

IMPACT OF ASCENDING SIGNS

Unique Features

- How to analyse a Horoscope in 3 minutes.

- Suggested effective astral remedies specific for each Ascendant

- Reason for miseries in the lives of natives born in Taurus, Virgo and Pisces Ascendants

V.K. CHOUDHARY

NOTE : APART FROM FUNCTIONAL MALEFICS AS ABOVE, RAHU AND KETU ARE FUNCTIONAL MALEFICS FOR ALL ASCENDANTS.

Weak planets are those planets which are combust, in their signs of debilitation, in the state of infancy/old age, placed in dusthanas (6th, 8th and 12th houses), in their signs of debilitation in navamsa and in the mooltrikona sign of a planet weak on the grounds mentioned above.

Afflicting planets are Rahu, Ketu and respective functional malefics for various ascendants. Afflicted planets are those planets which have close conjunction/aspect of afflicting planets. When two planets or a planet and midpoint of a particular house have longitudinal difference between the conjunction/aspect formed less than five degrees, the conjunction/aspect is considered close. The impact of affliction is greater on weak planets than the planets which are well placed and strong.

The above background, will help you in understanding the impact of planetary influences more precisely and in a much better way.

IMPACT

The Sagittarius and Leo ascendants are better as apart from Rahu and Ketu the only functional malefic is the Moon. The transit conjunctions of the Moon with natal positions are more often but short lived as they take just a few hours in separation. The Gemini ascendant is best as it does not have any functional malefic other than Rahu and Ketu. Similarly, Aries and Libra ascendants have Mercury only as functional malefic apart from Rahu and Ketu. Transit Mercury takes just two or three days in separation whenever it forms close malefic conjunctions with or aspect to natal positions. The problems, therefore, are short-lived.

On the other hand see the Cancer ascendant. Here, apart from slow moving Rahu and Ketu, the slow moving planets Saturn and Jupiter become functional malefics. Whenever these four planets form transit conjunctions/aspects, they are long lived and leave scars.

IMPACT OF ASCENDING SIGNS

INTRODUCTION

Identifying impact of ascending (rising) signs is one of the very important fields of horoscope reading. The characteristics of the lord of the rising sign fructify in full depending upon the strength of the lord of the rising sign. This is more so if a mooltrikona sign rises in the ascendant. If the sign Capricorn rises in the ascendant and Saturn is utterly weak and afflicted, it will not affect the longevity badly. The reason is the main impact of the planet pertains to its mooltrikona sign. In case Aquarius rises in the ascendant and Saturn is weak and badly afflicted, it is a drawback for the longevity of the native in addition to the poor physical development of the native for making him industrious.

Before we proceed further, let us understand a few preliminaries. Under the Systems' Approach, propounded by the author, the horoscope reading is only done with reference to the rising sign i.e. the ascendant. The functional nature of the planets is decided on the basis of placement of their mooltrikona signs. Cancer is considered as mooltrikona sign of the Moon. The functional malefics are those planets whose mool-trikona signs fall in the sixth, eighth or twelfth houses. All other planets are treated as functional benefics. Based on this, the functional malefics for various ascendants are as under:-

ASCENDANT

Kēśa Aries
 17/18 Taurus
 19 Gemini
 Kēśa Cancer
 21 Leo
 22 Virgo
 23 Libra
 24 Scorpio
 25 Sagittarius
 26 Capricorn
 27 Aquarius
 28 Pisces

FUNCTIONAL MALEFICS *and affl*

Mercury Moon! Kēśa
 Venus, Jupiter and Mars
 None Mercury! Kēśa
 Jupiter and Saturn Exception of Venus
 The Moon 1 + Venus + Saturn and of 6
 The Sun, Saturn and Mars + maybe Jupiter
Mercury exception parasara!
Mars & Venus None Neutral
 The Moon!
The Sun and Jupiter Sun Neutral
 The Moon and Mercury + 07 and 3 & 11

The real pitiable condition is of Taurus, Virgo and Pisces ascendants. Here, apart from Rahu and Ketu, three other planets become functional malefics. The unfavourable incidents in life are more frequent. Gravity is dependent on the natal weak points. The Sun, Venus and Mercury are generally in close proximity.

In the case of Virgo and Pisces ascendants the Sun is one of the functional malefics and there are more chances of its afflicting Venus or Mercury or both. For Taurus ascendant Venus is a functional malefic and may afflict the Sun and Mercury in addition to any other planet(s) in a particular nativity.

For Capricorn ascendant the Sun is a functional malefic in addition to Jupiter, Rahu and Ketu. Here again the chances of the Sun afflicting a few planets are comparatively more.

For Scorpio and Aquarius ascendants, the fast moving planets are functional malefics. Here the problems created due to transit afflictions are frequent but short lived. The practical applicability of these concepts have been amply illustrated in the undermentioned books:

1. Systems' Approach for Interpreting Horoscopes
2. How to Study Divisional Charts
3. How to Identify Significant Events

I am taking up the discussion on the peculiarities of various ascendants in this book.

When my article on this subject was published in one of the astrological journals, one reader raised the following points.

- a) That the Systems' Approach is in clear departure from the dicta of the ancients.
- b) The lord of the asdt. for any native cannot and must not be a malefic for the native.
- c) The Sun and the Moon are exempted from Ashthama Dosha.
- d) As the Sun represents so many significant things in life it could not be termed as malefic.
- e) Exalted and Vargottama planets do not work as malefic.

Apart from the above, the reader quoted some classical and modern commentators and discussed the charts presented by me on the basis of derivatives used by the modern

commentators. While I have never entered into an argument with those who have blocked their minds for developmental experiences and research based case studies, for the benefit of those seeking truth and validity of the divine science, humbly, I state that I am open for inclusion of any valid suggestions in the Systems' Approach. I now take up various observations and give once again the rationale behind the Systems' Approach in the following paragraphs.

MISSING LINKS

Predictive competence has been the pursuit of the serious students of the divine science of astrology. Astrology is a science which is universally applicable leaving aside the bars of caste, creed and nations. However, there were grey areas which posed hinderance in achieving the predictive accuracy. These grey areas include the functional nature of planets for a particular nativity, afflicted planets, methodology for study of divisional (varga) charts, methodology for application of transit, the role of remedial measures, etc. The lack of clarity on these has resulted in mushroom growth of such self-styled guides/scholars, who even themselves could not understand the gamut of astrology, both in the past and the present. The approaches/predictive tools have to undergo an empirical test before adoption.

THE CLASSICAL BASE

The main point acting as 'the Key' in predictive astrology is the functional nature of planets. Chapter 34 of Brihat Parashar Hora, dealing with the Yogakaraka planets, guides us to the functional nature of planets for various ascendants. The salient features are as under:

1. The planets with mooltrikona signs in dusthana houses, i.e. sixth, eighth or twelfth houses act as malefics for the concerned ascendant except:
 - a. Jupiter for the Cancer ascendant has been stated as benefic.
 - b. Mercury for the Libra ascendant, has been stated as benefic.
 - c. The Sun for the Capricorn ascendant has been termed as

neutral.

d. Mars for the Scorpio ascendant has been termed as neutral.

2. The lords of the second, third, eleventh and seventh houses have been termed as malefics.

3. There are no hints for the following :

a. Nature of the Moon for the Aries and Sagittarius asdts.

b. Nature of Mercury for the Gemini asdt.

c. Nature of Saturn for the Virgo ascendant.

Before commenting on the salient features as mentioned above, I would like to state the indications of the houses mentioned hereunder as per Brihat Parashar Hora:-

- | | | |
|-------------------|---|---|
| 1. Second House | : | Wealth, food, family, death, enemies, metals and precious stones. |
| 2. Third House | : | Courage, servants, coborns, learning, journey and parent's death. |
| 3. Seventh House | : | Spouse, journey, commercial pursuits, loss of sight and death. |
| 4. Eleventh House | : | Income, prosperity, livestock, variety of consumables and daughter-in-law |

There appears to be no justification or logic why the lords of the above four houses be treated as malefic planets as they rule desirable and good significations more in comparison to the inauspicious or undesirable significations. There are no hints as to when the lord of the second or seventh house will inflict death and when the same planet will bestow their auspicious significations. This had been one of the vital missing links for predictive accuracy.

Empirical studies undertaken by me show that the second and seventh lords do not act as death inflicting planets except in the case of Saturn for the Cancer ascendant. Here Saturn is lord of the eighth house as well. Rather, the lords of second and seventh houses when functional benefics and strong, generate pleasant circumstances in life. When weak and afflicted, these planets are also amenable to sufferings as any other planet. The lord of the third house also cannot be a death inflicting planet for the parents if fourth and ninth houses as also

their signifiers, the Moon and the Sun are strong. The lord of the eleventh house is also beneficial for all ascendants except for Pisces and Taurus ascendants.

Therefore, for interpreting the effect of planets on a more logical basis I had formed the hypothesis that for each ascendant the functional malefic planets are only those planets whose mooltrikona signs fall in the sixth, eighth and twelfth houses. All other planets act as functional benefics. The malefic effects are clearly evidenced whenever the functional malefics are closely conjunct with or closely aspect the weak functional benefic planets or the midpoint of the houses in a nativity. Whenever these functional malefics in transit form close conjunction with or aspect the weak natal positions they generate unhappy events. The learned friends can test the accuracy of this finding on their own horoscopes or on the horoscopes of the persons with whom they are fully familiar. This is very useful for accurately finding out the nature of events in the near future and for rectification of the birth charts.

A meticulous study of chapter 24 of Brihat Parashar Hora will show that any planet going to the eighth house suffers and the significations ruled by the planet in question suffer badly. The indications of the eighth house have been given as longevity, battle, enemies, forts, inheritance and the incidents of past and future births. Broadly, the nature of the eighth house has been termed as malefic and the close conjunction/aspect of the lord of the eighth house containing a mooltrikona sign is always baneful for the planet or the midpoint of the house involved in such a close conjunction/aspect. It is always helpful in the interpretation of a horoscope if the nature of planets has been delineated on the basis of the tested hypothesis mentioned in the preceding paragraph.

I have extensively dealt with the various inconsistencies, confusions and contradictions in my book, "Systems' Approach for Interpreting Horoscopes." I have also dealt with the approach for the Study of Divisional Charts and transit in a meaningful way in my book on this subject. As stated earlier the identification of functional malefics as per Systems' Approach and identifying weak and afflicted planets will bring you so near to the accurate results and so simply that you will be wonder struck.

The conjunctions and aspects are effective only if they are close. By close as mentioned earlier, mean when the longitudinal difference between the conjunctions/aspects is five degrees or less. The conjunctions/aspects amongst functional benefics confer name, fame & wealth while functional malefics afflict and spoil the indications of houses/planets with which they form close conjunctions/aspects.

It is with this background in view that I have now taken up the subject, "The Impact of Ascending Signs." Without blindly accepting what the version of Brihat Parashar Hora in circulation says, I would seek the indulgence of learned readers in testing the truth of this dicta. The present version may have incorrect record of the shlokas or interpolations but I certainly do not doubt and disbelieve the wisdom of the seers.

The authenticity of the Brihat Parashar Hora and other classical commentaries cannot be vouched for inclusion of interpolations and it is a well known fact that the so called classical texts and commentaries are not the complete documentation of the principles enunciated by the propounding Maharishis. All of them were recorded at a date much later than their propagation. Several confusions, contradictions and inconsistencies have crept into the available texts.

Perfection in predictions can be achieved by anyone learning and practising astrology with the method of science. The method of science is recording and analysing the observations based on the hints available in the classical and modern literature, forming testable hypothesis for logical questions and adopting the principles which stand the test of time. Therefore, banking solely on the available classical texts might not be conducive for the development of the divine science. The pursuit of the method of science does not mean denouncing the ancient sages. Rather an attempt is being made to weed out the interpolations.

The principle of identifying the functional nature of planets on the positional placement of the mooltrikona signs of the planets, render null and void the following prevalent, so called classical principles.

[That the benefic planets owning kendras (angular houses) turn malefics.

That the second and seventh lords act as maraka planets (death inflicting planets).

That the planets placed in the seventh and second houses act as marakas.

That the planets associated with the lords of the second and seventh houses act as marakas.

That the results of transit should be studied from the natal Moon.

That the transit can be applied in isolation.

That the planet Saturn, except in the case of ascendants ruled by it and Venus, does not act as benefic.

That the lord of the ascendant always proves beneficial for the native. Venus as lord of Taurus ascendant and Mars as lord of the Scorpio ascendant as per Systems' Approach become functional malefics for the native because of their mooltrikona signs falling in the sixth house.

