowhood and inheritance. The 4th house will tell her character. And her 5th house will inform about her progeny, conceptions and abortions.

There are certain other situations which affect on female's fortune and fame more than male. This piece of information require more attention to predict birth chart of a female. Especially some planets differently affect on female's life. Thus it is also necessary to study female's Navansh Kundli and Trishans Kundli for correct analysis. In this context, certain facts regarding characteristics of a female native as per Navansh Kundli and Trishans Kundli both are given below to get better judgement. Read them carefully.

### **Predictions of a female chart as per Navansh Kundli**

- (i) If Taurus or Libra sign exists in the 7th house of a female birth chart and Venus rises there in Navansh Kundli, her husband is dear to all, a pleasing personality.

# Laghu Parashari and Its Principles

## What is Laghu Parashari?

In astrology the most important and most difficult aspect is proper judgement of a Birth Chart or Horoscope. For correct analysis of a Birth Chart or Horoscope we must know about Laghu Parashari and follow Laghu Parashari Principles/Rules.

Laghu Parashari is an important treatise on Vimshottari dasa system. It is based on Brahat Parashar Horashastra, written in Sanskrit language in the usual Shloka format. It consists of forty-two verses divided into six Adhyaya (chapters). It is a brief but an important treatise on predictive part of Hindu Astrology. Its authorship is not known even though it is presumed that it was written by ardent followers of Maharishi Parashara. It contains all the fundamental Principles/Rules, on which the Parashari system is based. It is widely relied upon by the exponents of Hindu astrology and a text that is frequently cited.

Laghu Parashari is an outstanding model of our ancient standard style of perceptions, principles or rules in the form of Sanskrit Shlokas. These principles/rules govern the great Maharishi Parashar's the Vimshotri Dasha System. Maharishi Parashar's Vimshotri Dasha System is most important and time-tested. It is authentic and also unanimously accepted by all astrologers. In Vimshotri Dasha, Maharishi Parashar fixed the maximum span of life of a native as 120 years. It is on the basis of two reasons. One is triangular method of our Zodiac of 360° degrees. Its each angle consists of 120° degrees. Secondly the sum total period of rotation and revolution of all the nine planets on their path is also recorded 120 years. Thus, both the aforesaid contentions lead us to pin our faith in a 120 years life-span.

## Houses in a Birth Chart and Their Assignments

Now we take a birth chart or a horoscope. There are twelve houses (Bhavas) in a birth chart and every house (Bhava) is assigned as 1. Tanu Bhava (Body), 2. Dhanu Bhava (Wealth), 3. Sahaj Bhava (Brothers), 4. Sukh Bhava (Happiness), 5. Putra Bhava (Son), 6. Shatru Bhava (Enemy), 7. Stri Bhava (Spouse), 8. Mritue Bhava (Death), 9. Dharma Bhava (Religion), 10. Karam Bhava (Deeds), 11. Labh Bhava (Income), 12. Vayay Bhava (Expenditure) as already discussed in Chapter No.6. Regarding above 12 Bhavas (Houses) Assignments, here is a Sanskrit shloka in Brihatjatkam:

होरादयस्तनु कुटुम्बसहोत्थबन्धु पुत्रारिपत्निमरणानि शुभास्पदायाः।  
रिः फाख्यमित्युपचयान्यरिकर्मलाभ दुश्चक्यसञ्जिगृहाणि न नित्यमेकैः॥

## Nine Planets and their Lordships of Signs/Houses

There are nine planets Sun, Moon, Mars, Mercury, Jupiter, Venus, Saturn, Rahu and Ketu. The Sun and Moon have the lordship of one sign/house, while Mars, Mercury, Jupiter, Venus and Saturn have the lordship of two signs/houses. Rahu and Ketu have no lordship over any house. Rahu is called “Shanivat” (like Saturn) and Ketu “Mangalvat”(like Mars).

## Planetary Sangya Rules

### Adhyaya-1

This Adhyaya (chapter) has four Sanskrit shlokas. The first shloka narrates the prayer to “Reverent Veenadharini Goddess Saraswati” and then Laghu Parshari Sidhant, the Specific Principles/Rules to be kept in mind, while attempting a correct analysis of a Birth Chart, based on the Vimshottari-Dasha System as shown in Parashara- Hora-Shastra. The shloka is given below:

सिद्धान्तमौपनिषदं शुद्धान्तं परमेष्ठिनः।

शोणाधरं महः किञ्चिद् वीणाधरमुपास्महे॥ 1 ॥

- (i) We pray to Reverent Goddess Saraswati, who has red lips, who holds a Veena (a musical instrument) in her hand. She is the real strength of Lord Brahma, who is so gloriously worshipped in the Upanishads. The shloka is following.

वयं पाराशरीं होरामनुसृत्य यथामति।

उद्बुदायप्रदीपाख्यं कुर्मो दैवविदां मुदे॥ 2 ॥

- (ii) For the enlightenment of the learned astrologers, I (Author) hereby compose this Laghu Prashari based on Parashara Hora-Shastra. The shloka is given below.

फलानि नक्षत्रदशा प्रकारेण विवृण्महे।

दशा विंशोत्तरी चात्र ग्राह्या नाष्टोत्तरी मता॥ 3 ॥

- (iii) We will include the Astrological results (good or bad) of the Nakshatra Dasha Paddhati as shown in the Vimshottari-Dasha System. The shloka is given below.

बुधैर्भावादयाः सर्वे ज्ञेयाः सामान्यशास्त्रतः।

एतच्छास्त्रानुसारेण संज्ञां ब्रूमो विशेषतः॥ 4 ॥

- (iv) The learned should make themselves familiar with the fundamentals of Astrology through other works. Only the specific rules are explained here.

### Adhyaya-2

This Adhyaya (chapter) has nine Sanskrit shlokas. They deal with certain rules as follows.

- (v) **Planetary aspects:** All the planets aspect 7th house from their position but Saturn, Jupiter and Mars aspect two houses more. The following is shloka.

पश्यन्ति सप्तमं सर्वे शनिजीवकुजाः पुनः।

विशेषतः त्रिदशत्रिकोण चतुरष्टमान् ॥ 5 ॥

All the planets (Sun, Moon, Mars, Mercury, Jupiter, Venus, Saturn, Rahu, Ketu) aspect 7th house (Bhava) and the planets sitting there completely with a full sight from their placement or position. But the planets Saturn, Jupiter and Mars aspect two more houses (Bhavas) also completely with a full sight from their placements or positions. The Saturn aspects 3rd and 10th houses (Bhavas), Jupiter aspects 5th and 9th houses (Bhavas), and Mars aspects 4th and 8th houses (Bhavas).

(vi) **Lords of Trikonas:** The Lords of Trikonas are always beneficial and give good results. The following is the shloka.

सर्वे त्रिकोणनेतारो ग्रहाः शुभलप्रदाः।

पतयस्त्रिषडायानां यदि पापलप्रदाः॥६॥

All the planets owning Trines (Trikonas), i.e. the 1st, 5th and 9th Houses (Bhavas) by signs produce uniformly good results, whether they are benefics or malefics. If they own the Trik houses, i.e. the 3rd, 6th and 11th houses by signs, they are always disposed towards bad results. More clarification follows.

### **Lagna Bhava- 1st House**

Lagan Bhava (Ascendant house) is a first separate entity. It is also a part of other two categories, one category of Trikon Bhavas 5th and 9th houses and second category of Kendra Bhavas 4th, 7th and 10th houses. This is very important house and is called an auspicious house. Its lord benefic or malefic always shows good and beneficial results, whether its second Rashi (sign) appears in Trik houses i.e. in 8th house or in 6th house. When ascendant sign is Aries and lord is Mars, then its second sign Scorpio will appear in 8th house. Though 8th house is a Trik (inauspicious) house but results will be good and beneficial, because its lord Mars is the lord of ascendant also. Similarly when ascendant sign is Libra and lord is Venus, then its second sign Taurus will appear in 8th house. Though 8th house is a Trik (inauspicious) house but results will be good and beneficial, because its lord Venus is the lord of ascendant also. When ascendant sign is Scorpio and lord is Mars, then its second sign Aries will appear in 6th house. Though 6th house is a Trik (inauspicious) house but results will be good and beneficial, because its lord Mars is the lord of ascendant also. Similarly when ascendant sign is Taurus and lord is Venus, then its second sign Libra will appear in 6th house. Though 6th house is a Trik (inauspicious) house but results will be good and beneficial, because its lord Venus is the lord of ascendant also. If the second sign of lord of ascendant appears in Kendra, then it will also represent good and beneficial results. In case of Gemini or Virgo ascendant, if the second sign appears in Kendra, the results will be good and favourable. Similarly in case of Sagittarius or Pisces ascendant, if the second sign appears in Kendra, the results will be good and favourable. The Laghu Parashari following Sanskrit shloka enunciates the same:

अष्टमेशस्यापि दोषपरिहर्तुर्लग्नेशस्य षष्ठेशत्वेन केन्द्रेशत्वेन।

प्राप्तस्याशुभलस्य परिहारकत्वं भवत्येपि स्फुटत्वादवसेयम्॥

Therefore, lagna (ascendant) and lagnesh (Lord of ascendant) are always powerful and auspicious. May they be benefic or malefic? If the 2nd sign of lagnesh (Lord of ascendant) turns up in 8th or 6th houses called trik (inauspicious) houses results will be good and favourable. It means, lagnesh always weakens/lessens the bad and unfavourable results of the house.

### **Trikon Bhavas- 1st, 5th, 9th Houses**

We have already mentioned about ascendant and its lordship. Now we will take 5th and 9th houses, which are actual Trikon Bhavas. There is one more basic feature about Trikonas. If we count 5th and 9th houses from any house of a birth chart/horoscope, those houses will also be treated as Trikona Bhavas. If we count them from Kendra Bhavas i.e. from 1st, 4th, 7th, 10th houses, they will indicate four specific Trines concerned with Dharam, Artha, Kama, Moksha goals of Human life. For more details of these four Trikona Bhavas (Trines or Triangles) study chapter-22 of this book.

Here we are taking the specific 5th and 9th houses from the first house called ascendant (Janam lagna). The lords of 1st, 5th and 9th houses are always good and beneficial and favour the native. The lords of 3rd, 6th and 11th houses are malefic and give bad and harmful results.