To sum up, a systematic approach for analysing horoscopes on the basis of functional nature of planets, close/exact conjunctions/aspects together with reading natal charts in conjunction with transit position of operating planets with reference to the ascendant and treating the degrees rising in the ascendant as the middle point of all the houses give infallible results which establish the divine science of astrology as a super-science. The present disbelief in astrology is because of the continuous dependence of modern savants on the record of classical principles which has been full of interpolations/omissions due to the time gap between the propounding time and the recording time of the said principles. To establish it as a science we have to demonstrate to the world the observations recorded by way of case studies based on the universal application of only the valid classical principles. We have to make a creative contribution to the enrichment of the divine science.

EXALTED AND VARGOTTAM PLANETS

Exalted and Vargottam planets if functional malefics and at the same time afflicting by close conjunction/aspect other

weak planet or planets or mid point of a house do cause sufferings with regard to the significations ruled by the said planet/house. The matter will be clarified in the succeeding paragraph.

ROLE OF PLANETS

A planet plays its role in the following ways:-

- As a natural significator for various things.
- As a lord of the house to protect and promote the significations of the house ruled.
- c) Its relationship with other planetary configurations in a nativity.

The strength of a planet governs the role of the planet for (a) and (b) above in protecting and promoting the house and significations ruled. The functional nature of the planet governs the role as at (c) above.

Regarding the "Neechbhanga Raj Yoga" it is not coming from the propounding father but has found its place in the subsequent classical commentaries like phaladipika, etc. The Systems' Approach does not believe in this concept and treats the debilitated planet as a weak planet as classified by Brihat Parashar Hora Shastra, Utrakalamrita, etc.

HOW TO ANALYSE A HOROSCOPE IN THREE MINUTES

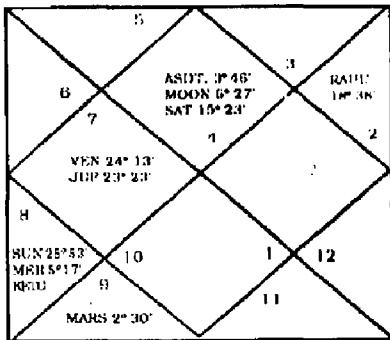

A National Conference on Futurology and Astrology was organised by Bharat Nirman in New Delhi in December, 1993. I was invited to deliver a talk on the subject of TECHNIQUES OF PREDICTIONS. Well, while there are various techniques including application of Parashari System, Jaimini System, Tajak System, etc., I chose the subject "HOW TO ANALYSE A HOROSCOPE IN THREE MINUTES". I am sharing my views with readers which will help them in their efforts of helping the humanity with minimum use of time. I will discuss the matter in a step-wise manner.

STEP I

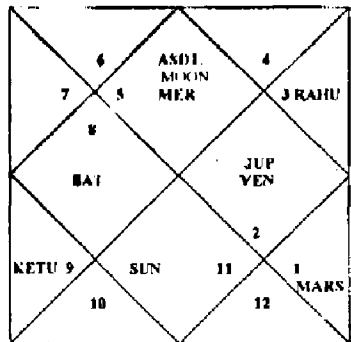

Transform (Fill in) the horoscope in the following format:

NAME : ABC (Male)
 Date of birth : Dec, 1946
 Time of birth : 2026 HRS
 Place of birth : XYZ

RASI

NAVAMSA

Balance dasa of Saturn at birth: 14 years 6 months 24 days.

Dec'93 -presently running sub-period of Rahu in the main period of Venus.

THE ASCENDING DEGREE IS TO BE TREATED AS MID POINT OF ALL HOUSES.

STEP II.

Note down the functional malefics for the ascendant as per SYSTEMS' APPROACH. For the sample horoscope the functional malefics, as per SYSTEMS' APPROACH, are as under:

RAHU, KETU, JUPITER AND SATURN

STEP III. NOTE DOWN THE WEAK PLANETS

WEAK PLANETS IN THE SAMPLE HOROSCOPE

In Infancy (i.e. longitude less than 5° in a particular sign)	MARS
In old age (i.e. longitude more than 25° in a particular sign)	SUN
In debilitation	NIL
In combustion	MARS
Debilitated in navamsa	NIL
Bad placement (i.e. in the 6th, 8th or 12th houses)	MARS
In the mooltrikona sign of a weak planet i.e. weakness of dispositor	NIL

STEP IV.

IDENTIFY AFFLICTED & SEVERELY AFFLICTED PLANETS.

AFFLICTED PLANETS

Afflicted planets are those which are closely conjunct with or closely aspected by functional malefics noted above. (Step II).

Close conjunction/aspect as per Systems' Approach means location within a longitudinal difference of 5 degrees.

Sample Horoscope

Venus (closely conjunct with Jupiter)

Saturn (closely aspected by Ketu)

SEVERELY AFFLICTED PLANETS

Those planets which are weak, badly placed and afflicted are treated as severely afflicted planets.

Sample Horoscope NIL

STEP V

Identify close auspicious conjunctions/aspects, placements i.e. of functional benefics amongst themselves or to the midpoints of houses.

AUSPICIOUS CONJUNCTIONS

Sample Horoscope:

- The Moon to the mid point of the ascendant.
- Mercury to the mid point of the fifth house.
- Mars to the mid point of the sixth house.

AUSPICIOUS ASPECTS

Sample Horoscope

The Moon receiving aspect of Mars.

AUSPICIOUS PLACEMENTS

In own sign

The Moon and Venus

In exaltation sign

NIL

STEP VI

GAUGE STRENGTH OF PLANETS

- Good placement but weak, being in old age.
- MOON - Good placement, bright and own sign.
- MARS - Bad placement, combust and in infancy.
- MERCURY - Good placement
- JUPITER - Good placement, conjunct with functional benefic Venus.
- VENUS - Good placement, own sign but afflicted by close conjunction of Jupiter.
- SATURN - Good placement, close aspect of malefic Ketu

Noting down the strength of functional malefics is also necessary because as explained earlier, every planet has many roles to play.

STEP VII

ASSESS LONGEVITY

If a Mooltrikona sign rises in the ascendant pay special attention to the longevity by seeing the strength of planets and the functional nature of the operating planets i.e. the main and sub-period lords. Most of the planets being weak and severe afflictions to the ascendant or to the ascendant lord with operating period of functional malefics give short life. Similarly placed planets with operating period of functional benefics give middle span of life.

Weak planets keep the significations to a lower level, if unafflicted. Severely afflicted planets cause tragedies or fatal diseases. The operating periods reduce/increase the impact. Pay special attention to the transit strength of operating planets.

STEP VIII

ASTRAL REMEDIES

Two way astral remedies are suggested. Charities or propitiatory methods for functional malefics. Strengthening measures for weak functional benefic planets through KAVACH made of mystical numbers, Colour and Gem Therapy

Effective remedial measures have been suggested for various ascendants at the end of each Chapter on the twelve ascendants. These remedial measures help in warding off the evils and generating good results for the native concerned.

PREDICTIONS/INDICATIONS IN CONCERNED PLANETARY PERIODS

SAMPLE HOROSCOPE

ASCENDANT

The sign Cancer rises, which is ruled by the Moon. The Moon is personified as a queen in the planetary cabinet. With strong, well placed and unafflicted Moon, the native was born in an affluent family.

SUN

The Sun rules the house of status and is well placed and unafflicted. The Sun gave a senior position to the native in a governmental organisation.

MARS

The weakness of Mars created many tense moments in his professional career. During the sub-period of Mars in the main period of Venus he could not be promoted inspite of the authorities intending to promote him. The circumstances changed at the eleventh hour. The native's dynamism was thereby reduced.

MERCURY

The good and unafflicted placement of Mercury indicates his intelligence, initiatives, good communication skills and sharp intellect. This is one of the reasons of his acquiring his present status.

JUPITER

Good placement of Jupiter indicates and has given graceful and pleasant personality. He has been blessed with children including a son. He enjoys good physical health with slight problem of hypertension because of Jupiter's conjunction (as a functional malefic) with Venus, the lord of the fourth house

ruling the heart and its functioning.

VENUS

Strong but afflicted. Due to affliction gives mental tension in its operating period which generated the problem of hypertension. Strong Venus rules the fourth house and gives comforts, pleasant disposition of wife and affluent assets. Gave good education in the fields of finance and law ruled by Venus.

SATURN

Rules the eighth house and the longevity in particular as its mooltrikona sign is placed in the eighth house. Eighth house rules inheritance, longevity and marital tie. The good placement of strong Saturn enables it to bear the affliction of functional malefic Ketu to a large extent. During the operating periods of Saturn and Ketu some amount of tension generates for the significations of the Saturn in general and eighth house in particular.

RAHU

Occupies its sign of exaltation in the eleventh house. This gives material affluence and as it is unafflicted and quite away from the mid point of the eleventh house, there are very remote chances of a sizable loss. However, in its operating periods it delays and denies the fulfilment of desires.

KETU

It does not form any close conjunction/aspect other than the Saturn, discussed above, under the planet Saturn.

GENERAL

During transit, whenever, functional malefics form close conjunction/aspect with the weak/afflicted natal positions, which are the Sun, Mars and Saturn in the sample horoscope, problems with regard to the significations ruled by these planets, may be expected to be triggered.

The author is confident that the above example will provide the students with an extremely simple, yet accurate, method of comprehension of the horoscopes being studied by him. Further

enrichment of the analytical faculties and skills will be achieved by going through the numerous case studies included in this book as well as other books by the same author, which are all based on the Systems' Approach propounded by him.

ARIES ASCENDANT

The natives having Aries as ascendant are inherently agile, courageous, intelligent, impatient, leaders, fighters, industrious and enterprising. They have abundant amount of energy and are untiring. These qualities show their true impact depending upon the strength of Mars in the nativity. Aries is the mooltrikona sign of Mars and therefore Mars represents the native fully. Apart from Rahu and Ketu, the only functional malefic is Mercury. Budhaditiya Yoga i.e. combination of the Sun and Mercury signifying extra-ordinary intelligence, do not show positive results for the native. An Aries native with deep combust Mercury means that the Sun forms close conjunction with the functional malefic, Mercury, and gets afflicted. Such natives have weak digestion, are not sharp and are impulsive. Since Aries born are men of deeds they believe less in astrology.

The inherent qualities of the Aries sign make the native affluent, authoritative and leader in the armed forces. The influence of Saturn turns them towards engineering and entrepreneurship. They earn lot of wealth by persistent efforts. The natives excel in the fields governed by the planet or mid-point of a house forming close conjunction or aspect with a strong Mars in the nativity. The transit unfavourable influences are less. The persistent unfavourable influences with long repercussions are only due to the impact of transit Rahu-Ketu forming close conjunction/aspect with weak natal points. Transit unfavourable influences generated by Mercury are short lived as Mercury is a fast moving planet and its conjunction separates in a day or two.

The Moon rules the fourth house for Aries ascendant and hence a strong and well placed Moon bestows comforts of affluent parents, education, property and vehicles. The association of Mars and the Moon creates auspicious results and blesses the native with status in the govt. The association of the Sun with Mars fructifies the impact of intelligence and helps the person in realising his high ambitions.

Venus has its mooltrikona sign in the seventh house and is a functional benefic. Strong Venus blesses the native with good and beautiful wife and blesses him with taste for pleasures, music and action. They love adventures. Jupiter has its mooltrikona sign in the ninth house which makes these persons practising the principles of religion i.e. blesses the natives with divine qualities of kindness, generosity, honesty and protector whenever Jupiter forms close conjunction with Mars, ascendant and other natal points. Finally, Saturn the lord of the tenth house, has its mooltrikona sign in the house of income and fulfilment of desires. This keeps the Aries natives always on the move as influence of Saturn without the positive influence of Jupiter keeps the person always on the move to earn more and more and does not allow the native to become content. Persons born with Aries rising with the Sun in Virgo, Scorpio or Pisces suffer from disorders of stomach and unhappiness from progeny in case Jupiter, too, is weak. There are tragedies with regard to these significations if the weak Sun, Mars and or Jupiter form close conjunction with the Rahu-Ketu axis.

Unfavourable colours

Green, steel grey, smoke grey and dull navy blue.

Unfavourable stones

Emerald, gomedh (hessonite) and cat's eye (lasonia)

Weak and afflicted planets	Effects
Mars	Weak health and medium span of life.
Moon	Obstructions in education, loss of comforts and mental peace, trouble to mother, etc.
Sun	Weak digestion, anaemia, trouble to male progeny.
Mercury	Weak health, recklessness and impulsive.
Venus	Lack of marital happiness.
Jupiter	Obstructions to father and in prosperity.
Saturn	Deficient income, diseased bones and nervous system.