### NOTE

*Pandit Sh. Sitaram Jha, Pandit Sh. Rameshwar Bhatt, Vidhyaratan Pandit Sh. Madhav Prasad Vyas, Raj Jyotishi Pandit Sh. Chaturvedi Chandrasekher Shastri all approve this shloka.*

The lords of 5th and 9th houses always represent good and beneficial results. They may be benefic or malefic. It is the Laghu Parashari Rules. As already stated, there are 9 planets such as Sun, Moon, Mars, Mercury, Jupiter, Venus, Saturn, Rahu and Ketu. The Sun and Moon have the lordship of one sign/house, while Mars, Mercury, Jupiter, Venus and Saturn have the lordship of two signs/houses. Rahu and Ketu have no lordship over any house. The planet having lordship of two signs, then one sign may appear in trikona and other may be either in Kendra or in 6th – 8th houses or in 3rd – 11th houses. In such a situation, the view, that lords of Trikonas should show good and bad results together, is not correct and they on the contrary represent good and beneficial results and always favour the native. The following three Shlokas delineate the same:

विद्या-धर्मौ गृहे चेत स्तस्तदा क्रूरोऽपि साधुताम्।  
 ब्रजेदतीव साधुत्वं साधुश्चैदितिदृश्यते॥  
 शरीरं च वशे यस्य स साधुः सभ्दिरुच्यते।  
 लग्नं शरीरमाख्यातं तस्माद् तदधिपः शुभः॥  
 नवमो धर्म भावोऽस्ति विद्याभावश्चपञ्चमः।  
 तस्मात् तदधिपत्येन ग्रहा सर्वे शुभप्रदाः॥

### Trishadya Bhavas – 3rd, 6th, 11th Houses

Now, we take the lords of Trishadayas. All show harmful or unfavourable results. If benefics are the lords of kendras, they will not represent favourable results and if malefic are the lords of kendras, they will not represent unfavourable results. If the lords of Kendras are also the lords of Trishadayas together, then being the lords of Kendras, they will postpone favourable results and being lords of trishadayas they will be treated as malefics and will also postpone unfavourable results. Both lords of Kendras and lords of trishadayas will show mixed results i.e. neither favourable nor unfavourable.

For example, we can take the Cancer lagna birth chart. Here auspicious Venus, the lord of 4th house (Kendra Bhava) and 11th house Trishadya Bhava will show unfavourable result.

And if a malefic is the lord of kendras together trishadayas, then being the lord of Kendras, it will be treated benefic and being lords of trishadayas it will be treated as malefic. This lord will imply mixed results. Calculations are given below:

If the second sign of an auspicious planet, the lord of Kendra appears in one of the 3rd, 6th, 11th Trishadya houses, then the results will be:

- (i) Shubh Kendresh (Auspicious lords of 1st or 4th or 7th or 10th house) + Ashubh Trishadayesh (Inauspicious lords of 3rd or 6th or 11th house) = Less favourable (Mixed results).

If the second sign of an inauspicious lord of Kendra appears in one of 3rd, or 6th, or 11th Trishadya houses, then results will be:

Ashubh Kendresh (Inauspicious lords of 1st or 4th or 7th or 10th house) + Trishadayesh (Inauspicious lords of 3rd or 6th or 11th house) = Less unfavourable (Mixed results).

Sanskrit shlokas about above results is:

आयः पराक्रमो वाऽपि शत्रुर्वाऽपि गृहे तदा।  
साधोरपि खलत्वं स्यादिति लोकेऽपि दृश्यते॥  
तस्मात् स्वभावतः सौम्याः पापा वा गगनेचराः।  
त्रिषड्वायधिपत्येन सर्वे पापफलप्रदाः॥

### NOTE

*If the lord of a Kendra or a Trishadaya house sits in its own sign, then it gives good results.*

- (vii) **Kendras and Trikonas:** Kendresh and Trikonesh are most powerful in the last as Trikonesh the lord of 9th house and Kendresh the lord of 10th house are most powerful.

केन्द्रकोणाधिपो यो हि स भवेत् त्रिषड्वायपः॥  
न दिशन्ति शुभं नृणां सौम्या केन्द्राधिपाः यदि।  
क्रूराश्चेदशुभं ह्येते प्रबला उत्तरोत्तम॥ 7 ॥  
or

दोषयुक् स तु विज्ञेयः पराशरमुनेरमतम्।  
क्रूराश्चेदशुभं ह्येते प्रबला उत्तरोत्तम॥ 7 ॥

It is commonly believed that benefics (Jupiter, Venus, strong Moon and well associated Mercury) when they own Angles (Kendras) by sign i.e. 4th, 7th and 10th houses they give good results; but as per Laghu Parashari this will not be true unless they are lords of Trines (Trikonas) simultaneously. In the same way, the malefics (Sun, Mars, Saturn, Debilitated or Waning Moon and Ill- associated Mercury) give bad results; but according to Laghu Parashari if they do not own Trishdayas i.e. 3rd, 6th, 11th houses (Bhavas), they do not give bad results and become progressively more and more powerful as lords of the 1st, 4th, 7th and 10th houses (Kendras). The details are following.

### Kendra Bhavas – 1st, 4th, 7th, 10th houses

Now we take kendras i.e. 1st, 4th, 7th, 10th houses and study them with Trikonas i.e. the 5th and 9th houses from 1st house (Janam lagna). If the second sign of the lord of 5th or 9th house appears in Kendra (1, 4, 7, 10 house), then results will be:

- Shubh Trikonesh (Auspicious Lord of 5th or 9th house) + Shubh Kendresh (Auspicious Lord of 1st or 4th or 7th or 10 house) = Shubh (Good and beneficial)
- Shubh Trikonesh (Auspicious Lord of 5th or 9th house) + Paap Kendresha (Inauspicious Lord of 1st or 4th or 7th or 10 house) = Ati shubh (Better and more beneficial)

If the second sign of the lord of 5th or 9th house appears in 6-8 houses, then results will be:

- Shubh Trikonesh (Auspicious Lord of 5th or 9th house) + Shubh Shashashtmesh (Auspicious Lord of 6th or 8th house) = Samanya Shubh (Ordinary beneficial),
- Ashubh Trikonesh (Inauspicious Lord of 5th or 9th house) + Paap Shashashtmesh (Inauspicious Lord of 6th or 8th house) = Ashubh (Harmful).

**Note:** The above Shlokas under Para-7 indicate it.

(viii) **Dhanu and Vayay Bhava- 2nd and 12th houses:** The lords of Dhanu and Vayay Bhava i.e. 2nd and 12th houses give neither good nor bad results. Read the following shloka.

लग्नाद् व्ययद्वितीयेषौ परेषां साहचर्यतः।

स्थानान्तरानुगुण्येन भवतःफलदायकौ॥ 8 ॥

The Lords of 2nd and 12th houses (Bhavas) are powerful not because of their own merit but they are greatly influenced in giving good or bad results by their placement position or association with other planet/planets in the same house in the Birth Chart.

The details are given below:

The lords of 2nd and 12th houses (Bhavas) generally show mixed results. In this case there may be two positions:

- (a) Parsahacharya position (Alliance or Association) - Planet sitting together
- (b) Sthanantaranugunta position - Position of the Lord of 2nd sign

For the first position, keep three things in mind:

- (i) They affect as per the house placement.
- (ii) They affect as per the lord of sign sitting together.
- (iii) They affect as per the sign and the lord of sign.

### NOTE

*If the lords of 2nd and 12th houses are placed in their own signs, then results will be mixed, and if they are sitting together with another planet, then results will be as under:*

- (i) If they are sitting in trikonas i.e. 5th or 9th house from ascendant or with the lords of trikonas, they will give auspicious results.
- (ii) If they are sitting in ascendant house (Janam lagna) or with the lord of lagna, they will give most auspicious results.
- (iii) If they are sitting in trishadayas houses i.e. 3rd/ 6th/ 11th house in an auspicious sign or with an auspicious sign lord of 3rd/ 6th/ 11th house, they will provide ordinary auspicious results.
- (iv) If they are sitting in trishadayas i.e. 3rd/ 6th/ 11th house in an inauspicious sign or with an inauspicious sign lord of 3rd/ 6th/ 11th house, they will provide inauspicious results.
- (v) If they are sitting in Kendra 1st/ 4th/ 7th/ 10th house in an auspicious sign or with an auspicious sign lord of 1st/ 4th/ 7th/ 10th house, they will provide most neutral results.
- (vi) If they are sitting in Kendra 1st/ 4th/ 7th/ 10th house in an inauspicious sign or with an inauspicious sign lord of 1st/ 4th/ 7th/ 10th house, they will not convey inauspicious results.

### For the second position – The conformity of the 2nd sign.

If the 2nd sign of zodiac of the lords of 2nd and 12th houses appears in another house, then results will be different as below:

- (i) If lords of 2nd and 12th houses are Sun and Moon, then the results may be as per planet sitting together, because both Sun and Moon are the lords of single signs of zodiac i.e. Leo and Cancer signs.
- (ii) If the 2nd sign of 2nd and 12th houses appears in Trikona or Kendra bhavas, the results will be beneficial.
- (iii) If the 2nd sign of 2nd and 12th houses appears in Trishadya houses (3rd, 6th 11th bhavas), the results will be ordinary beneficial.

- (iv) If lords of 2nd and 12th houses are malefics and the 2nd sign of 2nd and 12th houses appears in Kendra bhavas, the results will be beneficial.
- (v) If lords of 2nd and 12th houses are benefics and the 2nd sign of 2nd and 12th houses appears in Kendra bhavas, the results will be ordinary or neutral.
- (ix) **Aayu and Mirtue Bhava – The 8th house:** Ayu and Mirtue Bhava i.e. The 8th house is always harmful. Read the following shloka.

भाग्यव्याधिपत्येन रन्धेशो न शुभप्रदः।  
स एव शुभसंघाता लग्नाधीशोऽपिचेत्स्वयम्॥ 9 ॥

The Lord of the 8th house (Randhresh) by virtue of being the 12th house (Vyayesh) from the 9th house (Bhagyesha) does not produce good results. If it happens to be the lord of the Ascendant (Lagna) the 1st House and occupies lagna bhava (the 1st house) or the 8th house (Bhava), he becomes benefic. The details are given below:

The above shloka indicates that 12th house (Vyaya Bhava) from 9th house (Bhagya Bhava) is 8th house (Bhava). It is harmful (unfavourable) for luck. Its lord is treated most inauspicious and always shows bad and harmful results. It is a trik or dustha bhava (Inauspicious house). It is similar to 12th house from Janam lagna. If its 2nd sign is in first house or in lagna bhava, then it will show good and beneficial results. Maharishi Varahmihir wrote in his book- "If a planet meets with another planet of opposite qualities, the results are as per size and degree of quality. That may be beneficial or mixed. The following shloka confirms:

एकग्रहस्य सदृशे फलयोर्विरोधे, नाशं वदेद्यदधिकंपरिपच्यते तत्।  
नान्यो ग्रहः सदृशमन्यफलं हिनस्ति, स्वां स्वां दशामुपगताः स्वफलप्रदा स्युः॥

### Sun and Moon planets in the 8th house

It is a fact that the lord of 8th house is inauspicious and always represents bad and harmful results. It is said about Sun and Moon, if they are the lord of 8th house, they will show good and beneficial results. Indeed it is not correct. It is experienced that they show bad and harmful results but the least as compared to other planets.

- (x) **Kendradhipatya dosh:** Both Jupiter and Venus being benefics and lords of kendras may turn out to be killers. Read the following shloka.

केन्द्राधिपत्यदोषस्तु बलवान् गुरुशुक्रयोः।  
मारकत्वेऽपि च तयोर्मारकस्थानं संस्थितिः॥ 10 ॥

When Jupiter and Venus (Both benefics) are the lords of the Angles (Kendras) their nature is extraordinary evil. If they own or occupy the Maraka Bhavas as lords of the Angles (Kendras), they become powerful killers.

- (xi) **Nature of Mercury and Moon:** The nature of Mercury and Moon differs from the nature of Jupiter and Venus. Read the following shloka.