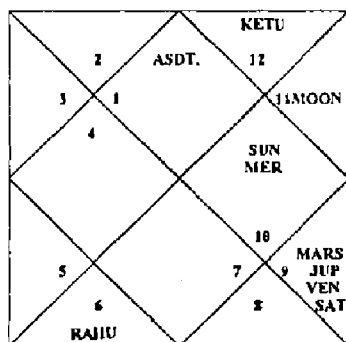

Persons having Aries as ascendants and with strong Mars become administrators, sportsmen, civil engineers, advocates, surgeons, officers with police and armed forces and involve themselves in adventurous and enterprising pursuits. They are born to command more by force than by persuasion as Mercury the planet of communication is a functional malefic for them. Let us have some illustrative case studies.

CHART - 1

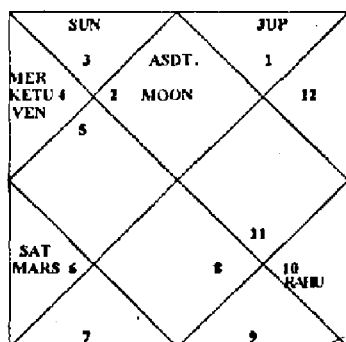

Birth : 31st Jan, 1960 1100 Hrs.

	S	O		S	O
ASDT	00-03-45		JUP	08-01-41	
SUN	09-17-03		VEN	08-11-37	
MOON	10-26-00		SAT	08-19-38	
MARS	08-19-22		RAHU	05-02-00	
MER	09-20-19				

RASI

NAVAMSA

Balance dasa of Jupiter : 8 years 9 months 18 days.

Mars occupies the ninth house in close conjunction with the functional benefic Saturn. The functional benefics Jupiter and Venus are also placed in the ninth house. The fourth lord is placed in the house of gains and has obtained an exalted navamsa. The Sun has close conjunction with functional malefic, Mercury. The two factors ruling father are weak i.e. the Sun due to affliction by Mercury and Jupiter, the ninth lord, being in the state of infancy. However, Jupiter's presence just near the mid point of the ninth house does provide some strength. Rahu-Ketu axis is on the mid-points of the houses they occupy but do not afflict the planets.

The placement of the Moon conferred huge assets on the native. Strong Mars in conjunction with Saturn blessed the native with enterprising and industrious nature. Making use of his assets and his entrepreneurial talents the native after doing his engineering ventured into an industry. The weakness of the Sun and Jupiter, however, cut short the life span of the father. The native is blessed with younger brothers and comforts in life. The combustion of Mercury gives rise to situations generating nervous pressure. The native lost his father in Mercury's sub-period in Mercury's main period. Ever since the onset of Mercury's main period the things became comparatively, struggleful. During the Mercury's sub-period in Mercury's main period, the native suffered business loss, as well.

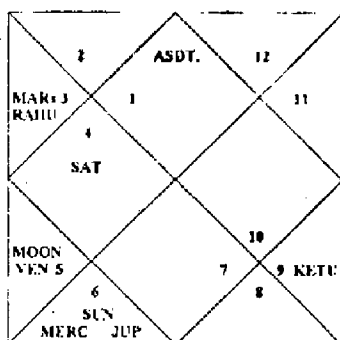

The strength of the lords of the ascendant, fourth, eleventh and seventh houses, conferred the native with good health, affluent parents, good education, good profession, comforts in life, power and position.

CHART - 2

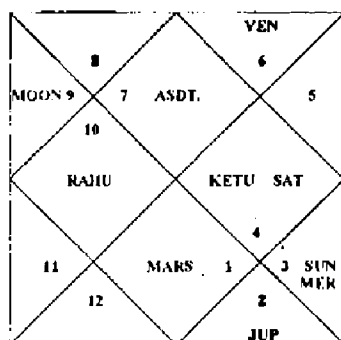

Birth : 4th October, 1945 1945 Hrs

RASI

NAVAMSA

Balance dasa of the Sun : 4 years 7 months 6 days.

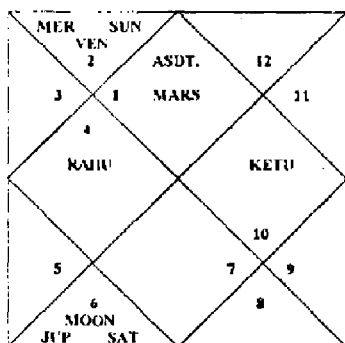

Mars occupies the third house being just on the mid-point of the third house. Rahu's association is quite distant. The fourth house is occupied by the lord of the eleventh house. The lord of the eleventh house is otherwise weak because of its being in the state of infancy. The lords of the fifth and ninth house are placed in the sixth house in conjunction with the lord of the sixth house. Both Mercury and Jupiter are combust. The Moon is in the state of old age and is in the fifth house along with Venus. Except Mars the other planets lack strength. The native is quite energetic and active. He is an engineer by profession and is working with the Govt. The weakness of the rest of the planets have not afforded sufficient resources and happiness to the native. He has meagre assets. His son could not go beyond school level. The main period of Rahu was in operation from 22nd year of life to 40th year. The main period of combust Jupiter placed in the sixth house and Saturn in infancy, though functional benefics, do not hold good promises in life. Venus, in debilitated navamsa, do not bestow affluent and enjoyable life.

CHART - 3

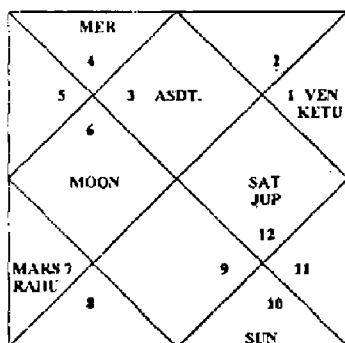

Birth : 16th May, 1981 0415 Hrs

MER	01-20-14				

RASI

NAVAMISA

Balance dasa of Mars : 4 years 6 months 9 days.

The lord of the ascendant, Mars, occupies the ascendant. Mars is in the state of combustion. The planets the Moon, Saturn and Jupiter are placed in the sixth house weakening matters pertaining to the parents, general fortune, assets and income. Rahu-Ketu axis closely conjuncts with the mid-points of the houses they occupy, i.e. they afflict both the fourth and tenth houses ruling education and profession. The functional malefic, Mercury, does not form close conjunction/aspect. The Sun is weak as it is in the state of infancy. The weakness of almost all the planets resulted in poor positive contribution of the functional benefics. The weakness of Mars resulted in physical weakness. The weakness of the Sun and the Moon resulted in poor resources of parents, problems in education and obstructions in proper development of intelligence. The planets Saturn, Jupiter and Venus suffer from the close aspect of Ketu. The child during the opening main period of Mars and following main period of Rahu lacked both physical and mental development. He was suffering from epileptic fits and there were obstructions in schooling. The astral help suggested was for strengthening of weak functional benefics by way of a Kavach and propitiating the malefics, Rahu and Ketu.

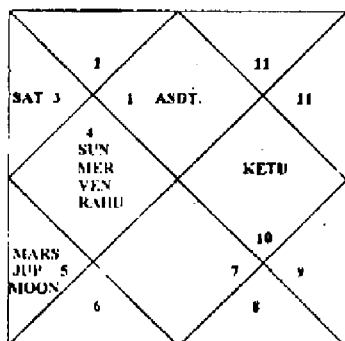

Because of the weakness of majority of the planets including the Moon, the matters pertaining to prosperity to parents also received a set back with the onset of Rahu's main period.

NAVAMSA

Balance dasa of Ketu : 4 years 5 months 7 days.

The lords of the ninth and fourth houses are conjunct with each other in the fifth house. The lord of the ascendant is also placed in the fifth house while the functional benefic, Saturn, occupies the third house. Venus is very well placed in the fourth house. None of the planets is in the dusthanas. The only affliction is the close conjunction/aspect of Rahu/Ketu to the Sun. The only weakness apart from the Sun is that of the Mercury because of its being in the debilitated navamsa. After the opening period of Ketu at birth, the native saw the main periods of functional benefics. During the main period of Venus the native completed his engineering education. In the opening main period of afflicted Sun, the native found it difficult to get a suitable job posing uncertainty. Whenever, the Sun is closely conjunct with Rahu, one gets the problem of hypertension early in life. In this case as well, Rahu's affliction to the Sun created lot of tension and difficulty in getting a job in spite of native's being professionally qualified. This delayed marriage of the native. However, powerful combinations in the chart fructified to their extent in more conducive period. The native was blessed with marriage, son, daughter, assets, employment, professional advancement and today holds a very authoritative position with a state owned organisation.

Balance dasa of Ketu : 6 months 1 day.

None of the planets is in the dusthanas. The functional malefic Mercury forms close conjunction with Ketu and Venus. Rahu-Ketu axis is close to the midpoints of the houses they occupy. Rahu afflicts the Moon with its close aspect. The lords of the fifth and eleventh houses are placed in the second house ruling status. The Saturn is weak due to its being in the state of old age and combustion. The lord of the ninth house is in its sign of debilitation but derives some benefit by its location in the tenth house. The lord of the ascendant is placed in the house of gains duly aspected by the lord of the eleventh house indicating gains through self-efforts. The placement of the Sun and Saturn in the house of status indicates acquiring status through intelligence and wealth. The extent of Ketu's close affliction to Mercury is reduced to some extent as Mercury is in its own sign. The native has a promising life after completing

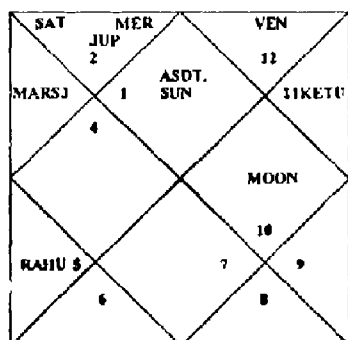

his studies in medicine as he is to enjoy the main periods of the lords of the fifth, fourth and first houses. Inspite of the weakness, the periods of functional benefics are growth oriented, though the extent may be slightly less.

NAVAMSA

Balance dasa of the Moon : 5 years 6 months 26 days.

The ascendant is occupied by the exalted lord of the fifth house. The fourth lord aspects the fourth house. The lord of the ascendant, Mars, is closely aspected by Ketu and is afflicted. The lord of the seventh house is in the twelfth house in its sign of exaltation. Both the exalted planets in the main chart are in the debilitated navamsas. Mercury afflicts both the mid-point of the second house and Saturn placed therein by close conjunction. Jupiter, the ninth lord, is in the second house in the state of old age.

The native's father had been a raj purohit since 1930 but lost the status after 1947 because of the weakness of both Jupiter and the Sun in this nativity.

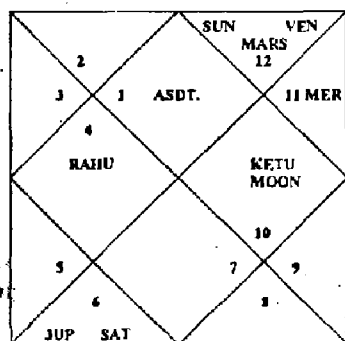

The main period of afflicted Mars gave physical problems to the native and the native became hunchbacked. The weakness of Jupiter and affliction of Rahu to the Sun did not help the native to prosper in life. The confluence of Saturn, Jupiter and Mercury in the second house, and Mars took the native to the study of law. Even this could not help the native. During the sub-period of Saturn in its own main period the native suffered a sizable financial loss, was deceived and had no income due to the close affliction of functional malefic, Mercury, to the weak Saturn. The operating periods do not hold pleasant promises in life. However, the native can bank upon his assets.

Balance dasa of the Sun : 4 years 4 months 14 days.

Combust Mars is placed in the twelfth house in close association with combust Venus and the Sun and all of these planets are being closely aspected by Rahu. Rahu-Ketu axis

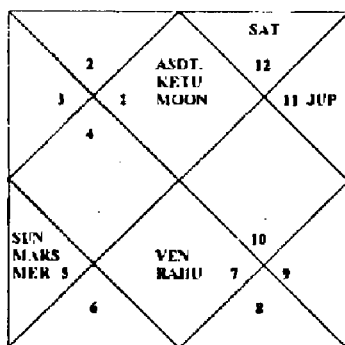

also afflicts the houses occupied and aspected by their close conjunction and aspect respectively to the mid point of the houses. Saturn and Jupiter are placed in the sixth house and are under close aspect of Ketu. The Moon is in the state of infancy. Mercury, a functional malefic, ruling the house of health is placed in the eleventh house. During the balance period of the Sun at birth the child had totally retarded growth both physically and mentally. The Sun is afflicted and it has resulted in combustion of otherwise weak, afflicted and badly placed lord of the ascendant, Mars. The Sun rules intelligence. The main period of the weak Moon could not promote the affairs. This was the cause of suffering to the whole family. The mother had to leave her job for care of the child. Father suffered from bad health and losses. He had to undergo by-pass surgery and leave job. Utter weakness and affliction of the planets governed the events in life. The child may see end of life in the main period of Mars.