बुधस्तदनु चन्द्रोऽपि भवेत् तदनु तद्विधः।  
न रन्ध्रेशत्व दोषस्तु सूर्याचन्द्रमसोर्भवेत्॥ 11 ॥

The Mercury has lesser evil nature as compared to Venus. The Moon has the least evil nature. Moon's evil nature is less than that of Venus or lesser than Mercury. The Sun and the Moon being Asthmesh (The lord of the 8th house) are not evil. The details are given below:

- (a) Although Jupiter and Venus are the most auspicious planets, yet if they are kendresh i.e. lords of 4th, 7th and 10th houses, they are treated most inauspicious (Ashubh or Maraka). If they are sitting in their own signs in Kendra, they are most–most inauspicious (Atiashubh or Atimaraka). After Jupiter and Venus, Mercury is inauspicious (Ashubh or Maraka). Moon is the least inauspicious (Sabse Kam Ashubh or Least Maraka).
- (b) Sometimes one sign of benefics is in Kendra. In this position they show lesser favourable results. As already stated in Kendradhipatyā dosh, when both the signs appears in Kendra, they show least favourable results. Such situation especially comes up, when ascendant is Gemini or Virgo sign of Mercury and Sagittarius or Pisces sign of Jupiter, then both the signs are in Kendra. Mercury and Jupiter bears affliction and indicate unfavorable results
- (xii) **Yogkarka planets:** Malefic Mars as lord of 10th house is Yogkarak. Read the following shloka.

कुजस्य कर्मनेतृत्वप्रयुक्ता शुभकारिता।  
त्रिकोणस्यापि नेतृत्वे न कर्मशत्वमात्रतः॥ 12 ॥

When Cancer is the ascendant, the malefic Mars is not only the lord of the 10th house (Kendra bhava) but also the lord of 5th house (Trikona bhava). Being both lord of Kendra and Trikona gives good results. More clarification follows.

When Mars is the lord of 10th house, it is treated auspicious but it is not correct. It shows good and beneficial results only, if it is the lord of Trikonas (Lord of 5th or 9th house) together. The conjunction of Kendras and Trikonas are always yogkaraka. Read the following shloka.

“केन्द्रत्रिकोणाधिपयोरेकत्वे योगकारकौ।”

If one planet is both Kendresh and Trikonesh, it is called the best position/situation. When ascendant sign is Cancer of Moon, Mars will be the lord of 5th house (Trikon Bhava) and 10th house (Kendra Bhava). If it is placed in its own sign Aries in 10th house, Mars will be most yogkaraka. Regarding this fact here a shloka follows:

“दशमेऽंगारको नास्ति स जातः किं करिष्यति।”

Regarding Yogkaraka Mars there is one other shloka in “Bhavarth Ratnakar”

कर्कटे जायमानस्य भौमो योगप्रदो भवेत्।  
पंचमे वाथवाराज्ये योगदो भवति ध्रुवम्॥

In such a situation malefic Mars represents good and beneficial results. It will aspect 1st, 4th and 5th houses and increase the position of 1st, 4th and 5th houses. When ascendant sign is Libra, Saturn is the lord of 4th and 5th houses. It is also Yogkaraka and shows good and beneficial results. It will aspect 7th, 11th and 2nd houses and increase the position of 7th, 11th and 2nd houses.

Regarding Yogkaraka Saturn, there is a shloka in “Bhavarth Ratnakar.” Read the following shlokas:

तुला लग्ने तु जातस्य शनिर्योगप्रदो भवेत्।  
तृतीयषष्ठनाथोऽपि गुरुर्योगप्रदो भवेत्॥

## Marak Bhava – 2nd, 7th houses

Except lagna, the 4th, 7th, and 10th houses are called Kendra bhavas. If the Sagittarius and Pisces signs of Jupiter and Taurus and Libra signs of Venus are placed in 4th and 10th house, they will not be more inauspicious than 7th house. The 7th house is the strongest Marak house (Bhava). In such a situation Venus and Jupiter being benefics will not be beneficial, they will be death inflicting planets (Maraka Grahas). Mercury and Moon are lesser Marak than Venus and Jupiter. They do not kill the native.

There are other preliminary principles about Kendradhipatya Dosh, Maraka planets Venus and Jupiter, Mercury etc. and other planets, Sun and Moon planets, Yogkarka planets and Rahu-Ketu planets.

## Marak Planets Venus and Jupiter

The 2nd and 7th houses are death inflicting houses (Maraka Bhavas). If the signs of Jupiter and Venus are in 4th and 10th houses, they will be less inauspicious. And if the signs of Jupiter and Venus are in 7th house, they will be most inauspicious. When we take Jupiter or Venus placed in 7th house, they will be death inflicting planets (Maraka Grahas).

## Mercury etc. and other planets

Mercury is the lord of two signs Gemini and Virgo but Moon is the lord of one sign Cancer. If signs of Mercury or sign of Moon appears in 7th house, Mercury will be lesser inauspicious (Maraka) than Venus and Jupiter but more inauspicious (Adhik Maraka) than Moon. Moon will be least inauspicious (Maraka)

(xiii) **Rahu-Ketu planets:** Rahu and Ketu planets result according to their position in the house. Read the following shloka.

यद्यद्भावगतौ वापि यद्यद्भाववेशसंयुतौ।  
तत्तत्फलानि प्रबलौ प्रदिशेतां तमोग्रहौ॥ 13 ॥

Rahu and Ketu in spite of being in dignity, give good or bad results according to their position or association. The details are following:

Rahu and Ketu are Chhaya Grah (Intersecting points). They have no lordship over any house. In the house, where they are sitting, if it is an auspicious house, they will show good and beneficial results. If they conjoin a benefic planet, they will also indicate good and favourable results. The principle is that they bestow effects according to the house and lord of the house.

(xiv) **Conjunction of the lords of Trikonas and Kendras:** The Conjunction of the lords of Trikonas and Kendras produces extraordinary good Yogakaraka results. Read the following shloka.

केन्द्रत्रिकोणपतयः सम्बन्धेन परस्परम्।  
इतरैरप्रसक्ताश्चेद् विशेषफलदायकाः॥ 14 ॥

When they exert mutual aspect and reception between the lords of angles and Trines and their second sign does not fall in any other house than Angles and Trines, they give extraordinary good Yogakaraka results.

The conjunction or combination of the lords of Trikonas (1st, 5th, 9th houses) and Kendras (4th, 7th, 10th houses) is called Rajyoga. It always implies good and beneficial results. Read the following shlokas:

The principles and rules are:

- (a) If the lords of Trikonas (1st, 5th, 9th houses) and Kendras (4th, 7th, 10th houses) in one's birth chart conjoin together, the native is fortunate.
- (b) If Janam lagna-Janam lagnesh, Chandra lagna-Chandra lagnesh, Surya lagna-Surya lagnesh are powerful, the results will be more favourable.
- (c) If all trikonesh and kendresh conjoin together, the native will be most fortunate, wealthy, happy and chairing a higher post. He will live long.

If the lords of Trikonas (1st, 5th, 9th houses) are powerful, the results are favourable and if weak, the results turn to unfavourable. It is experienced that if Trikonesh conjoins with Janam lagnesh or Chandra lagnesh, the results are favourable and the native is definitely fortunate and if it does not or conjoins with the lord of an inauspicious sign/house, the results are unfavourable and native is unlucky.

### Kinds of Conjunctions or Combination

There are four types of conjunctions or combinations:

**Combination 1: Through sitting together:** If two planets are placed in a house, it is called sitting together combination

**Combination 2: Through aspecting each other:** If any two planets aspect each other, it is called aspecting each other combination.

**Combination 3: Mutual Interchange of signs:** If two planets are placed in each other's sign such as Sun in Aries sign of Mars and Mars in Leo sign of Sun, it is called interchange of signs (Rashi ParivartanYoga).

**Combination 4: Positional aspect:** If a planet (A) aspects another planet (B) in planet (A)'s own sign, such as Mars, the lord of Scorpio sign aspects Sun placed in Scorpio sign, it is called positional aspect. Read the following shlokas.

यो यो भावः स्वामिदृष्टो युतो वा सौम्यैर्वा स्यात् तस्याभिवृद्धिः॥

In all above positions, the best combination is No. 3, after it No. 2 and No. 4 and in the last and least is No. 1. The following shloka defines it.

स्वर्क्षतुंगत्रिकोणास्था मित्रर्क्षाशगता अपि।

आश्रिताः केन्द्रे ते सर्वेऽन्योऽन्यकारकाः॥

It is important to know that the planets, which are placed in its own sign or in exalted sign or in friendly sign or in their Navansha are called karakas. They represent good and beneficial results. If trikonesh and kendresh have friendly combination, they are treated yogkaraka. They also indicate good and beneficial results. When they are in the grip of other planets especially the lords of Trishadayas (3rd, 6th, 11th houses) and lord of 8th house, their friendly combination fails to show good and beneficial results. Thus, combination with the lords of Trishadayas or the lord of 8th house, the results differ. There are four types of results.

- (a) Trikonesh and Kendresh in trikona or kendra bhava means it is extraordinary good and beneficial results.
- (b) Trikonesh and has Kendresh in neutral bhava (Similar bhava) means the best beneficial results.
- (c) Trikonesh and Kendresh in Shubh (Auspicious) trishadaya bhava means medium results.
- (d) Trikonesh and Kendresh in Paap (Inauspicious) trishadaya bhava or 8th bhava indicates bad and harmful results.

- (xv) **Results of Afflicted Kendresh and Trikonesh:** Afflicted Kendresh and Trikonesh mutual aspect leads to good results. Read the following shloka.

केन्द्रत्रिकोणेनेतारौ दोषयुक्तावपि स्वयम्।  
सम्बन्धमात्राद्बलिनौ भवेतां योगकारकौ॥१५॥

Lords of the powerful Trine and Angle, i.e. the 10th and the 9th houses, in spite of being lords of trik houses by their second signs, if they have mutual aspect, reception or association, give good results.

### Defects of Kendresh

- (a) To be an auspicious planet such as Venus and Jupiter
- (b) The 2nd sign should be in 3, 6, 8, 11 houses
- (c) The combination with the lords of 3, 6, 8, 11 houses
- (d) To be inauspicious and sitting in 3, 6, 8, 11 houses
- (e) To be debilitated or combust or placed in an inimical house

### Defects of Trikonesh

- (a) The 2nd sign should be in 3, 6, 8, 11 houses.
- (b) To be debilitated or combust or placed in an inimical house.

### NOTE

*Pandit Vinayak Shastri opines that the debilitated, combust or placed in an inimical house Kendresh and Trikonesh are more harmful than those having the lordship of 3, 6, 8, 11 houses.*

- (xvi) **The Best clarification of Rajyoga:** For details on Rajyogas, read the following shloka.

निवसेतां व्यत्ययेन तावुभौ धर्मकर्मणोः।  
एकत्रान्यतरो वापि वसेच्चेद्योगकारकौ॥१६॥

The first of this relationship is considered superior to the 2nd house, which in turn is superior to that of the 3rd house.

- (xvii) **Rajyoga of the lords of 10th and 9th houses and others:** There are several Rajyogas but their results differ. Read the following shloka.

त्रिकोणाधिपयोर्मध्ये सम्बन्धी येन केनचित्।  
केन्द्रनाथस्य बलिनो भवेद्यदि सुयोगकृतः॥१७॥

This has a doubt, whether the effects in all the Angles. Trines will be the same or varied in any way. This point has been clarified in the succeeding shloka. The details are given below.

- (a) It means, the first Rajyoga is effective only then, when the lord of 10th house is placed in 9th house and the lord of 9th house is placed in 10th house i.e. Rashi Parivartan yoga.
  - (b) The Second Rajyoga is effective, when the lord of 10th house and the lord of 9th house both are placed either in 10th house or in 9th house i.e. conjunction of lords.
- (xviii) **Yoga becomes most effective:** A combination of Trikonesh (lord of 5th or 9th house) and Dashmesh (lord of 10th house) always leads to most effective position and better results. Read the following shloka.

दशास्वपि भवेद्योगः प्रायशो योगकारिणोः।  
दशाद्वयीमध्यगतस्तदयुक् शुभकारिणाम्॥118॥

The Lords of 5th and the 9th Trine houses are considered powerful, and if they make a relationship with the lord of powerful 10th Kendra house, then such a Yoga becomes most effective.

- (xix) **The Best Rajyoga:** Any trikonesh (lord of 5th or 9th house), if conjoins with strong kendresh especially lord of 10th house, forms the best Rajyoga.

Strong kendresh (Lord of 4th or 10th house), if conjoins with any trikonesh (Lord of 5th or 9th house) forms the best Rajyoga. Read the following shloka.

योगकारकसम्बन्धात् पापिनोऽपि ग्रहाः स्वतः।  
तत्तद्भुक्त्यनुसारेण दिशेयुर्योगजं फलम्॥119॥

Now benefics give auspicious results, even without any relationship during their Dasha period. Whether the malefic will be instrumental in showing the Yogaphal, even if they are related or not its answer is given in the above shloka.

- (xx) **Most auspicious position of yogkaraka:** If Kedresh and Trikonesh is one, it is most auspicious position of Yogkaraka. Read the following shloka.

केन्द्रत्रिकोणाधिपयोरे कत्वे योगकारकौ।  
अन्यत्रिकोणपतिना सम्बन्धो यदि किं परम्॥120॥

If the same planet happens to own the Angle and Trine the results are propitious. If it has relationship with the Lord of any other Trine, the effect will be most auspicious. More clarification follows.

If kedresh and trikonesh is one and the same, it is yogkaraka and forms the best Rajyoga. If it establishes or fixes some relation to the other Trikonesh, it is the best Rajyoga.

- (xxi) **Rahu-Ketu Rajyoga:** When Rahu or Ketu becomes rajyogkarka. Read the following shloka.

यदि केन्द्रे त्रिकोण वा निवसेतां तमोग्रहौ।  
नाथे नान्यतरेणापि सम्बन्धाद्यागकारकौ॥121॥

If Rahu or Ketu occupying an Angle or Trine has relationship with the Lord of any other Angle or Trine, the Yoga will be effective.

If Rahu or Ketu is placed either in Kendra or in Trikona and conjoins or forms some relation with Trikonesh or kendresh, it is yogkaraka position and they show good and beneficial results.

- (xxii) **The relationship of Lords of the 9th and 10th houses:** Relationship is not conducive, when they are the lords of 8th and 11th houses. Read the following shloka.

धर्मकर्माधिनेतारो रन्ध्रलाभाधिपे यदि।  
तयोः सम्बन्धमात्रेण न योगं लभते नरः॥122॥

If the Lords of the 9th and 10th houses are also respectively Lords of the 8th and the 11th, their relationship is not conducive to any Yoga. More clarification follows.

## Rajyoga Bhang Position

If second sign of a Kendresh or a Trikonesh appears in 8th or 11th house and that Kendresh or Trikonesh forms no relation with other Kendresh or Trikonesh, it is rajyoga bhang position.

## Planetary Ayurdaya Rules Adhyaya-4

This chapter has six Sanskrit shlokas (23 to 28). They deal with Ayurdaya i.e. longevity of life showing good or bad results.

(xxiii) **The longevity of life:** The 8th house from the Ascendant and the 8th from the 8th houses, i.e. the 3rd house from the Ascendant are two houses of longevity of life. The houses related to death are the 12th from each of these. Thus, 2nd and 7th are the Death inflicting or Maraka houses.

अष्टमं ह्यायुषः स्थानमष्टमादष्टमं च यत्।  
तयोरपि व्ययस्थानं मारकस्थानमुच्यते॥२३॥

## Principles and Rules of longevity of life

These principles and rules are related to the life span of the native. The 8th house from Janam lagna is called first Aayu Bhava and from 8th house to 8th i.e. 3rd house from Janam lagna is called secondary Aayu Bhava. Dwadash Bhava from any bhava (House) is a Vyaya Bhava (House of loss). Therefore, Dwadash Bhava (Vyaya Bhava) from 8th house is the 7th house and Dwadash Bhava (Vyaya Bhava) from 3rd house is the 2nd house. Both these two 7th and 2nd houses are Marak Bhavas (Death Inflicting houses). The malefics sitting in these two houses or the lords of these houses indicate death to the native during their Dasha period.

## (xxvi) When the death of the native is possible

Read the following shloka about the death possibility of the native.

तत्राप्याद्यव्ययस्थानाद् द्वितीयं बलवत्तरम्।  
तदीशितुस्तत्र गताः पापिनस्तेन संयुताः॥२४॥

Out of these two Maraka houses (2nd and 7th houses) the 2nd house is more powerful. During the Mahadasha (Ruling) period of the lords of the 2nd and the 7th houses, or the malefics occupying or associated with them, the death of the native is possible.

## (xxv) Death Inflicting Planet: Read the following shloka.

तेषां दशाविपाकेषु सम्भवे निधनं नृणाम्।  
तेषामसम्भवे साक्षाद्द्वयधीशदशास्वपि॥२५॥

If a native, before his birth, has already lived/passed the Dasha periods of the aforesaid Marakas or no malefic is there with the Markesh (Death Inflicting Planet) or occupy these houses, the Lord of the 12th house from the Ascendant during its Mahadasha period may be expected to inflict death.

## Decision of Marak Bhava (Death Inflicting House)

Both the 7th and 2nd Marak Bhavas (Death Inflicting Houses) are powerful. To know which is more powerful, read the book written by Major S. G. Khot, which included the quoted the views of Late H. N. Katve, Late V. G. Navathe, Late Pandit Raghunath Shastri Patverdhan (All Marathi Annotators), Pandit Jyotistirth Sitaram Jha, Pandit Rameshwar Bhatt, Rajjyotishi Chaturved Chandra Shekhar Shastri (All Hindi Annotators), and authors of Shuslok Shatak and Uddhot. All of

them believe that the 2nd Marak Bhava (Death Inflicting House) is more powerful than 7th Marak Bhava (Death Inflicting House).

Sajjan Ranjani an annotator says that in the 2nd house a sitting malefic is more powerful than the lord of the 2nd Marak Bhava (Death Inflicting House). During Mahadasha-Anterdasha period, it affects prior to the lord of the 2nd house. Read the following shloka.

(xxvi) **Death in dasha of a benefic Lord of the 12th house or the Lord of 8th house:** Death in dasha of a benefic Lord of the 12th house or the Lord of 8th house is possible. Read the following shloka.

अलाभे पुनरेतेषां सम्बन्धेन वययेषितुः।  
क्वचिच्छुभानां च दशास्वष्टमेसदशासु च॥26॥

In absence of the Dasha period of all or any of these Lords, the Dasha of a benefic planet to the Lord of the 12th house may be stated as responsible for inflicting death. End may also be possible in the Dasha of the Lord of the 8th house.

(xxvii) **Other Marak Bhavas (Death Inflicting Houses):** Read the following shloka about other Marak Bhavas.

केवलानां च पापानां दशासु निधनं क्वचित्।  
कल्पनीयं बुधैर्नृणां मारकानामदर्शने॥27॥

In absence of the aforesaid Marakas, the death inflicting agents may be traced to the succeeding lords, who may prove fatal in their major or sub-ruling periods.

(xxviii) **Saturn as Specific Maraka Graha (Most inflicting planet)**

Except Sun and Moon, all the planets are Maraka (Death Inflicting) planets. Rahu and Ketu, if sitting in 6th or in 8th or in 12th house, they are also Marak (Death Inflicting) planets. Saturn is the first Death Inflicting planet. The list of all the Marak (Death Inflicting) Planets is given below. Read the list carefully.

- (i) The lord of 7th house and malefic sitting there
- (ii) The lord of 2nd house and malefic sitting there
- (iii) Kendresh Venus and malefic sitting there
- (iv) Kendresh Jupiter and malefic sitting there
- (v) Dwadashesh and malefic sitting there
- (vi) Dwadashesh friendly planet
- (vii) Debilitated, inimical, combust benefics
- (viii) All Malefics
- (ix) The lord of 8th house

मारकैः सहसम्बन्धान्निहन्ता पापकृच्छनिः।  
अतिक्रम्येतरान् भवत्येव न संशयः॥28॥

If Saturn is ill-disposed and is Sambandhi (related) to Maraka planets, it will be the first Death Inflicting planet.

**First Marak Bhava (Death-Inflicting House)**

According to the views of Pandit Vinayak Shastri, the 7th Marak Bhava (Death Inflicting House) is treated as first powerful Marak Bhava followed by the 2nd Marak Bhava (Death-Inflicting House). It appears more correct because 8th house

is the first Aayu Bhava and its Vayay Bhava is 7th house. So this should certainly be the first powerful. He has proved it in the following shloka.

निश्चितायुः स्थानव्ययत्वात्सप्तमस्याधिक बलवत्त्वं समुचितम्।  
आनुषंगिकायुव्ययत्वाद् द्वितीयस्यतदपेक्षया न्यूनबलवत्त्वमप्युचितम्॥

More Sanskrit Shlokas regarding Marak Bhavas are given below:

“भाग्यव्ययाधिपत्येन रन्ध्रेशो न शुभप्रदः।”

“अष्टमं ह्यायुषः स्थानं।”

Thus we can say that the 7th house is the first powerful Marak Bhava and the 2nd house is the second powerful Marak Bhava. The 12th house is also taken as the 3rd Marak Bhava. The Malefics sitting in these houses are more powerful than the lords of these above three houses. They show their full strength or influence on the life span of the native during their Vimshotri Dasha period. Thus sitting Malefics may not be left out, while analyzing longevity of the native.

### NOTE

*According to the “Parashar Hora Shastra” both the Marak Bhavas are powerful. The following Shloka defines it.*

मारकस्य दशाकाले मारकस्थस्य पापिनः। पाके पापयुजां पाके संभवे निधनं दिशेत्॥  
असंभवे व्ययाधीशदशायां मरणं नृणाम्। अभावे व्ययभावेशसंबन्धिग्रहभुक्तिषु॥  
तद्भावेऽष्टमेशस्य दशायां निधनं पुनः। एतदृशांतर्भुक्त्यादौ विचार्यैव मृतिं वदेत्॥

**Example 1.** Venus in Aries ascendant (Mesh Lagna)

Venus in Aries ascendant (Mesh Lagna) birth chart is the lord of 7th and 2nd both the houses, hence it is the strongest Marak. Read the following Shloka from Bhavarth Ratnakar:

मेष लग्ने तु जातस्य धनसप्तमनायकः।  
शुक्रः करोति निधनमिति ज्यौतिषिका विदुः॥

**Example 2.** Mars in Libra ascendant (Tula Lagna)

Here is an exception that Mars in Libra ascendant (Tula Lagna) birth chart is the lord of 7th and 2nd both the houses but it is not treated as Marak planet. Read the following Shloka from Bhavarth Ratnakar:

तुला लग्ने तु जातस्य धनसप्तमनायकः।  
न करोति कुजः पापः निधनं तु न संशयः॥

The reason is behind it that the benefic Venus is afflicted with Kendradhipatya Dosha, while malefic Mars is not afflicted with Kendradhipatya Dosha.