NAVAMSA

Balance dasa of Ketu : 0 years 4 months 25 days.

The lord of the ascendant, Mars, is closely conjunct with the mid point of the fifth house and the functional malefic, Mercury. The lord of the fifth house is placed in the fifth house, itself, and suffers from exact aspect of Ketu from the ascendant. The ninth lord is in the eleventh house in the state of infancy and its dispositor, Saturn, is weak due to later's placement in the twelfth house. The royal planet, Moon, is closely conjunct with the ascendant's mid-point.

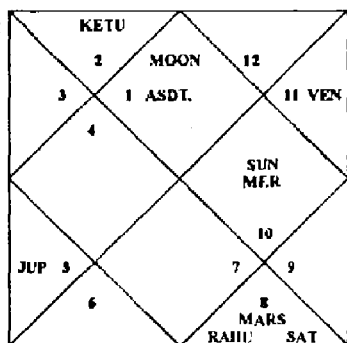

The Moon and Venus closely aspect each other and generate a powerful auspicious combination. Due to the weakness of Saturn and Jupiter and severe afflictions to the Sun and Mars, the native's life had been quite eventful so far as the unfavourable happenings are concerned. The native's education was completed in the main period of functional benefic, Venus, having close aspect with the lord of the house of education, i.e. fourth. The native is an engineer by profession and enjoys a senior executive's post with the Government. The position of the Moon signifies his status. The main period of afflicted Mars occupying debilitated navamsa, caused numerous troubles to the native. The functional malefic, Mercury, rules the house of disputes and under its total influence the native could not adjust with the people around him. This resulted in developing inimical relations with colleagues and superiors. Saturn's placement in the twelfth house was indicative of loss of income. During the sub-period of Saturn in the main periods of Mars and Rahu, the native suffered from prolonged suspensions followed by disputes in the sub-periods of Mercury. The weakness and affliction of Mars made the native highly disturbed and drunkard but his wife stood by him in the long periods of distress and sufferings. The main period of Jupiter will be a little bit more satisfying in life as during the main period of functional benefics the afflictions cause less suffering.

NAVAMSA

Balance dasa of Venus : 3 years 3 months 18 days.

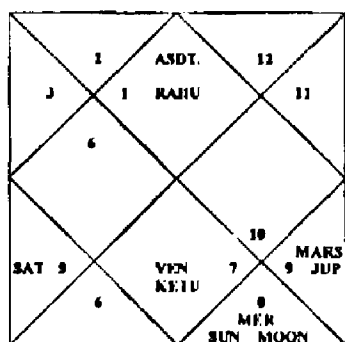

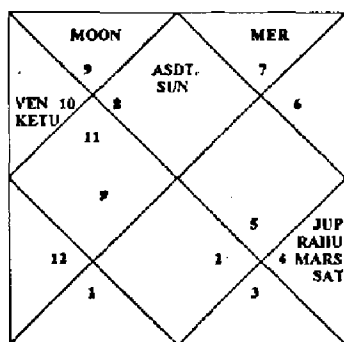

The lord of the ascendant, Mars, is placed in the eighth house in close conjunction with the lord of the eleventh house and in association with Rahu. Rahu-Ketu axis is away from the midpoints of the houses occupied. Ketu closely aspects and afflicts combust Mercury, ruling the health and nervous condition in particular. The lord of the fourth house, the Moon, occupies the ascendant and is weak due to its being in the debilitated navamsa. The native is quite active and industrious but as the conjunction of Mars and Saturn is occurring in the eighth house the results are very meagre. From eighth year of life, the native saw the main period of the weak Moon followed by weak Mars and Rahu. It would be seen that the results of planets placed in the house of obstruction, are restricted.

Jupiter, the lord of the ninth house and significator for husband is placed in the fifth house and is quite near the middle point. In spite of the main periods of weak, afflicted and badly placed planets, the native had been bearing the stresses and strains of the life due to the absolute cooperation of the spouse. The mutual aspect of Jupiter and Venus will certainly bless the native with comparatively happy life in the dasa of Jupiter. Her son may start supplementing the family resources.

MER	07-12-49				

RASI**NAVAMSA**

Balance dasa of Mercury : 12 years 10 months 1 day.

The lord of the ascendant, Mars, is exactly conjunct with the ninth lord and is placed in the ninth house. Venus, Jupiter and Mars are under the close aspect of Rahu. Mars is in the debilitated navamsa. The fourth, fifth and sixth lords are placed in the eighth house. The lord of the fifth house is closely conjunct with the lords of the fourth and sixth houses.

- The lord of the fourth house is in the state of debilitation. The lord of the eleventh house occupies the royal sign, Leo, and aspects its own mooltrikona sign in the eleventh house. There are mixed influences. The native is an industrialist and earning a sizable income through his own efforts.

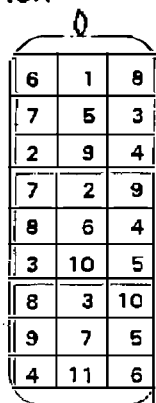

On the other hand afflicted Venus and the weak Moon mar the happiness on the marital front. Extra energy provided by Rahu's aspect to Mars, Jupiter and Venus and lack of marital harmony turned the native towards intoxication and addiction. The circumstances in life were better in the main period of Venus

as compared to the main period of the Sun. However, the ensuing main period of the Moon is indicative of making the problem areas more grave. As earlier indicated the strengthening measures for functional benefics and propitiatory remedial measures for afflicting planets do help. The weakness of the Sun and affliction to Jupiter has not allowed the native the happiness of a male child.

Suggested effective remedial Measures for warding off evil and generating good results in life for ARIES born natives.

1. Render service to parents/parents-in-law and old aged needy persons.
2. Charities for birds and young students.
3. Wearing of a KAVACH (Protecting disc of mystical numbers) permanently in a red colour thread or a gold chain with numbers to be engraved on a silver disc as per design in an auspicious time.

Notes :

1. For working out the auspicious time for effectiveness, please refer author's book, "SYSTEMS' APPROACH FOR INTERPRETING HOROSCOPES".
2. Assets acquired in the similarly elected time will be long lived and beneficial.

12, The ownmost 9 + 10 of good, **TAURUS ASCENDANT**

Taurus is an earthy sign ruled by the planet of pleasures, Venus. Taurus born people are generally pleasure seekers and are involved in material pursuits. Enjoying to the fullest extent is the aim of their life. They are analytical in approach as the fifth house is ruled by Mercury. The fourth house, ruling inclinations, ruled by the planet Sun, determines their approach in life. The sign Aquarius falling in the tenth house makes these people technical and if the other planets are strong the native may pursue an engineering course.

Apart from Rahu and Ketu, three planets, i.e. Mars, Venus and Jupiter, are functional malefics. The first rate natural benefics Venus and Jupiter turn first rate functional malefics and cause sufferings whenever they form exact/close transit or natal conjunction/aspects with weak natal positions. Occurrence of good/bad events in life are comparatively more. The close manglik yoga shows its impact in full as mooltrikona sign of Mars falls in the twelfth house. Saturn's transit is not inauspicious in any of the houses as Saturn is a yogakaraka planet for the Taurus ascendant. Rather, whenever transit Saturn forms close conjunction/aspect with strong natal planets or mid-point of a house, it triggers a happy incident/event signified by the house of such a conjunction/aspect, planet and the house where mooltrikona sign of the planet involved is placed.

As Venus is a functional malefic and the chances of its forming close conjunction with the Sun and Mercury are more, the marital harmony and progenic matters of the Taurus born people are mostly unfavourably affected. Rather Taurus natives born in the last quarter of the year, around sun-set time, are the worst affected in their marital harmonious relations and progenic matters. Such placement of the planets is also inauspicious for the parents.

Taurus born people suffer/enjoy from both short lived and long lived events in life. The transit Moon, the Sun and Mercury give rise to frequent and affluent happy events while Saturn gives rise to long lived happy events. Similarly, transit Mars and Venus cause short lived sufferings while transit Jupiter,

Rahu and Ketu cause long lived/tragic events.

A strong, unafflicted and well placed Sun blesses the native with every good thing in life like affluent parents, good education, good assets, comforts, status, etc. This even makes up for other non-serious afflictions or weaknesses. A strong, unafflicted and well placed Moon gives rise to many initiatives and the person is always aspiring/achieving a happy change. Similarly, strong, unafflicted and well placed Mercury, makes Taurus born highly analytical and inventive. A strong, well placed and unafflicted Saturn blesses the native with persistence ensuring success.

The placement of the sign Libra in the house of diseases, cause sufferings by diseases signified by the planet Venus, the sign Libra and the seventh house. These are more apparent when weak Venus is closely afflicted by functional malefics, Rahu or Ketu. Weak and afflicted Mercury makes the person unstable, nervous and causes sufferings on account of progenic matters. Taurus born, however, forget the unhappy incidents in life early because of their general nature.

Unfavourable colours

Red, sky-blue, variegated colours, yellow, steel and smoke grey, dull colours and dull coffee colour.

Unfavourable Stones

Red coral, yellow sapphire, diamond, gomedth (hessonite) and Iasonia (cat's eye)

Weak and afflicted planets

Effects

SUN	Trouble to parents, loss of assets and comforts, loss of education.
MOON	Lack of initiative and courage, difficulty in communicating and retarded growth.
MARS	Troubled marital life.
MARS & JUPITER	Short life span.

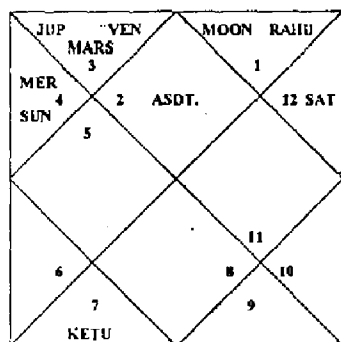

JUPITER	Troubled and short span of marital life.
VENUS	Diseased physical health.
MERCURY	Unhappiness on account of progeny, nervousness and losses in speculation.
SATURN	Ordinary profession and obstructions.

NAVAMSA

Balance dasa of Ketu : 5 years 7 months 0 days.

Mars and the Sun are close to the mid-points of the houses they occupy and are indicative of their full role in the chart. The role of Mars is negative while that of the Sun is positive. The happiness, assets, education and general happiness of life is connected with the self efforts of the native as the Sun is on the mid-point of the third house. The Moon's weakness due to its placement in the twelfth house, however, makes the self efforts mild. The functional malefics Venus, Mars and Jupiter

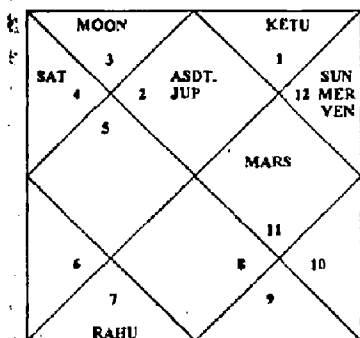

are closely conjunct in the second house while Mars is quite close to the mid point of the second house as stated earlier. They combine the impact of diseases, death/accidents and losses in the family. All these three functional malefics are closely aspected by Ketu from the sixth house. During the main period of Venus there had been many unhappy events in the overall progress of the family. During the sub-period of Rahu, native's father suffered from a paralytic attack. The following sub-period of Jupiter could not help as its nature for the nativity is also malefic. The fifth lord, Mercury, is in the exalted navamsa but it does not form close conjunction with the mid-point of the third house in the rasi chart. Similarly, Saturn is also quite away from the mid-point of the eleventh house. That is why the benefic contribution of both Saturn and Mercury had their role restricted. However, placement of Mercury in the house of initiatives and placement of yogakarka tenth lord, Saturn, in the house of income blessed the female native with self-employment. For warding off the evils of malefic influences caused by functional malefics, the native was suggested propitiatory remedial measures for Jupiter, Mars, Venus, Rahu and Ketu. The mal-effects are indicative of troubles to family, which includes parents, husband and children, and self-health. The later part of the life of the native is likely to be quite unpleasant. During Ketu's sub-period in the main period of Venus the native's husband met with an accident. Ketu afflicts the lord of the house of bed-comforts, Mars, and the significator for husband, Jupiter.