**Example 3.** Saturn in Cancer ascendant (Kark Lagna)

Saturn in Cancer ascendant (Kark Lagna) birth chart is the lord of 7th house, hence it is treated as Maraka (Death Inflicting) Planet.

### Finding out Longevity of Life

The longevity or span of life of the native may be long, medium or short. It depends on the placement of the planets in the houses and signs in one's birth chart. See the birth chart of a person whether he/she has been bestowed with some longevity (span of life). It will be vain and merely a fun, if we analyze and predict about his/her facts of life such as health, education, profession, income, marriage, married life, status, dignity and overall personality without knowing his/her survival life-span.

Though the 2nd and 7th houses are called the Marak (Death Inflicting) houses, yet it is not necessary that the lords of these two houses may be the Marak (Death Inflicting). The planet occupying or aspecting these two houses may also be the Marak (Death Inflicting).

Ordinarily it is considered that one's Ascendant (Lagna) is enough to find out one's longevity or span of life but it is experienced that all the time it does not appear to be true. However we can consider lagnas as one factor of longevity or span of life.

- (i) If Lagna is Taurus or Libra or Capricorn or Aquarius in a birth chart, the person may be short lived.
- (ii) If Lagna is Gemini or Virgo, the longevity of life may be medium or average.
- (iii) If lagna is Cancer or Leo, the person may be long lived.

### **Three divisions of Span of life – Long, Medium, Short**

#### **1. Long span of life**

Long span of life (Dirghayu) period is fixed from 64 to 96 years of age (death in old age). It is called longevity (Dirghayu yoga). Those, who live more than 96 years of age and die in 100 years of age or after, that is called maximum longevity (Parmayu yoga).

#### **Reasons for long span of life**

- (i) If the 8th house owner and Saturn both are posited in 8th house, the person surpasses longevity.
- (ii) If owners of 1st, 8th, and 10th houses are placed either in kendras or in trines, he/she will live long.
- (iii) If Saturn is placed in lagna, Jupiter in 4th and Sun in 10th houses with lagnesh, a person lives long life.
- (iv) If all benefics are located in 1st six houses from lagna and malefics in next 6th houses from lagna in one's birth chart, the person is well educated, well behaved, virtuous and long lived (Dirghayu).
- (v) If lagnesh is friendly to Sun, the person surpasses a long span of life.
- (vi) If Jupiter is placed in kendras from lagnesh, the person surpasses 96 years of age.
- (vii) If ascendant is a dual sign and its owner is in Kendra in its exalted or mool trikon or own sign or friendly sign, the native enjoys a long life.
- (viii) If lagna is Leo and four planets occupy 5th and 9th houses, the person beats 100 years of age.
- (ix) If lagna is Taurus or Cancer occupied by Jupiter and three planets in their exalted signs, he may complete 100 years or and more than 100 years of age.

#### **2. Medium span of life**

Medium span of life (Madhyayu) period is fixed from 32 to 64 years of age (death in adulthood) in fully matured age. Those, who live longer than short span of life and live up to 64 years of age, surpass a medium span of life. It is known medium longevity of life (Madhyayu yoga).

#### **Reasons for medium span of life**

- (i) If lagnesh is weak, Jupiter is placed in one of 1, 4, 7, 10, 5, 9 houses and malefics are in 6th, 8th and 12th houses, the native completes average age.
- (ii) If 8th house lord occupies 1st or 4th or 7th or 10th house and Mars in 1st house and Jupiter in 3rd or 6th or 11th house, one completes average age.

- (iii) If Saturn is in lagna, Moon in 8th house and other planets in 11th house, he completes average years of age.
- (iv) If Jupiter is in lagna in its own Sagittarius sign and Mars, Rahu are in 8th house, one has medium span of life.
- (v) If Moon is placed with malefics in 6th or 8th house and 8th house lord is in 7th house, he completes medium span of life.
- (vi) If Venus is in 10th house aspected by Mercury, Jupiter and Moon, he completes medium years of age.
- (vii) If Aquarius is lagna and Jupiter is in 8th house and malefics are in kendras, he acquires medium span of life.
- (viii) If Venus is in lagna, Mercury and Saturn are in kendras and other exalted planets are in 3rd or 11th house, the person surpasses medium years of age.
- (ix) If Saturn is placed in Lagna, Moon in 4th, Mars in 7th, Sun in 10th with Jupiter and Mercury with Venus in an unfavourable house, he surpasses medium span of life.
- (x) If lagnesh is Mercury, the person has an average span of life.
- (xi) If Moon is placed in lagna in its sign Cancer, Sun in 7th house and Saturn in 8th house, he completes medium span of life.
- (xii) If a person is born in daytime and in his/her birth chart malefics occupies 8th house from Chandra lagna, he enjoys medium span of life.
- (xiii) If owner of Moon sign (Chandra lagnesh) is placed in 8th house with malefics and owner of 1st house is in 6th house with malefics and not aspected by benefics, he surpasses medium span of life.
- (xiv) If malefics are placed in 6th, 8th and 12th houses from the house, where lagnesh is placed, the native has medium span of life.
- (xv) If both Chandra lagnesh and Hora lagnesh are placed in 8th house and 8th house owner is in Kendra, one has medium span of life.

### **3. Short span of life**

Short span of life (Alpayu) period is fixed from 0 to 32 years of age. It can be further divided into three degrees i.e. short, shorter and shortest. Those, who live only for a few hours, days, months, years up to 8 years, their age is treated as shortest span of life (Balaristh Alpayu yoga) death in childhood. Those, who live more than 8 years up to 20 years, their age is called shorter span of life (Yogaristh Alpayu yoga) death in teenage and those, who live longer up to 32 years, their age is counted short span of life (Sampuran Alpayu yoga) death in young age. Some astrologers are of the opinion that short span of life goes up to 42 years of age, so it should also be kept in mind.

### **Reasons for Short span of life**

- (i) If the lords of 1st and 8th houses are debilitated or weak.
- (ii) If both 1st and 8th houses are in the aspect of debilitated or weak planets.
- (iii) If lord of 1st and 8th houses being one and the same is placed in 6th or 12th house and is aspected by Saturn, the life will be short. It does in the case of Aries and Libra lagans, where Mars and Venus are one and the same.
- (iv) If the lord of 1st house is debilitated or weak and at the same time, this house subject to strength of 8th house is occupied by a planet in debilitated situation or is aspected by debilitated or weak planet.
- (v) If the lord of 8th house is debilitated or weak and 1st house is aspected by debilitated or weak planet.
- (vi) If both the houses 1st and 8th are occupied by debilitated or weak planets.

- (vii) If the lord of 8th house is debilitated or weak and 8th house is afflicted by two natural malefics by their location or aspect, life will be short lived.
- (viii) If the Moon is placed in 1st sign in conjunction with or aspected by Saturn, and the 8th house lord is in 1st house or Sun is debilitated or weak, life is short.
- (ix) If the child is born at the time when Moon is crossing in the area of a Gand Star i.e. in 1, 9, 10, 18, 19, 27 stars and the lord of Moon sign is in 1st house.
- (x) If both the lords of 8th and 1st houses occupy 1st house.
- (xi) If both the Sun and Moon are debilitated or weak and afflicted by malefics.
- (xii) If the lord of a sign, where lord of 8th house is posited, occupies 1st house with its lord, life is short.
- (xiii) If Rahu and Ketu are in 3rd and 9th or 5th and 11th houses in conjunction with the lord of 1st house except malefic Mars, life is short.
- (xiv) If both the Sun and Moon are debilitated in 5th and 9th houses and aspected by Saturn.
- (xv) If malefics are placed in 2nd and 12th houses and not aspected by benefics.

### **Principles to Assume Long Span of Life**

- (i) When ascendant sign and its lord and Moon sign and its lord are powerful.
- (ii) When there is an aspect or combination of benefics.
- (iii) When Janam lagnesh or Chandra lagnesh is placed in 1st, 4th, 7th, 10th, 5th, 9th, 2nd, 11th, 8th house.
- (iv) When malefics are sitting in 3rd, 6th, 11th house.
- (v) When Jupiter or Jupiter and Moon combination is in first house (lagna).
- (vi) Union of lagnesh (Lord of lagna) and asthmesh (lord of 8th house) or friendly, powerful and Shirsodai.
- (vii) Lagnesh and Asthmesh in its own sign, in exalted sign, in friendly sign.
- (viii) Lagnesh, Jupiter and Venus placed in 1st, 2nd, 5th, 9th house or in Kendra.
- (ix) Powerful Benefics in Kendra or Trikona

### **Principles to Assume Short Span of Life**

- (i) When ascendant sign and its lord and Moon sign and its lord are weak and in the grip of Malefics.
- (ii) When ascendant sign and its lord and Moon sign and its lord are combust and placed in 6th, 8th, 12th house.
- (iii) When the birth is in Rashi Sandhi, in bad omen, in Chaturdashi or Amavasya tithi.
- (iv) When Moon with malefic is placed in Kendra or 8th house.
- (v) When malefics are placed in Kendra or Trikona or 8th house.

### **Gemini method of longevity**

We can also use the Maharishi Gemini method to find out longevity of the native. Maharishi Gemini

Choose three groups of signs where planets are placed (1) Lagnesh and Asthmesh (2) Moon and Saturn (3) Janam lagna and Hora lagna to analyze longevity of a native. To know in details, see the following table.

## FOR PRACTICE

*In the same way make another two groups (1) Saturn and Moon (2) Janam Lagna and Hora Lagna. Work out the longevity. If from all the three groups one and the same longevity appears, then it is acceptable. If two are same and one differs or all the three differ, then add all the years and divide by 3 and note the Quotient (Bhagphal). This will be the age group of the native. It may be long (Dirghayu) or medium (Madhyayu) or short (Alpayu). In such a case Hora lagna may also be quoted.*

## Planetary General Dashaphal Rules

### Adhyaya-5

This Adhyaya (Chapter) has eight Sanskrit shlokas (29 to 36). They deal with Planetary Dashaphal showing good or bad results. There are some general rules regarding results of Mahadasha and Anterdasha Dasha period of a planet.

### General rules (Mahadasha and Anterdasha)

- Any planet whether Yogkaraka or Maraka in its own Anterdasha, neither Yogkaraka will show specific Yogkaraka results nor Maraka the specific Maraka results. Both will show ordinary results.
- The Yogkaraka planet will indicate the best Yogkaraka results, when Anterdasha of a Yogkaraka auspicious or relative (Sambandhi) planet starts.

- (iii) If Mahadasha of a Maraka Planet is running, then its Anterdasha will not be death-inflicting. It will be simply painful.
- (iv) The Maraka planet will show the worst Maraka (Death inflicting) results, when Anterdasha of a Maraka or relative (Sambandhi) planet starts.
- (v) Yogkaraka planet will show the mixed results, when Anterdasha of a Maraka planet starts.
- (vi) Mahadasha of a Yogkaraka or a Maraka and Anterdasha of a nearest relative (Sambandhi) of a Yogkaraka or a Maraka will indicate the best/worst results accordingly. The formula to understand Mahadasha and Anterdasha is following:
  - (a) Mahadasha of a Yogkaraka + Anterdasha of a Strongest Yogkaraka = The best favourable results.
  - (b) Mahadasha of a Maraka + Anterdasha of a Strongest Maraka = The worst unfavourable results.
- (vii) Sambandhi or Sadharmi planets are the two decisive factors in Anterdasha period. During Mahadasha of a Yogkaraka and Anterdasha of a relative Maraka or inauspicious planet will not be very good. During Mahadasha of a Maraka or inauspicious planet and Anterdasha of a Yogkaraka or auspicious planet will not be very bad. Both ways results will be ordinary. Here read the clearer formula below:
  - (a) Mahadasha of an Auspicious + Anterdasha of an inauspicious or Maraka = The ordinary results.
  - (b) Mahadasha of an inauspicious or a Maraka + Anterdasha of an auspicious = The ordinary results.

### Specific Rules According to the Position

- (xxix) **Anubhaya-dharmi (Neutral):** The results of such planets during Mahadasha and Antardasha of their own are neither good nor bad. They give ordinary results. Read the following shloka.

न दिशेयुर्ग्रहाः सर्वे स्वदशासु स्वभुक्तिषुः।  
शुभाशुभफलं नृणामात्मभावानुरूपतः॥29॥

All the planets do not give good or bad results during the period of their own Antardasha in their own Mahadasha. They give ordinary results

The Lord of Mahadasha affects as per its own specifications of nature. Read the following shloka.

आत्मसम्बन्धिनो ये च ये वा निज सधर्मिणः।  
तेषामन्तर्दशास्वेव दिशन्ति स्वदशाफलम्॥30॥

- (xxx) The Lord of Mahadasha gives his own Mahadasha effects in the Antardasha of those planets, who are Sambandhi i.e. related to him or are of the same nature i.e. the Lords of 9th house and 5th houses give similar results as that of the Lord of Mahadasha.
- (xxxi) Neutral Planets Mahadasha and Sadharmi – Aharmi planets Anterdasha results

The Neutral Planets give mixed results. Read the following shloka.

इतरेषां दशानाथ विरुद्धफलदायिनाम्।  
तत्तत्त्वानुगुण्येन फलान्यूह्यानि सूरिभिः॥31॥

Those Planets, who give results contrary to the Lord of similar house (Sambhadhi) on the Lord of Mahadasha, the effects in their Antardasha are

done through adjustment between the two, the Lords of the Mahadasha and those of the Anterdasha. An admixture of good and bad effects is seen in the Antardasha of the Lord of Trishdaya during the Lord of Mahadasha, if they are unrelated (Asambandhi).

(xxxii) **Kendresh Mahadasha:** Trikonesh Anterdasha and Vice-Versa results.

If Mahdashesh and Anterdashesh have mutual relationship, there will be good results otherwise bad. Read the following shloka.

स्वदशायां त्रिकोणेशभुक्तौ केन्द्रपति शुभम्।

### **Planetary Mishra Dashaphal Rules**

#### **Adhyaya -6**

This Adhyaya (Chapter) has eight Sanskrit shlokas (37 to 42). They deal with Planetary Mishra Dashaphal results. Here the following classification of planets is to be noted.

#### **1. Related (Sambandhi)**

Sambandhi and Sadharmi planets are those, which are Yogkaraka to Yogkaraka, Maraka to Maraka, Neutral to Neutral, Trishadaya to Trishadaya etc.

#### **2. Unrelated (Asambandhi)**

Asambandhi/Adharmi/Virudha-dharmi are those, which are Yogkaraka and inauspicious planets, Auspicious and inauspicious planet, Yogkaraka and Maraka planet, Auspicious and Maraka planet etc.

## NOTE

*Some planets are neutral. They are called Anubhaya-dharmi.*

When main period (Mahadasha) and sub period (Anterdasha) is one and of the same planet, it does not show his entire good, bad or death like results. It shows ordinary results only. The Lord of Mahadasha indicates good or bad or death like results only in Anterdasha of a planet, who is nearest relative (Sambandhi) and similar in characteristic and quality (Sadharmi). The Saturn, Rahu, Mercury and Jupiter have very long periods orderly 19, 18, 17, 16 years. Thus, good or bad or death like results depend on the Anterdasha period of Related (sambandhi), Unrelated (Asambandhi) and neutral (Anubhaya-dharmi) planets.

(xxxvii) Mahadasha of malefics and Anterdasha of related/unrelated Yogakarakas

The results during the Mahadasha period of malefics and Antardasha period of related/unrelated benefics and Yogakarakas differ in results. Read the following shloka.

पापा यदि दशानाथाः शुभानां तदसंयुजाम्।  
भुक्तयः पापफलदास्तत्संयुक्शुभ भुक्तयः॥३७॥

During the Mahadasha of malefic planets the results are invariably unfavourable in the Anterdasha of unrelated benefics. These results are mixed, good and bad in the Anterdasha of related benefics. And these results are especially bad in the Anterdasha of unrelated Yogakarakas.

(xxxviii) Mahadasha of a malefic and Antardasha of related/unrelated benefic and unrelated Yogakaraka.

In above situations the results always differ as bad/very bad/mixed. Read the following shloka.

भवन्ति मिश्रफलदा भुक्तयो योगकारिणाम्।  
अत्यन्तपापफलदा भवन्ति तदसंयुजाम्॥३८॥  
or  
असम्बन्धी शुभस्येह समा चान्तरदशा भवेत्।  
असम्बन्धी खलस्येह समा चान्तरदशा क्वचित्॥

If the Lord of Mahadasha is malefic, then the Anterdasha of unrelated benefic always gives bad or evil results. The Antardasha of the related benefic gives mixed results but Anterdasha of the unrelated Yogakaraka gives very bad results.

**(xxxix) Results of Death inflicting planets**

The death inflicting planets become Maraka only during their Mahadasha period and unrelated planets Anterdasha period. Read the following shloka.

सत्यपि स्वेन सम्बन्धे न हन्ति शुभ भुक्तिषु।  
हन्ति सत्यप्यसम्बन्धे मारकः पापभुक्तिषु॥३९॥

Death inflicting planet does not become a killer (Maraka) during its Mahadasha period and the Anterdasha period of related benefics. Rather, it becomes a Maraka during the period of unrelated malefics.

(xl) Results of Mahadasha of Venus and Anterdasha of Saturn and Vice Versa Saturn enhances the result of Venus and Venus extends the results of Saturn from good to better and better to the best during their Mahadasha/Anterdasha period. Read the following shloka.

(xli) During the Anterdasha of Saturn in the Mahadasha of Venus, Saturn enhances the result of Venus, so is the case during the Anterdasha of Venus in the Mahadasha of Saturn, Venus extends the results of Saturn. In other words the Anterdasha Lord acts according to the Mahadasha Lord.

(xlii) Results of Mutual Exchange of Position (*Rashi Parivartan yoga*)  
If there is a mutual exchange of *lagnesh and dashmash* (the lords of 1st and 10th houses), they signify status, power and reputation of the native. Read the following shloka

लग्नकर्माधिनेतारावन्योन्याश्रयासंस्थितौ।  
राजयोगाविति प्रोक्तं विख्यातो विजयी भवेत्॥४१॥

If the lord of the Ascendant (Lagna, the 1st house) and that of the 10th house (Karam bhava) mutually exchange their positions i.e. the Lord of the Ascendant (Lagna, the 1st house) is posited in the 10th house that is the Lord of 10th house in the Ascendant (Lagna, the 1st house), they form a Rajayoga. The native is renowned.

(xliii) Results of Mutual Exchange of Position (*Rashi Parivartan yoga*)  
If there is a mutual exchange of Bhagyesh and Karmesh (the lords of 9th and 10th houses), this situation gives name, fame and power to the native. Read the following shloka.

धर्मकर्माधिनेतारावन्योन्याश्रयासंस्थितौ।  
राजयोगाविति प्रोक्तं विख्यातो विजयी भवेत्॥ ४२॥

According to No. 41, if the Lord of the 9th house (Bhagyesh) and that of the 10th house (Karmesh) mutually exchange their positions i.e. they are posited in each-others house, they then form a Rajayoga. This Rajyoga also blesses with name, fame and power to the native. The native is an administrator.

## Views about Rahu-Ketu Aspects

The original scriptures of Jyotish written by Maharishi Prashara never talks about the aspects of Rahu and Ketu since they are blind planets and do not have light. You cannot see them in the sky like other physical bodies. However, you also have to understand that Prashara Hora Shastra, the written text of original astrology, is an incomplete book in itself. The book is not a manual from A to Z. It is a code breaking text, which requires higher intuitive powers to comprehend this divine science. The Maharishi left the book incomplete, because he wanted the rest of the information, which was just as valuable as the physical written text, to be accessed by a professional. Those individuals practise extensive sadhna (meditation) and live a “Satwic” (purity and goodness) lifestyle. Such sadhna exposed more information about Jyotish later in the timeline of India. Maharishi Bhrgu wrote about the aspects of Rahu and Ketu in “Bhrgu Samitha.”

The reason why the 5th and 9th House aspect has been assigned to Rahu and Ketu is due to their Karmic effect. Rahu and Ketu show our Karmas of past life of what we achieved and failed to achieve, and what we are to accomplish in this lifetime. The 5th House is the house of past life deeds and karma, while the 9th House shows the deeds and karma of this lifetime.

### Observation made by the author

When I first started practising Vedic astrology, and looked at people's birth chart without using the Rahu-Ketu 5th and 9th aspects, I faced many problems overlooking the importance of the Rahu-Ketu 5th and 9th aspects, which led to problems and inaccuracies even during the interpretation of my own horoscope. Once I found out about Rahu-Ketu 5th and 9th aspects from a noteworthy astrologer, everything was understood and made sense, why certain careers are chosen, why marriages take place, why parental relationships are so important and so on.

DOB: 15 : 10 : 1931, TOB: 11 : 55 A.M. (IST), POB: Rameshwaram (Tamilnadu)

**Birth Chart**

**Navansh Chart**

### Astrological Observations

The above kundli of Sagittarius lagna belongs to our Ex. President of India, Avul Pakir Jainulabdeen Abdul Kalam. At first he worked as a research scientist, who invented missile for the protection of the country from enemies. The Sagittarians are courageous, honest, hard working and inventive. They are successful in government service. Mr. A. P.J. Abdul Kalam successfully completed his 5 years tenure (2002 to 2007) as a President of India. Being born in the Jyeshtha Nakshatra he was joyful and charitable kind.

### Lagna Considerations

The Lagnesh Jupiter is situated in 8th house of research and scientific inventions in its exalted Cancer sign and aspects Moon in 12th house adjoining lagna in ascending position. The Surya lagnesh Mercury is placed in 10th house in its exalted Virgo sign with Sun and Ketu and influences lagna. The Chandra lagnesh Mars is situated in 11th house with Venus in the Libra sign. In Navansh chart the lagnesh Venus friendly Mercury is sitting in the Leo sign while the Sun in Virgo sign; hence there is Rashi Parivartan yoga between Mercury and Sun in Navansh kundli. In birth chart Sun, the significator of 1st and 10th houses influences lagna. Thus, lagna is fortified.