NAVAMSA

Balance dasa of Mars : 1 year 3 months 0 days.

The Moon occupies the second house and draws strength on account of its placement and its brightness. At the same time, the Moon becomes weak to some extent as it is debilitated in navamsa. It restricts happiness on account of younger brothers. The Sun occupies the eleventh house but its power is also restricted as it is also debilitated in navamsa. The Sun gave her affluent parents. The lord of the fifth house, Mercury, is weak on account of combustion and being in the sign of debilitation. This has caused lack of understanding. The Venus is vargottamma in its sign of exaltation but its strength is also reduced to some extent as it is in the old age. Venus is protector of health in the face of severe afflictions to the ascendant by presence of Jupiter and close aspect of Mars in addition to the weakness of the planets, the Sun, the Moon and Mercury. Saturn, the yogakaraka planet for the nativity, occupies the third house in close conjunction with the mid-point of the third house. Venus, whose nature for the nativity is malefic, afflicts the weak Mercury. But Venus's own favourable placement as lord of the house of health acts as protector of health against the afflictions in the chart. During sub-period of Venus in the main period of Rahu the native could come out of severe physical problems created by malefic transits. In spite of the weak combinations and unfavourable planetary periods the future of the native is seen to be progressing because of the favourable placements of the functional benefics the Sun, the

Moon and Saturn as the native is a very hard working student.

NAVAMSA

Balance dasa of Jupiter : 14 years 2 months 5 days.

The Sun occupies the fourth house having its own mooltrikona sign and is very close to the mid-point of the fourth house. Yogakaraka Saturn and the fifth lord Mercury also associate with the Sun in the fourth house. Both Mercury and Saturn are weak due to being in the old state and combustion, respectively. The strength of the Sun blessed the native with affluent parents enjoying top position with the Government. The native enjoyed huge mansions and assets both earned and inherited. The Sun's close aspect to the tenth house blessed the native with senior position with the Govt. The lord of the house of initiatives joins the house of status and is quite close to the mid point of the house of status. This helped the native in acquiring higher status with the Government at a very young age. Mercury's position in the sign Leo being lord of the fifth house gave royal mental make-up.

Venus, the functional malefic, due to placement in the house of family and status caused some problems. It caused separations in family, ill health to wife and made the official position of the native controversial for brief intervals.

Association of Rahu-Ketu axis close to the mid-points of houses of their occupation, close aspect of Rahu to the Sun caused death of father early and gave problem of hypertension and health trouble to the native. It also caused domestic problems due to constant ill-health of wife. Jupiter's location in the seventh house is unwarranted even though it is at a safe distance from the midpoint of the seventh house.

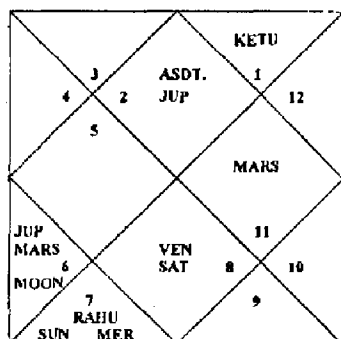

The weakness of the tenth lord due to combustion and close aspect of Ketu to the tenth house shortened the working life of the native. The native succumbed to a heart attack at a young age of 43 years.

NAVAMSA

Balance dasa of the Moon : 5 years 11 months 26 days.

The lord of the house of initiatives, the Moon, joins the house of good deeds of the present life. The Moon occupies exalted navamsa. The native was born to not so-rich parents, who earned wealth subsequently. The functional malefics form inauspicious conjunctions in the chart. Mars and Jupiter are not only closely conjunct but they form close conjunction with the mid-point of the fifth house as well. Venus forms close conjunction with Saturn. The fourth lord, the Sun, forms close conjunction with the fifth lord, Mercury, in the sixth house. Rahu-Ketu do not form close conjunction with the planets and the mid-points of the houses of their occupation. Saturn, the yogakaraka planet has an auspicious location but affliction caused by Venus mars the good placement.

Due to the weakness of fourth and fifth lords, affliction to Saturn and close conjunction of Mars and Jupiter near the mid-point of the fifth house, it caused numerous problems in the life of the native. The native's parents saw downfall in life indicated by debilitated Sun in the sixth house. The assets of the native became disputed. Native suffered emotional set back due to weakness of Mercury. His wife deserted the native alongwith children and staked claim on native's earned and inherited assets.

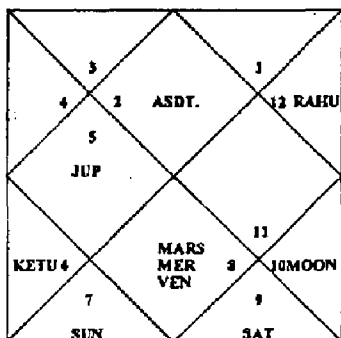

Native suffered from extreme ill-health due to close aspect of the eighth lord to the ascendant. The native saw many upheavals in his professional career due to affliction to Saturn.

RASI**NAVAMSA**

Balance dasa of the Sun : 1 year 2 months.

The functional malefics, Jupiter and Venus, form close conjunction with the mid points of the houses they occupy. The fourth and fifth lords have exchanged position and have recovered from some of their apparent weakness of being in the state of infancy and combustion, respectively, due to good placement. Mercury's mutual close aspect with Saturn blessed the native with post-graduate professional qualification. The favourable placement of otherwise weak Sun blessed the native with highly placed father and affluent assets. The lord of the house of Initiatives, the Moon, being close to the mid point of the third house, gave him initiative for business though along with some difficulties in the beginning. The functional malefic, Mars, does not form close conjunction with the mid point of the house it occupies but aspects its own house (twelfth). None of the planets is in its sign of debilitation in the navamsa.

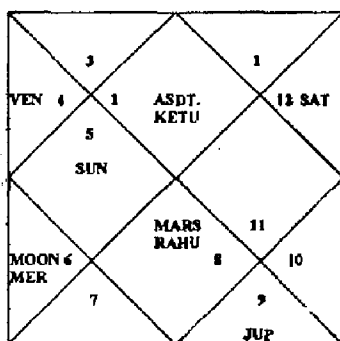

To overcome his teething problems of business and to avoid malefic effects of Jupiter and Venus the native was suggested remedial measures both strengthening for weak functional benefics and propitiatory for functional malefics. Rahu-Ketu axis do not form close conjunctions in the chart. Notwithstanding anything, whenever Rahu is in Taurus, the material possessions of the native are comparatively of a higher order.

Balance dasa of the Moon : 8 years.

The lord of the house of initiatives occupies the fifth house in association with the lord of the fifth house. Though both of these planets do not form close conjunction between themselves nor with the mid-point of the fifth house yet both of them have the placement benefit. The Moon is closely aspected by the yogakaraka Saturn. Mercury is in its sign of exaltation.

The lord of the fourth house, the Sun, occupies the fourth in close conjunction with the mid point of the fourth house. Rahu-Ketu axis do not form close conjunction with the mid-point of the houses they occupy. Rahu is closely conjunct with the functional malefic Mars in the seventh house and aspects the significator for wife, Venus, closely. Jupiter's close conjunction with the midpoint of the eighth house in its own mooltrikona sign is indicative of inheritance, long life and unearned wealth in life.

The strong position of functional benefics, conjunctions and aspects blessed the native with affluent parents, comforts, brilliant political career from very young age. The tenth lord is exalted in navamsa and makes for the deficiency created by the Sun in debilitated navamsa. The native enjoyed position of Chief Minister for more than a decade before joining the Central Cabinet.

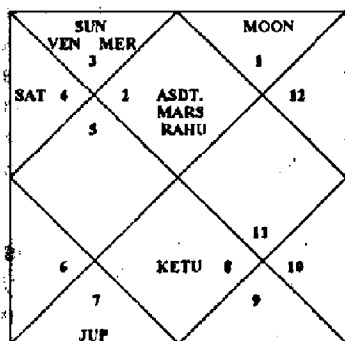

The affliction to Venus and conjunction of functional malefics in the seventh house, however, gave health problems to wife. Such a situation is very helpful in weakening the position of enemies and is rather an asset to the persons in the political field as it destroys the opponents at their own without any effort on the part of the native. The strong position of the lord of the fifth and third houses has helped him in managing his political position for nearly two decades very tactfully and holds a promising future for the native.

NAVAMSA

Balance dasa of the Sun : 5 years 5 months 16 days.

The lords of the fourth and fifth houses are in exact conjunction with each other in the house of status though the Sun rendering Mercury combust. The lord of the tenth house, yogakaraka Saturn, is closely conjunct with the mid-point of the house of initiatives. The lord of the house of losses, Mars, forms close conjunction with the mid-point of the ascendant. Rahu-Ketu axis do not form close conjunction anywhere in the chart. The lord of the house of obstructions afflicts the lord of the house of initiatives by way of an aspect rendering the ventures of the native losing and full of obstructions.

There are both good and bad conjunctions/aspects. The fourth lord's position in the house of status blessed the native with enviable status. His ventures blessed him with high gains. But impulsive decisions because of combust Mercury, affliction of Venus to the second house and conjunction of Mars to the ascendant spoiled all plans and calculations of the native. The close aspect of the house of losses, Mars, to the fourth house gave substantial loss through property. The affliction of Venus resulted in resigning his official position. The affliction of Jupiter to the Moon posed obstructions in the smooth operations of his enterprises. However, the position of the Sun in the chart helped the native with affluent assets, education, comforts of living, etc.

Suggested effective remedial measures for warding off evils

and generating good results in life for TAURUS Born natives:

1. Render service to parents/parents-in-law, perceptor and old aged needy persons.
2. Be considerate to wife and younger brother(s).
3. Wearing of a KAVACH (protecting disc of mystical numbers) prepared on a silver disc as per design below in a black coloured thread permanently around the neck with numbers to be engraved in an auspicious time.

CHAPTER 5

GEMINI ASCENDANT

Gemini born people are persuasive and communicative in their approach. There are less hurdles and set backs in life. Until and unless the Sun forms close relationship with the ascendant, the tenth house, second house or fourth house their role in life is generally average and insignificant.

The sign Gemini is ruled by Mercury. It is a talkative, positive, airy and barren sign. It makes the man ambitious with imaginative ideas. It governs the respiratory system, arms, hands, lungs and collar bones. It gives intense sense of humour, diplomacy and tactfulness. The weak position of Mercury in the nativity, however, gives lack of persistence and patience. This is direct result of the nervous pressure build-up due to weakness and/or affliction to Mercury. A powerful unafflicted and properly placed Moon blesses the Gemini born people with good status, reputation, healthy living and happy family life while a debilitated Moon causes marital inharmony and gives rise to disputes.

A strong and unafflicted Sun makes one orator, leader, author and courageous. Mercury's association to the Sun without being combust works as an asset. Mercury, whose mooltrikona sign falls in the fourth house, is an anchor sheet of life for the Gemini natives because the fourth house has dynamic configurations. In infancy it rules in particular the happiness from mother. In childhood it rules education. In grown-up stage of life it rules assets, marital harmony vehicles and comforts in life. A strong and well-placed Mercury, being lord of the fourth house of Gemini natives, blesses the dynamic configurations of the fourth house while a weak and/or afflicted Mercury ruins/disturbs the significations of the fourth house in particular.

The mooltrikona sign of Venus falls in the fifth house ruling progeny, intelligence and emotions. The strength of Venus in the chart is fully representative of the significations of charm, emotions, intelligence and progenic matters of Gemini born natives. Although the scenario is dependent upon the overall configurations of the chart and operating major periods of

planets, yet the strength of individual planets do signify trends in life to a certain extent.

The mooltrikona sign of Jupiter falls in the seventh house. Generally, the marital life of Gemini borns is comparatively more successful if the Moon, Mercury and Jupiter are not severely afflicted. Saturn's mooltrikona sign is in the ninth house. That explains the reasons why the parents of the Gemini born natives are not very rich and affluent. Mars has its mooltrikona sign in the eleventh house indicating sizable income coming out of authoritative posts in case Mars is strong in the nativity. In the case of matters signified by houses containing non-mooltrikona signs of planets the tragic happenings only take place if functional malefics or Rahu-Ketu exert their close influence on the mid points of the said houses and the planets ruling these houses are weak.