### Planets Placements, Aspects, and Combinations

The Lagnesh Jupiter placed in its exalted sign Cancer in 8th house of research and scientific inventions is powerful. It aspects 12th house owned by Mars and Moon sitting there, 2nd house owned by Saturn and 4th house of its own interrelating and reinforcing the 8th, 12th and 4th Moksha house of Vairagya trine. The Saturn alone is posited in lagna and aspects 7th and 10th houses and three planets sitting in 10th house, Mercury the owner with Sun and Ketu. It aspects 3rd house also its own sign Aquarius. The Lagnesh Jupiter is placed in Navansh chart in the Aquarius sign of Saturn while in birth chart the Saturn is situated in lagna and aspects exalted Mercury in 10th house. These positions made Dr. Abdul Kalam a scientist who invented missile and became famous as a Missile Man. Due to Saturn's position in the Sagittarius lagna, Dr. Abdul Kalam achieved every thing easily. From the 8th house exalted Jupiter added more strength to provide him research abilities. The Sun forms the Vesi yoga being two planets ahead other than Moon and Ravi yoga being Sun in 10th house of

Karmas (actions) and Moon Durudhara yoga having planets on both sides other than Sun. All these yogas helped him to be healthy, happy, honest and virtuous. He was a man of high calibre.

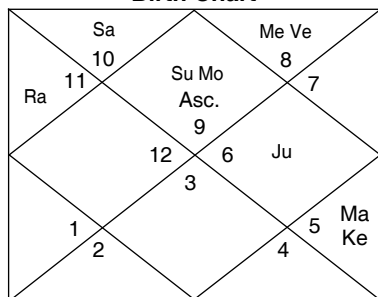

### Conclusion

On the basis of above placements, aspects and combinations of planets, we can conclude that Jupiter played a very important role from 8th house of science and research being situated in an exalted sign Cancer and aspected 12th and 4th houses to make him popular and to be known as a Missile Man all over the world. Thus, there is a strong correlation of 8th, 12th and 4th Moksha houses of Vairagya trine. Here, Saturn from lagna aspected Mercury, Sun and Ketu in 10th house of actions and the exalted Jupiter lagnesh from 8th house is assisted it to strengthen Dr. Kalam's popularity. Thus, we saw that the 8th house is more powerful in his birth chart. He fell down while delivering a speech at Shilong and died on 27th July, 2015 at the age of 83 years. May his soul rest in peace.

In the Navansh kundli it is also located in the 10th house. In both charts it is aspecting 2nd and 6th houses. It is a good placement for Jupiter. It brings wealth and prosperity through business. The Venus is Vargottam being in Scorpio sign in both the charts.

The owner of both the houses i.e. 1st house of health and happiness and 4th house of comforts and luxuries, Jupiter is placed in 10th house and aspects 2nd house of wealth and its owner Saturn occupying the 2nd house of its own. Jupiter aspects 6th house too. The Venus, the 6th house owner and friendly Mercury, the 10th house owner are sitting in 12th house and both aspects the 6th house. Thus it is a good reinforcement and interrelation of 2nd, 6th and 10th Artha houses of Aishwarya trine. The 2nd house owner Saturn aspects 4th house of comforts and luxuries of Jupiter and is raising its status. The Saturn aspects 11th house of income owned by Venus placed in the 12th house. ## Navansh Chart

It is the Capricorn Ascendant (Makar Lagna) birth chart. The Capricorneans are sensible, prudent and determined. They are most practical, have strong will power and ambitious. They are quite stubborn in their purposes. They are disciplined, hard working and expert in immediate decision-making. They never compromise with wrong arguments of others but they focus on their aims for the better achievements. They adjust them as per the surroundings and circumstances. The above birth chart (Janam kundli) belongs to the famous Roman Catholic Religious Sister and Missionary Mother Teresa, who took her own decisions to achieve her aims. Born in Kritika nakshatra, she was Intelligent, sweet-spoken, friendly, peace-loving, far-sighted, benevolent, reliable, practical, truthful, and dutiful.

The Janam Lagnesh retrograde Saturn is situated in the 4th house with Moon in its debilitated position in the Aries sign of Mars. From 4th house Saturn aspects its own Capricorn sign in Janam Lagna and its exalted sign Libra of Venus in 10th house (Karam Bhava). The Chandra lagnesh Mars is placed in the 8th house in the Leo sign of the Sun and Surya lagnesh Sun is also sitting in the 8th house in the Leo sign of its own. The Mars sitting in the 8th house aspects 11th house of income (Labh Bhava) in Scorpio sign of its own, the 2nd house of wealth Mool trikon Aqarius sign of Saturn. The position of Lagnesh Saturn with the Moon in 4th house of happiness in debilitated Aries sign of Mars is not good. The position of Significator (Karak) Sun placed in the 8th house is also not good. This position created loss of family happiness and pleasures in the life of Mother Teresa and made her a Social Worker. It weakened her strength and gave her anxieties. The Venus sitting in the 7th house in the Cancer sign of Moon made her benevolent and exalted Mercury and Jupiter religious. She became Nun. The Ascendant Significator

(Karak) and Lord of 8th house Sun placed in the 8th house in its own Leo sign with malefic Mars, the lord of 4th house and inimical Jupiter the lord of 12th house, this interconnection of the 4th, 8th, 12th Moksha Trikona houses compelled her to leave the country of birth. She arrived in India on 6th January 1929 via Ireland and made Calcutta her place of charity to serve the orphans and poor/old people having diseases such as HIV, leprosy, tuberculosis. The Ubhaichari yoga and Moon-Saturn yoga made her a saint. The Ketu placed in 11th house also assisted in instilling a sense of detachment from worldly cravings.

# Planetary Combinations (Yogas) and Their Effects

The word Yoga is derived from its root 'Yuj' a Sanskrit word, which means to join or link. In Vedic astrology Yoga means a special planetary combination or connection or association either in auspicious houses or in inauspicious houses in one's birth chart. Yogas reveal native's inherent inclinations, possibilities of political power and influence, wealth, aristocracy, asceticism, miseries, debts, dishonesty, corruption, terrorism etc. Here one factor is to be noted that the combination of a combust planet is no combination (yoga). Good and right combination (disposition) improves the status of the person and he/she earns name, fame, honour, dignity, wealth and prosperity. He/she may be happy and healthy. Bad and wrong combination (disposition) mars the status of the person and makes his/her life miserable, desperate and sorrowful. He/she may become sick, unhappy and poor. Some important planetary combinations (yogas) are based on Ascendant, Sun and Moon. Nabhas yogas are based on numbers, house position, grouping and figures. ## **Modern Views on Certain Yogas and Doshas**

Certain yogas, doshas, and transition periods of malefic planets are frequently used or quoted by the worthy astrologers for one's health, wealth, prosperity and peace problems in life. The author wants to convey a modern view of researchers that they are almost negligible in real life. Many more Shloks (Stanzas) of exceptions or cancellation of these yogas, doshas etc. are noticed in old astrology books. So exceptions/cancellations provided should be taken seriously in modern context. We should not be scared from them. Learned readers may read and assess the situation in real life. These certain yogas, doshas and transition periods of planets, which are essentially quoted, are given below.

## **Yoga, Doshas, and Transition Periods for Marriage and Married Life**

### **Gan, Bhakoot and Nadi dosha**

While assessing married life of bride and bridegroom through an elaborate system of astrology Nakshatra Melapak (Ashtakoot Guna Milan System) many astrologers are of the opinion that three doshas Gan dosha, Bhakoot dosha, Nadi dosha out of total eight doshas are most powerful contributing 21 Gunas out of total 36 Gunas and thus have almost 60% weightage in Guna milan system. They are reckoned harmful for one's married life. They must be matched carefully as more than 20 Shloks (Stanzas) of exception or cancellation are also available. If there is cancellation of Gan or Bhakoot or Nadi dosha, its Guna numbers must be counted in Guna Milan system for accuracy. It is experienced that in real life they are negligible.

### **What is manglik yoga or dosha?**

It is called an inauspicious yoga. When Mars occupies 1st, 2nd, 4th, 7th, 8th, and 12th houses in a birth chart, this yoga is formed. It affects 40% to 50% in 12th house, 50% to 60% in 1st house, 60% to 70% in 2nd house, 70% to 90% in 4th house, 100% to 125% in 7th house, and up to 250% in 8th house.

### **Manglik yoga or dosha**

When Mars is in 1st house – This lacks family happiness and motherly affection, bitter relations with wife and effects on longevity of life.

When Mars is in 2nd house – This makes a man unhappy with wife and children, inactive and lazy, creates family tension, weak and tight economic position, unluckiness and irreligious.

When Mars is in 4th house – This gives dryness in family life, mental tensions, distance with relatives, harassment in government service

When Mars is in 7th house – Weak longevity of wife, enmity in personal relations, angry nature, problems of divorce and widowhood.

When Mars is in 8th house – This brings poor economic conditions, lacks longevity of life partner, painful marital life, sudden death of partner.

When Mars is in 12th house - Interference of brothers, sisters and enemies, lacks happiness and sexual pleasure with wife and domestic life is painful.

### **(ii) Manglik yoga or dosha position**

Manglik dosha i.e. the position of Mars in one of the 1st, 2nd, 4th, 7th, 8th, and 12th houses in a birth chart is next to them. It is stated dangerous to life partners (couple). It may affect anytime on one's life after marriage. Death or divorce may occur. Many more Shloks (Stanzas) of exception or cancellation of Manglik dosha are given in the books. We should follow them. It will be better to rely upon old age cardinal principles to analyze important factors related with houses/signs to reach to the reality of life.

## **Yoga, Doshas, and Transition Periods for Health and Wealth Problems**

### **What is Kalsarp yoga or dosha?**

It is an inauspicious yoga. When all the planets are in between Rahu and Ketu axis clockwise from Rahu to Ketu and not from Ketu to Rahu, this yoga is formed. It gives miseries, misfortunes, mental tensions and struggles in life. The person suffers loss of wealth and health.

### **Kalsarp yoga**

Kalsarp yoga i.e. all the seven planets are between Rahu and Ketu axis, is also mentioned troublesome for one's life as equivalent to Manglik dosha. It may create health and wealth problems in life and increases one's anxieties. We have to see the actual position of other planets too and especially their placements, aspects and combinations with planet Rahu in the houses/signs of one's birth chart. It is also cancellable in several cases. If it is cancelled, there would be no problem. Hence one should not be scared of it.

### **Shani ki Sadhesati and Dhaiiya**

When Saturn transits through 12th, 1st and 2nd houses from the Moon sign in the birth chart, this transit position of Saturn in three houses/in three signs is termed as Shani ki Sadhesati (a period of 7½ years). Similarly, when Saturn passes through the 4th house from the Moon sign, this is called Shani ki Dhaiiya or Panoti (a period of 2½ years). This 4th house is related to happiness, mother, home, land and property etc. When Saturn passes through the 8th house from the Moon sign, it is also called Shani ki Dhaiiya or Astham Shani (a period of 2½ years). This 8th house is related to health, longevity, in laws, legacy etc. It is very unfortunate that some astrologers or Pandits put Shani ki Sadhesati and Dhaiiya in negative terms, and ignore their success, that comes to the doorsteps of the people. Thus we should not be scared of Shani ki Sadhesati and Dhaiiya.

### **Note:**

While concluding, the author is of the opinion that above stated yogas or doshas problems are rarely seen in one's real life. There may be other factors for these problems. Thus we need not be scared and worried from them. Normally they are cancellable. If not, to weaken the problems and strengthen the weak and afflicted planets in our favour, we can apply power of mantras, yantras, fasts, charities, donations, wearing gemstones and adopting routine rites and rituals. Sometimes simple remedies or simple methods of charities and donations produce remarkable results and relief but this all depends on one's devotion and belief.

# Planetary Four Trines (Triangles) in a Birth Chart

## What are the Four Trines (Triangles)?

All the four kendras 1st, 4th, 7th and 10th houses and two trikonas 5th and 9th houses of a birth chart are known as beneficial and favourable houses for the native because of some specific reasons, importance and strength. If we count from all the four kendras to the 5th and 9th houses, they indicate four separate triangles (trikonas) consisting of three houses in each triangle. The first triangle starting from 1st house will have 1, 5, 9 houses. The second triangle starting from 10th house will have 10, 2, 6 houses. The third triangle starting from 7th house will have 7, 11, 3 houses. The fourth triangle starting from 4th house will have 4, 8, 12 houses. Thus a birth chart has four triangles within total 12 houses. The houses of a triangle are treated as one unit of same category. In Vedic astrology these four separate Triangles (Trikonas) are called Dharma, Artha, Kama and Moksha houses. They decide the actual status of the native. Sun, Moon, Mars, Mercury, Jupiter, Venus and Saturn are the lords of these houses. Rahu and Ketu shadowy planets have been left here. Read the following Shloka-

*“Mesha Vrishchikayor Bhaumah Shukro VrishTuladhipah  
Budh KanyaMithuno Karkadhishastu Chandrama  
DhanurMeenadhipo Jeevah ShanirMakaraKumbhyo  
Singhasyadhipati Suryo Rasyadhisha ime smrata”*

## Effects of Four Planetary Trines (Triangles)

The 1st bhava (Iagna bhava), 5th bhava (putra bhava) and 9th bhava (bhagya bhava) come in the category of first triangle (trikona). This first triangle is known as “Purush Trine (Triangle)”. They give ‘Paurush’ that is power and energy to the native enhancing his / her efficiencies and abilities. These are the most important houses (bhavas) of a birth chart. These houses are the houses of religious sentiments, truth, morality, consciousness, spiritual knowledge, worshiping, mediation, charity, sacrifice and lastly faith in God. Hence these houses are also called Houses of Dharma (Religion). These should not be treated as kendras, panpharas and apoklims.

The 2nd, 6th, 10th houses (bhavas) are related to financial matters, wealth, gains or losses, occupation or profession, dignity, status, name and fame. This second triangle is known as “Aishwarya Trine (Triangle)”. They provide wealth

and riches in life from many sources and thus opening the doors of success and prosperity, honour and dignity. Although each house out of these houses is the identity of a different group such as 2nd cadent, 6th succedent and 10th angles, yet they are one unit called Houses of Artha (Wealth).

The 3rd, 7th, 11th houses (bhavas) respectively known as succedent, angles and cadent, represent desires, passions, sensual pleasures, marital happiness and all other comforts of life. They are connected with the nature, temperament, mentality and behaviour of the person. This third triangle is known as "Prakrati Trine (Triangle)". Good behaviour or bad habits, whatever it may be, indicate the Prakrati (nature) of the native to know his / her boldness and initiative. Therefore, they are also called Houses of Kama (Fun and Pleasures).

The remaining 4th, 8th, 12th houses (bhavas) show motherly love, care and understanding, personal conveyance, residential house, longevity of life, divine knowledge, and devotion to Almighty God. This fourth triangle is known as "Vairagya Trine (Triangle)". They lead us towards 'Vairagya' that is to know or understand the path of truth, social values and overall ideals of life. Therefore, they are also one unit called the Houses of Moksha (Liberation).

With the help of above four triangles, we can reach the exact outcomes (results) of one's birth chart (Janam kundli). A set of four houses 3rd, 6th, 10th, 11th bhavas (houses) is called upachayas (Houses of Growth). It is believed that all the planets show good results, when they are situated in upachayas. One more set of four houses 3rd, 6th, 8th, 12th bhavas (houses) is treated as bad houses (Dustha bhavas). Two houses (bhavas) 3rd and 6th are common in both the sets, hence required more attention, while predicting one's birth chart. They may give good results, if posited in their own houses. If not and they are placed in houses other than own, as per placements, aspects and combinations, they try to destroy the significance of those houses (bhavas), in which they are posited or situated.

Here Rahu and Ketu have been left out because of no lordship. They are shadowy planets. If they are sitting in 3rd/6th/11th houses called trishadyas, during their dasha period, they will be auspicious and give favourable results as per house/ sign lord and if they are placed in 1st/4th/7th/10th houses with 5th/9th house lords or in 5th and 9th houses with the lords of 1st/4th/7th/10th houses, they will be Rajyogkarak, hence favourable and also give good results as per house / sign lord during their dasha period. If they are placed in other than above stated houses, they will be inauspicious, hence unfavourable and their results will be adverse during their dasha period. So it should also be kept in mind, while analyzing Rahu and Ketu dasha period effects. Rahu and Ketu alone are always assumed to be favourable and beneficial but in 3rd, 6th and 11th houses called trishadya.

# Planetary Dasha and Their Effects

## Parashar's Vimshotri Dasha

Surya, Pitamaha, Vyas, Vashistha, Atri, Parashar, Kashyap, Narad, Garg, Marichi, Manu, Angira, Lomash, Paulish, Chavan, Yavan, Bhrgu, Shaunak are said to be the great seers and sages of Astrology. The great seer Parashar has given more importance to the nine planets in his book "Brihat Parashar Hora Shastra." It is especially to know the longevity of life of a person. He prepared a "Vimshotri Dasha Chart", on the basis of triangular method of our Zodiac of 360 degrees, consisting each angle 120 degrees and also after recording of the total period of rotation and revolution of all the nine planets on their path 120 years, thus the maximum span of life of a person is taken 120 years. It is now universally accepted and its results are correct. He divided the 120 years period among 9 planets and 27 constellations as below:

## Distribution of Planetary Period

## Effects of planets during Mahadasha / Anterdasha

While analyzing effects of dasha period, we must keep in mind all the three lagnas 1. Janam lagna 2. Chandra lagna 3. Surya lagna called Sudarshan lagans. They may be favourable and friendly or unfavourable and inimical. For Vimshotri dasha results considerations for favourable, benefic and influential lagna signs are noticed Leo, Cancer, Aries, Scorpio, Sagittarius, Pisces and so their owners Sun, Moon, Mars and Jupiter, while for unfavourable, malefic and harmful lagna signs the remaining six signs Capricorn, Aquarius, Gemini, Virgo, Taurus, Libra and so their owners Saturn, Mercury and Venus are taken. In a natural way, Mercury and Venus are benefics but during dasha period, their results are treated unfavourable and painful. Favourables and benefics produce beneficial and better results, and unfavourable and malefics give unwholesome and unhealthy results during their dasha periods. Rahu and Ketu are shadowy planets. During their dasha period they affect as per the lord of the house in which they are sitting. These Mahadashas and Anterdashas are meant for predicting a particular event, when will it happen and what will be its results favourable or unfavorable?

## Synchronizing of Birth Charts (Melapak)

Marriage is a small institution which makes a family. It is a strong tie of love and affection between a male and female. It is a sacred link of unity, equality and adjustment of two different entities. It is a golden moment of life of a male and female, in which the essence and fragrance of happy and peaceful long life is hidden. Marriage is a soft and sweet meeting of two families. This is the reason that it had been a long time tradition among Hindus of India to synchronise the birth charts of prospective husband and wife before final decision of marriage is taken by their parents. The following points are taken into consideration for marriage.

- (1) There are four castes (Varan Koot). Their names are Brahmin, Kshatriya, Vaishya and Shudra. Prospective husband should belong to a higher caste (Varan Koot).
- (2) There are five species (Vashya Koot) quadrupeds, binominal, watery, forester and reptiles. For quadrupeds and watery binominal (human) species are compatible. For forester and reptiles species quadrupeds are compatible.
- (3) There are 9 Taras (Tara Koot). Out of nine the third, fifth and seventh constellation from one's natal constellation to the other's constellation are unfavourable. They should be avoided.
- (4) There are 14 Yonis (Yoni Koot) Natural enmity between these species of the two persons i.e. male and female is not desirable, such as lion-deer, cat-rat, mongoose-serpent etc.
- (5) There are 12 signs and 9 planets (Graha Matri Koot) Lords of signs, where Moon is placed and Moon navansh exists of both boy and girl should be friendly and not inimical or neutral.
- (6) There are three sects (Gana Koot) Dev gana, Manushya gana and Rakshas gana. Prospective wife of Rakshas gana (sect) is not desirable, if the prospective husband belongs to Manushya gana or Dev gana.
- (7) There is Bhakoot Koot. Ascendant of girl's birth chart, if falls in odd signs (1, 3, 5, 7, 9, 11) then ascendant of boy's birth chart should not have 6th sign from girl's sign. Ascendant of girl's birth chart, if falls in even signs (2, 4, 6, 8, 10, 12) then ascendant of boy's birth chart should not have 8th sign from girl's sign.
- (8) There are three nadis (Nadi Koot) Adi nadi, Madhya nadi and Antaya nadi. Madhya nadi is treated an evil nadi. It should be avoided.

- (9) There are six vargas (Varga Koot): kavarga, chavarga, tavarga, thavarga, pavarga and yavarga. Fifth varga from one's varga is inauspicious. It should be avoided in the birth charts of boy and girl.
- (10) There are three groups of constellations. First group starts from Revti to Mrigshira, second group starts from Ardra to Anuradha and third group starts from Jyestha to Uttra Bhadrapad. The boy should belong to the former groups or boy and girl both belong to middle group.
- (11) Mars is not desirable in the 1st, 2nd, 4th, 7th, 8th and 12th houses of both the birth chart. Other malefics are also not desirable in these houses. Venus conjoined with a malefic in 6th house of boy's birth chart is not desirable. Malefics in 4th, 7th and 8th houses from Venus in boy's birth chart are also inauspicious.

### NOTE

*According to present researches and views of learned astrologers Astkoot Melapak is based on only Moon Lagna and Nakshatra. Here Birth Lagna and other planets are left out. Astkoot Melapak gives an account of the nature of both the boy and the girl only and not of the marital bliss. For marital bliss other facts such as health, children, career, honour, prosperity, peace and happiness must also be considered through Birth Lagna and Navmansh Lagna. If all the three lagnas Birth Lagna, Moon Lagna and Navmansh Lagna of both the boy and the girl are of one group either Dev group or Danav group, it is very good for marital bliss. Mars is said to be harmful only in 7th house and not in other houses i.e. 1st, 2nd, 4th, 8th and 12th houses. Saturn in 7th house speaks two marriages in life and its aspect on 7th house shows late marriage in the age of about 30 years. Marriage at the time of Shani ki sadhesati or dhaiya also weakens the marital bliss and sometimes leads to the worst situation of divorce. Jupiter's presence in 7th house is also one of the reasons for late marriage. So these facts must be studied along with Astkoot Melapak for happy long life.*