Unfavourable colours

Steel grey and dull brown

Unfavourable stones

Gomedh (hessonite) and cat's eye (Iasonia)

Weak and afflicted planets

Effects

SUN	Loss of courage and vitality, weak heart, trouble to younger brothers, lack of communication skills.
MOON	Loss of wealth and reputation, trouble to mother and wife, loss of mental peace, disturbed marital life.
MARS	Insufficient income, weak health, trouble to brothers, loss of authority.
MERCURY	Trouble to parents, obstruction in education, difficulty and delay in acquiring assets, nervous pressure.
JUPITER	Delay in or disturbed marriage, trouble on account of male progeny, selfish, indisciplined, loss of wealth, diabetic.

VENUS Loss of wife, loss of children, loss of comforts, renal diseases, loss of intelligence.

SATURN Trouble to father, setbacks in life, weak body structures, struggleful life.

With this background in view, we shall now take up a few case studies for further understanding.

RASI

NAVAMSA

Balance dasa of Saturn : 4 years 3 months and 9 days.

The second lord has gone to the sixth house in its sign of debilitation weakening the house of family life and status. The fourth lord, Mercury, is not only combust but also is in the state of old age. The seventh lord, too, is combust. The combined affect of these had been delayed marriage, cheating in marriage, inharmonious relations and divorce. The mother of the native had to lead a long and unhappily life as a widow. Rahu-Ketu axis is close to the mid-point of the houses of its

occupation and had been instrumental in robbing the marital happiness and physical and mental fitness of the native.

Mars, Venus and Sun are rightly placed in the chart unafflicted though having distant relationship with the mid-points of the houses aspected/occupied. Their own placement strength blessed the native with younger and elder brothers, son and employment with the Government. The placement of the lord of the house of fortune in the house of status has blessed the native with modest status in life in the teaching profession as a lecturer. The native was married in the sub-period of the Moon in the main period of Venus.

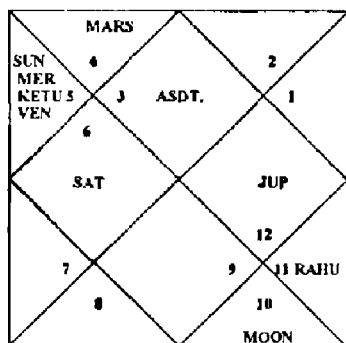

The native sought astrological help after the grounds for divorce had been prepared in the same sub-period. Strengthening remedial measures for weak planets by way of a KAVACH and simple propitiatory remedial measures for Rahu-Ketu were suggested for physical health and mental solace.

NAVAMSA

Balance Dasa of the Moon : 2 years 5 months 25 days.

The sign Gemini rises in the ascendant, whose lord, Mercury, occupies the house of initiatives, writings and courage, alongwith the lords of the third and the fifth houses. Mercury represents the fourth house more as per the Systems' Approach. The lord of the second house, the Moon, aspects the same and the lord of the eleventh house, Mars, placed therein closely. The lords of the ninth and tenth houses mutually aspect each other. The native took birth in a comparatively poor family as the lord of the ninth house, Saturn, is debilitated in navamsa. The mid-point of the ninth house is closely conjunct with Rahu, which had its main period from tenth to 28th year of life. Close association of the lords of the fourth and fifth houses, mutual aspects of ninth and tenth lords and the formation of Hamsa Yoga was indicative of significant rise in life which fructified with the onset of the main period of Jupiter. The basic areas were of the writing, analytical work and the professional matters. In July'1968, at the age of 17 years the native compiled a book on devotional songs. In July, 1974, the native's views on a very sensitive national issue were published in a national news paper. In 1989, the native authored a book which was widely accepted by the target audience. In May, 1991, the research work of the native was published in the form of a book.

The native is blessed with younger brothers, long lived parents, material assets, religious inclinations and good status in life.

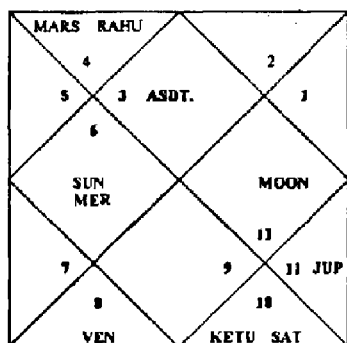

Jupiter's dasa is to be followed by the main periods of functional benefics Saturn, the ninth lord, and Mercury, the fourth lord.

RASI

NAVAMSA

Balance dasa of Saturn : 4 years 1 month 1 day.

Jupiter is closely conjunct with the midpoint of the ninth house and creates auspicious impact. Mercury, the fourth lord, is exalted but afflicted due to close aspect of Ketu from the eighth house. Rahu - Ketu axis due to close aspects/conjunctions afflicts debilitated Mars, Saturn, Mercury and the Moon besides the mid-point of the houses occupied and aspected. Besides Jupiter, the planets outside the grip of Rahu-Ketu are the Sun and Venus. Venus becomes weak due to placement in the sixth house as well as due to being in the state of infancy. The Moon and Saturn occupy their signs of debilitation in navamsa.

The native had the main period of the exalted fourth lord from the fourth year of life. Due to affliction to Mercury, despite its exaltation and the mutual aspect formed between the Moon and Mercury, its dasa could not prove to be of great help to the father. There was restricted material prosperity but status-wise no growth.

Afflictions to the weak second lord, Mars placed in the second house and the lord of the fortune placed in the eighth house spoiled the marital life of the native. She did not have elder/younger brothers/sisters. She had short lived inharmonious marital relationship giving birth to a female child. She was married in Ketu/Mars.

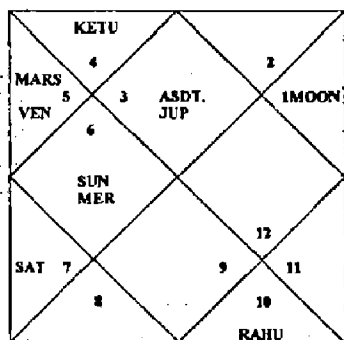

The placement of Mars in the second house and aspects of the Sun and Mercury to the tenth blessed the native with employment. The life is a bed of thorns for the native. The current main period lord is placed in the sixth house and the lords of the ensuing sub-periods being afflicted do not hold good promises.

RASI

NAVAMSA

Balance dasa of Ketu : 6 years 8 months 6 days.

The lord of the house of status is weak because of its being in the state of infancy. The weakness of the second lord is also obstructive in the continuance of family line. The lord of the third house in association with the lord of the fourth house occupies the fourth house aspecting the tenth house. The lords of the fifth and eleventh houses, jointly occupy the third house and cast their aspect on the house of fortune. The lord and

karka of the seventh house, Jupiter, aspects the mid point of the seventh house very closely. The lord of the ninth house occupies the fifth house in its sign of exaltation.

Apart from the weakness of the Moon, the other areas of weakness are the planets Jupiter and Saturn as they are in the state of infancy. But that deficiency is made up to some extent because of their being very close to the mid point of the house of their occupation. The only affliction in the chart is close aspect of Rahu to the Sun. Rahu's aspect to the Sun has eluded success in entrepreneurial attempts of the native for opening a nursing home. The native is a doctor and has keen desire for having a nursing home. On the other hand the weakness of the Moon has ditched her in finding a regular job in spite of her being a professional. The weakness of the second lord is also obstructive in the continuance of family line. The lord of the third house in association with the lord of the fourth house occupies the fourth house aspecting the tenth house.

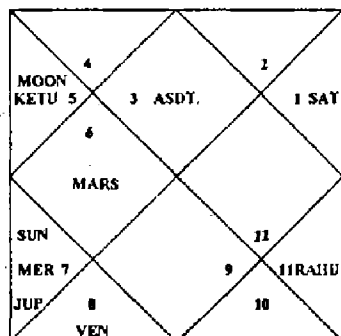

The weakness of the Moon and its main period being in operation has proved to be hinderance for the continuance of the family. The native gave birth to twin female babies and thereafter could not conceive in spite of the couple being fully eligible from the medical point of view. The placement of the lord of the fifth house in a barren sign and occupation of the fifth house by planet of scarcity, Saturn, are the contributory factors.

NAVAMSA

Balance dasa of Ketu : 4 years 1 month 7 days.

The Moon is in the third house closely conjunct with Rahu-Ketu axis. The lord of the third house is in its sign of debilitation and under the very close aspect of Rahu. The lord of the fourth house is combust. The lord of the fifth house is placed in the sixth house. The lord of the ninth house is weak due to its being in the sign of its debilitation. Jupiter and Mars lose their apparent strength because of the weakness of their dispositors.

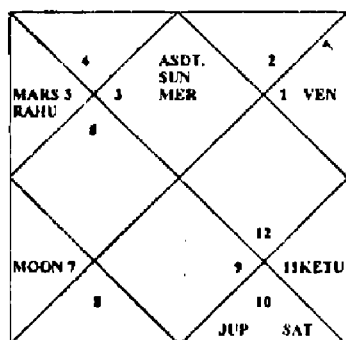

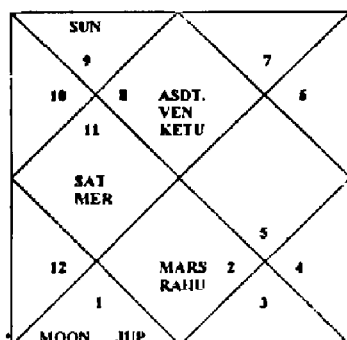

Weakness of the planets and close afflictions in the chart have resulted in the overall downfall of the family. The native's school education had been with failures and lower grades. The financial position of the parents remained unsatisfactory. In the sub period of Rahu in the main period of Venus placed in the house of sickness the child suffered from a leg fracture due to Rahu's affliction to the significator for bones, the Sun.

The native's studies lagged behind with interruption. The native is not getting a job. Consequently, the settlement in life in all spheres is retarded. The weakness of the ninth lord, that too Saturn, and weakness of and affliction to the significator for father does not show satisfactory scope of help from father.

MER	02-13-43				

RASI**NAVAMSA**

Balance dasa of Jupiter : 12 years 9 months 11 days.

The close association of the Sun with the midpoint of the ascendant has given birth in a comparatively affluent family and has resulted into big ventures by the native. The combustion of Mercury has, however, obstructed the normal pace of growth of the prosperity. The mother of the native suffered from various health problems.

The exact conjunction of significator of younger brother and lord of the house of elder brother Mars with Rahu in the third house near to the mid point of the third house has caused suffering to both elder and younger coborns besides causing physical and professional problems to the native. The elder brother of the native could not be blessed with a child even after 15 years of married life. The younger sister also faced the same problem after marriage.

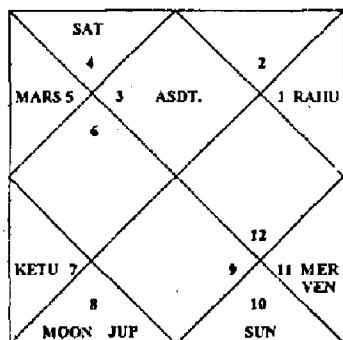

The Moon is placed in the fifth house closely aspected by the lord of the fifth house, Venus. The native remained unmarried upto 28th year of life when he sought astral remedies. KAVACH for Mercury and debilitated lord of the seventh house and propitiatory remedial measures for Rahu and Ketu helped the native in getting married and blessed with progeny. Placement of Ketu close to the midpoint of the ninth house and placement of Saturn in the eighth house brought the financial resources and assets of the native's father down. The placement of the Sun and mutual aspect of Venus and Moon may take the native to politics in the current main period of Mercury. The younger paternal uncle's assuming the office of a Minister is making an opening for the native's entry into politics.

RASI

NAVAMSA

Balance dasa of Saturn : 14 years 9 months 25 days.

The lords of the seventh, eleventh and fourth houses are weak due to combustion. The lords of the fifth and second houses are weak due to being in the state of infancy and being in its sign of debilitation, respectively. The placement of five planets in the house of status in association with the royal planet, the Sun, has been of some help in harnessing the strength of otherwise weak planets. Jupiter and Mars are closely aspected by exalted Saturn from the fifth house, though the debilitation of Saturn in navamsa discounts its strength. The close influence of Venus to the mid-point of the house of status and placement of the Sun and Mars there have made the native a physician. The exaltation of the ninth lord granted the exalted status to the father. The weakness of the lords of the second and seventh houses and placement of the debilitated Moon in the sixth house gave inharmonious marital life to the native. The weakness of majority of the planets reduces the physical strength of the native which is one of the very important factors for a happy married life. Combust Jupiter's sub-period in the main period of combust Mercury resulted in a divorce giving a mental set-back to the native as well as his parents. The period also saw the death of the mother.

Suggested effective remedial measures for warding off evils and generating good results in life for Gemini born natives.

1. Render service to parents/parents in law and old aged needy persons.
2. Wear a KAVACH (protecting disc of mystical numbers) prepared on a silver disc as per design below in a black colour thread permanently around the neck with numbers to be engraved in an auspicious time.

wishes will become basefull - will love his mother or
have children*

CHAPTER 6

CANCER ASCENDANT

The sign Cancer is a mute, negative, watery and fruitful sign. Its lord is the Moon, which is a royal planet. It signifies grace and status. With Cancer rising, the Moon being in a dusthana, one has sickly constitution, unpleasant appearance and mental unrest.

Cancerians are of volatile nature. There are two reasons for this. Firstly, the Moon becomes weak quite often either in Pakshabala or by going to inauspicious places from the ascendant, being debilitated or combust or joining the mooltrikona signs ruled by weak planets. Secondly, the house of initiatives is ruled by Mercury which also remains weak, oftenly. In case Mercury is weak and/or afflicted, the initiatives of the native do not produce results resulting in change of ventures.

The persons born under this sign suffer constantly from mental maladies, physical ailments of breast, chest, heart, epigastric region, stomach and digestive region whenever the Moon is weak and/or afflicted.

Cancerians are imaginative, peace loving, good hosts, moody and humourous. They are generous, helpful, emotional, dependent and are full of concern both for self and others. The sign being royal, there are many happy events in their lives. They are very sensitive and restless.

The Moon, Mars, the Sun, Venus and Mercury are functional benefics. Jupiter, Saturn, Rahu and Ketu are functional malefics for Cancerians. A strong Moon blesses them with affluence and recognition. A strong Sun blesses them with status. Because of the repetitive transit weakness of Mercury and weak natal Mercury it bothers them on account of miseries to younger brothers and sisters as also on their own initiatives.

A strong and well placed Venus blesses them with affluent and reputed parents, vehicular and residential comforts, good education, good family life and pleasures in life. A strong Jupiter blesses them with good physical health while a strong Saturn blesses them with long life. A strong Mars blesses Cancerians with well placed father and executive authority.

As stated earlier the happy events are more in their lives and recurrent while unhappy are rare but are long living. The unhappy events are more tragic if the functional benefics are weak and afflicted. Functional malefics Saturn and Jupiter for Cancerians are as potential harmful as Rahu and Ketu are, whenever they form close aspects/conjunctions with functional benefics and mid point of the houses they occupy and aspect in a natal chart. In their transit movement, similarly, whenever they form close conjunctions or aspects with weak natal planets or mid points of the weak houses they trigger unfavourable events. The weak Sun and Venus indicate trouble to parents, loss of assets and comforts. The significant role of Mars, as a yogakaraka, is curtailed if it is weak.

Unfavourable colours

Steel grey, dull brown, yellow and black

Unfavourable stones

Hessonite (gomedh), cat's eye (Iasonia), blue sapphire and yellow sapphire

Weak and afflicted planets

Effects

SUN Loss of status, wealth and family life. Weak heart and loss of vitality.

MOON Weak body constitution, emotional disturbance, phlegmatic diseases, poor.

MARS Obstructions in profession, short tempered, lack of executive power, weak health.

add 3212 **MERCURY** ^{malefic} Difficulty in communicating with others, nervous, unhappiness through younger co-borns.

JUPITER Diseased body, debts, disputes, trouble to male children, loss of respect.

VENUS Loss of comforts, assets and domestic peace. Obstructed education, trouble to mother and wife.

SATURN Middle life span, loss of inheritance, loss in speculation and gambling, accidents.

Saturn is Karaka of death for Cancer ascendants

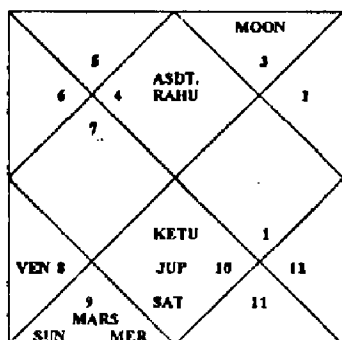

Let us see further peculiarities of Cancerians through illustrations.

RASI

NAVAMSA

Balance dasa of Mars : 3 years 19 days.

The lords of the second, third and tenth houses in close conjunction are placed in the sixth house. Their conjunction is auspicious but combustion of Mars and Mercury and placement in the sixth house turns the conjunction weak. The lord of the fourth house retains some power because of its placement in a trine and its being in the exalted navamsa in spite of its being in the old age state. Saturn is closely conjunct with the mid-point of the seventh house. Jupiter and Ketu's placement in the seventh house is inauspicious but is quite away from the mid point. This type of placement triggers unfavourable events due to transit conjunctions/aspects concerning with the issues signified by the house in question.

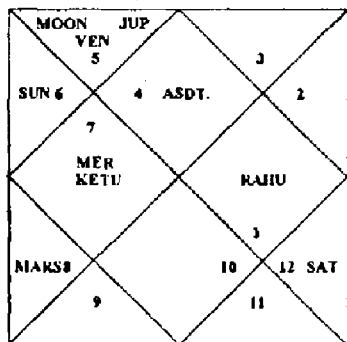

The native is emotional and mentally troubled. Weakness of the Sun, Rahu's close aspect to the fourth lord, Venus, and Saturn's close aspect to the mid point of the ninth and fourth houses snatched the patronage of father as he died when the native was unmarried and was in her 25th year of age. The native was involved emotionally and entered in a marital wedlock for finding security. Affliction of lord of the eighth house to the seventh house though ruled by Saturn itself and weakness of the second house saw number of problems in marital life including the husband's involvement in scandles and criminal suits. Rahu's close aspect to Venus robbed the native of assets, domestic happiness and happiness through parents. The feeble mutual close aspect of the Moon and Mars, however, bagged a job to the native on compassionate grounds after the death of her father.

NAVAMSA

Balance dasa of Ketu : 5 years 10 months 7 days.

The functional malefic Jupiter afflicts the Moon and Venus by close conjunction in the second house. The functional malefic Saturn afflicts the Sun by close aspect and is close to the mid point of the ninth house. Mercury is closely conjunct with Ketu. Yogakaraka Mars with exalted navamsa occupies a trinal house owned by it. The functional benefics, Venus, the Moon, the Sun and Mercury enjoy placement benefit inspite of the afflictions by functional malefics.

The native's parents as well as in-laws are affluent but mental peace is lost due to disputes connected with joint properties of both the families. Jupiter's placement being lord of the sixth house, in the second house afflicting the lord of the fourth house is fully indicative of such happenings in life. The dasa in operation was also that of Venus. The native is peace and comforts seeker and is happy on account of the availability of the material comforts.

The affliction to the lord of the third house keeps native worried on account of developmental activities of her younger brothers. The yogakaraka Mars becomes the saviour for afflictions in the natal chart. Affliction to the Sun is indicative of health problems to the father.

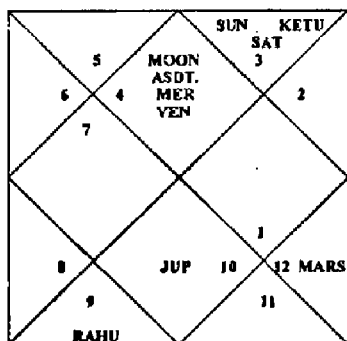

The native has been suggested remedial measures both strengthening for weak and afflicted functional benefics and propitiatory for functional malefics.

Balance dasa of Saturn : 11 years 6 months 15 days.

The Moon occupies the ascendant in close conjunction with Mercury and Venus, both functional benefics. The Sun suffers, affliction due to close conjunction/aspect of Ketu and Rahu, respectively. Besides, the Sun becomes weak due to placement in the twelfth house. Rahu-Ketu is quite away from the mid-point of the houses they occupy while the functional malefic, Saturn, is just on the mid-point of the twelfth house. The weakness of the Sun gave ill health to the native on account of fevers due to tonsillitis. The second ruler of this aspects, Venus, suffers from weakness due to debilitation in navamsa. Jupiter's placement is quite away from the mid point of the seventh house.

The native is emotional and shows the signs of seeking dependency. The tenth lord's close aspect to the lord of the house of status shows roots for working life of the native. The fourth lord's close influence on the ascendant alongwith lord of the third house has taken the native to a graduate course in architecture. The fourth house rules buildings and the fourth lord, Venus, rules studies and application of artistic values.

The marital life of the native is likely to remain unsatisfactory due to conjunction of the eighth lord to the mid point of the twelfth house and Rahu's close aspect to the Sun, the second lord placed in the twelfth house. The girl belongs to a well to do family.

NAVAMSA

Balance dasa of the Moon : 2 Years 3 months 9 days.

The lord of the ascendant occupies the seventh house. It is bright. Venus, the fourth lord, occupies the ascendant and is close to the mid point of the ascendant. Third lord occupies the third house in its sign of exaltation. The second lord is in the second house itself. The tenth lord occupies the fourth house and aspects the tenth house. Functional malefic, Saturn, is closely conjunct with the mid point of the second house while Jupiter is in the fifth house and is quite away from the mid point of the house. Mars is closely conjunct with Ketu.

The native is a highly placed executive leading a pleasant life. He was born in an affluent and well connected family and enjoys benefits from top Govt. officials. Third lord, exalted Mercury, has given him business accumen benefitting him by way of rise in status. Association of Rahu-Ketu with Mars and placement of the eighth lord near the mid point of the second house,

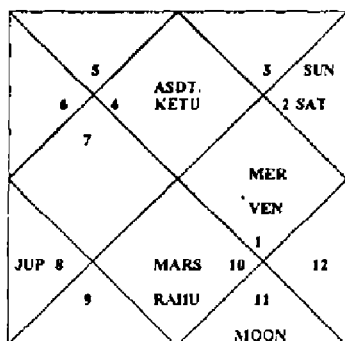

however, have propensities for involvement in some scandal/ investigative enquiry and be the cause of disgrace. It can cause some chronic illness. The native has the qualities of being a good host, public relations man with sharp intellect. The weakness of the second house due to the Sun being in the old age and affliction of Saturn to the mid point of the second house, has been the cause of some amount of inharmonious marital relationship and denial of male progeny for continuance of the family line.

NAVAMSA

Balance dasa of Jupiter : 13 years 6 months 22 days.

The lord of the ascendant is placed in the eighth house, hence weak. The brightness of the Moon is on the wane. Rahu-Ketu axis closely afflicts the mid point of the houses occupied and aspected. Functional malefics, Saturn and Jupiter, afflict the Sun by way of close conjunction and close aspect, respectively. Functional benefics, Venus and Mercury, are closely conjunct with each other and occupy the tenth

house. Venus and Mercury are quite away from the midpoint of the tenth house but unafflicted.

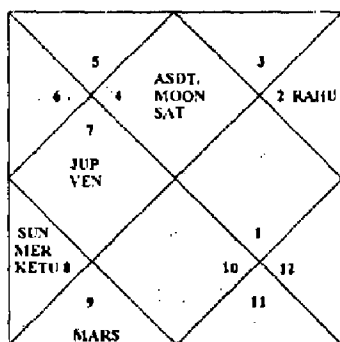

The position of Venus and Mercury blessed with younger coborns and affluent parents. The weakness of the lord of the ascendant and affliction to the lord of the house of status retarded the growth of the native since birth as she was running the sub-period of Saturn in the main period of Jupiter, both being functional malefics and obstructing acquisition of status by the child. Rahu's close aspect to the house of development was another powerful contributing factor for retarded growth. Before her death in combust Saturn's sub-period in its own main period the native was fully dependent on others for movement and food.

Balance dasa of Saturn : 14 years 6 months and 24 days.

The lord of the ascendant is closely conjunct with the midpoint of the ascendant. The placement of Saturn, a functional

malefic, in the ascendant is quite away from the mid-point of the ascendant but Saturn is having close aspect from Ketu. Another functional malefic, Jupiter, is closely conjunct with the fourth lord, Venus, in the mooltrikona sign of Venus. The Venus is strong but afflicted. The second and third lords are in the fifth house. The lord of the tenth house, Mars, is placed in the sixth house.

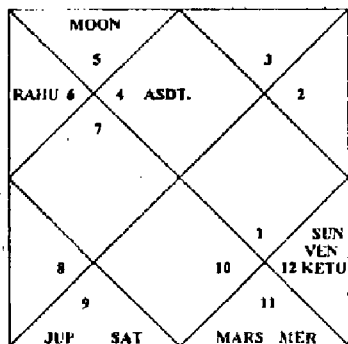

The native is of adjustable nature and has good relations with others. His financial position is sound. His parents had large landed property and real estate. Affliction of Jupiter to Venus, however, created certain problems and worries on account of property and assets. He has been able to manage his controversial position through his good public relations and dependence on his superiors. Controversies in work area is created due to placement of the tenth lord in the house of disputes. The affliction of fourth lord has given him anxiety and hypertension.

Balance dasa of Ketu : 1 year 5 months and 27 days.

Rahu-Ketu axis forms close conjunction/aspect with Venus in this chart. The Moon is conjunct with the mid-point of the second house in the sign Leo. The lords of the tenth and third houses are placed in the eighth house. There is a mutual close aspect between the Moon and Mars indicative of a favourable combination for career. Mercury is closely aspected by the functional malefic, Saturn, from the house of diseases and disputes.

The close aspect of the functional malefic, Jupiter, to the lord of the ascendant, weakness of Mercury and afflictions to Mercury and Venus have given the native acute health problems of low blood pressure, arthritis from very early stage of life. The affliction of the Moon in the second house, in addition to low blood pressure, has given her the problems of thyroid indicated by the second house.

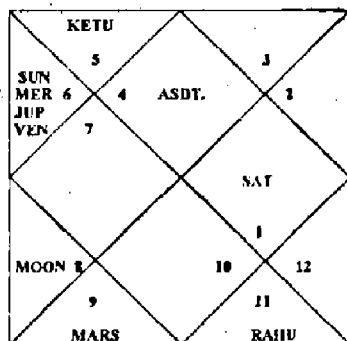

Exaltation of Venus and its placement in the ninth house near to the mid point together with the lord of the second house have blessed the native with a post graduate degree in science. The close aspect of the lord of the house of disputes to the mid point of the second house, close conjunction of Venus with Ketu and placement of lord of the house of marital tie, Saturn, in the sixth house, resulted in divorce in the Saturn's sub period in the main period of the Sun. The relationship in the second marriage also remains inharmonious. The native sought astral remedies in the sub-period of Saturn in the main period of the Moon.

NAVAMSA

Balance dasa of Saturn : 7 years 1 month and 15 days

The lord of the ascendant, the Moon, occupies the fifth house in its sign of debilitation. The lord of the fourth house, Venus, too is in its sign of debilitation. The native belongs to a lower middle class family.

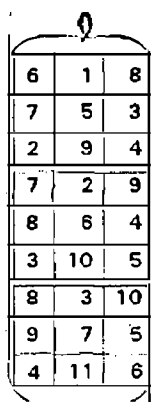

There are severe afflictions and weaknesses in the chart. The lord of the tenth house is in the sixth house and the tenth house is afflicted by placement of eighth lord, Saturn, therein. These combinations coupled with debilitated lord of the ascendant have not allowed the native to acquire any competency for a professional or a routine career. The lord of the house of family and status is also afflicted due to close conjunction of the lord of the sixth house.

On marital front too, the native faced total failure. She was tortured by her in laws from the very beginning bringing her to the level of madness. Rahu-Ketu axis close to the mid point of the second and eighth houses, affliction of lord of the second house by lord of the house of disputes and debilitation of the lord of the fourth house are collectively responsible for failure of marriage. The native has already seen the main period of Mercury which was exalted and had strength in her chart. The marital dispute arose in the sub-period of the eighth lord, which is in the state of debilitation.

Suggested effective remedial measures for warding off evils and generating good results in life for Cancerians.

1. Render service to parents/parents-in-law and old aged needy persons.
2. Wear a KAVACH (protecting disc of mystical numbers) prepared on a silver disc as per design below in a green colour thread or a gold chain permanently around the neck with numbers to be engraved in an auspicious time.

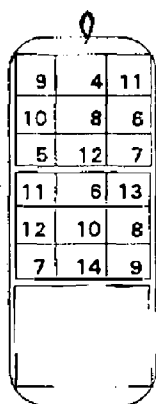

KAVACH

The front side of the KAVACH disc is a rectangular plate with rounded corners and a small loop at the top. It contains a 7x3 grid of numbers. A small crescent-shaped symbol is drawn to the right of the grid.

6	1	8
7	5	3
2	9	4
7	2	9
8	6	4
3	10	5
8	3	10
9	7	5
4	11	6

Front side

The back side of the KAVACH disc is a rectangular plate with rounded corners and a small loop at the top. It contains a 6x3 grid of numbers. A small cross-like symbol is drawn to the right of the grid.

9	4	11
10	8	6
5	12	7
11	6	13
12	10	8
7	14	9

LEO ASCENDANT

The sign Leo is ruled by the planet, the Sun, signifying intelligence, heart, male progeny, royalty and magnificence. This sign is fiery, positive, barren and signifies benevolence. Leo born people with weak and/or afflicted Sun in the chart face weak health, weak digestion, malfunctioning of heart, disease of spine and blood, lack of stamina and strong will power and weak eyesight.

Leos are rulers, extrovert, best organisers, patient listeners, jealous, decisive, art lovers, generous, authoritative and anxious to retain and expand their domain. As the weakness prone planet, Mercury, rules their second house ruling kingdom, their status is mostly short lived and they are always on the move to solve the problems one after the other. They are receptive to the ideas of others but provide leadership as per their own conviction. They are anxious to oblige others by favours so that they are recognised by others as royal. They intend to punish the guilty and rarely apologize, those who do not surrender completely.

A king needs help of all specialists and cannot afford to be ease loving. As such, the Moon, the planet representing ease is the functional malefic for Leo born people. The Leo born people are most alert and very fast in assimilating diversified activities and problems. Mercury, the planet of analytical faculties, rules the second house representing concentration.

The initiatives of a king are for financial prosperity and enjoyment ruled by Venus, whose mooltrikona sign falls in the third house.

The fifth house ruling intelligence, benevolence, generosity and justice is governed by the planet of divine grace, Jupiter. The advisors and courtiers, ruled by the seventh house, are generally greedy and trying to secure their future. They are ruled by Saturn in a Leo nativity. Yogakaraka Mars represents the executive power of the king as the mooltrikona sign of Mars falls in the ninth house ruling father and fortune.

Functional benefics, Mars, the Sun, Mercury, Venus, Jupiter and Saturn, well placed and strong, devoid of close conjunction/aspect of the functional malefics, the Moon, Rahu and Ketu, certainly help the native in acquiring leadership or a top position in the Govt. in today's context even if the native is born in an ordinary family.

Merely Leo rising is helpful to Leo borns in assuming positions of power in the favourable periods with even average strength of planets. However, the weak and afflicted Sun and other planets mentally torture Leos as they cannot adjust with compromising situations and are always trying to assume control of the circumstances beyond control.

Exalted Sun in Leo nativities indicates highly placed father and success in a political career. Exalted Saturn indicates successful joint ventures and spouse possessing entrepreneurial capabilities. Exalted Mars with the support of other strong planets gives an affluent father engaged in the professions ruled by Mars. Exalted Moon situated away from the mid point of the tenth house indicates significant role played by overseas in one's professional career. Exalted Jupiter with a strong Moon in its period indicates prosperity in a foreign land. Exalted Mercury indicates leadership or chief position in a Govt. Deptt. Exalted Mercury with a strong and well placed Sun blesses the native with top level public/political office. Exalted Venus turns the native into a pleasure seeker leaving aside the attention to administrative or organisational responsibilities of the native. Similarly, are to be read the results of the planets when they are in their signs of debilitation. However, the significations likely to be promoted when the planets are exalted get a set back when the concerned planets are debilitated and/or placed in the sixth, eighth or twelfth house.

Unfavourable colours

White, dark coffee, smoke grey and dull navy blue.

Unfavourable stones.

Pearl, gomedh (hessonite) and cat's eye (Iasonia)

Weak and afflicted planets	Effects
SUN	Loss of vitality, heart problem, loss of status.
MOON	Middle life span, troubled marital life.
MARS	Troubles to father and chequered fortune.
MERCURY	Loss of status, trouble to spouse and loss of reputation and accumulated wealth.
JUPITER	Unhappiness on account of male progeny, liver problems, diabetic, loss of mental peace.
VENUS	Unrewarding and unsuccessful ventures, lack of happiness from wife and younger coborns.
SATURN	Loss of spouse, separation, cheated by advisors/partners, unpleasant stay/residence in a foreign land.

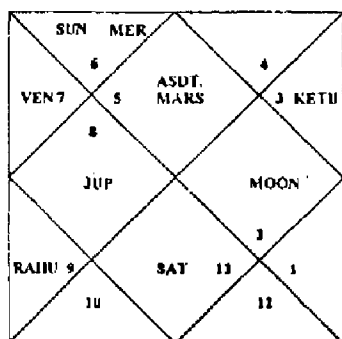

Further peculiarities of the impact of the Leo being the ascending sign, will be discussed by way of case studies mentioned hereunder :-

NAVAMSA

Balance dasa of the Sun : 4 years 1 month 16 days.

Yogakaraka Mars is placed close to the mid point of the ascendant. Its impact is not full as Mars is in its sign of debilitation in navamsa. The lord of the ascendant, the Sun, occupies the house of status in association with exalted, Mercury, ruling the house of status. Mercury's close association with the Sun is auspicious but Mercury's being combust, reduces the impact of this auspicious association to some extent. Rahu-Ketu and the functional malefic, the Moon, do not form close conjunctions or aspects in the chart. The fifth lord, Jupiter, aspects the house of profession from the fourth house. The third and seventh lords occupy third and seventh houses in their own mooltrikona signs, respectively. The auspicious combination in the chart are more in evidence in comparison to complete absence of afflictions and fewer weaknesses.

As at the time of college education of the native, the native was running the sub-period of Rahu in its own main period the native was perceived to be an average student. The native could not line up a job even after passing engineering. In the subsequent sub-periods of Jupiter, Saturn and Mercury, all being auspicious for the native, the circumstances took turn. The native was selected for a fellowship for research studies, which gave him the distinction of being the only specialist in a

particular subject in a country like India and was blessed with a rewarding career in life and holding many high ranking appointments with the Govt. organisations.

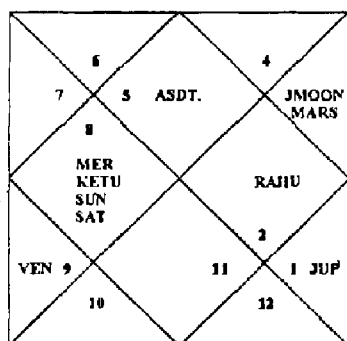

The third lord's strength is giving inclination to the native for a writing career after his retirement. The seventh lord's strong position blessed the native with residence in a foreign country in its sub-period in the main period of Rahu and thereafter of short stays abroad. The exalted Moon's position away from the mid point of the tenth house did not afflict the matters governed by the tenth house but was instrumental in his rise.

NAVAMSA

Balance dasa of Mars : 1 year 10 months 9 days.

The functional malefic, Moon, does not form any close conjunction in the chart. Exalted Rahu-Ketu axis forms close conjunction with the mid point of the houses of their location.

The fifth lord, Jupiter, aspects the ascendant, third and fifth houses closely from the ninth house. The lord of the house of fortune forms close conjunction with the eleventh house. The Sun aspects the tenth house closely. Mercury and Saturn have distant association with the mid point of the fourth house. Mercury is weak on account of its being in the state of infancy and combustion, both. Saturn is combust and is in the state of oldage.

In spite of the weakness of the Mercury and Saturn, the close conjunctions/aspects of Jupiter, the Sun and Mars to the middle points of the ninth, tenth and eleventh houses, respectively, blessed the native with a top position with the Govt. Even after his retirement he continues to lead premier organisations. Affliction of Rahu-Ketu axis, however, gave occasional tensions and the cardiac disease to the native. The strong and well placed position of the dispositors of Rahu and Ketu, however, absorbed the shocks provided by the affliction caused by Rahu-Ketu axis to a great extent.

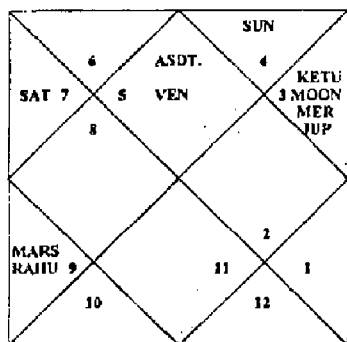

The strong Jupiter blessed the native with progeny, both male and female and conferred intelligence of the high order. The strength of Mars placed the native in higher income group and conferred properties on the native. The close aspect of the Sun to the tenth house gave a high status with frequent beneficial interaction with Ministers, etc. With the creative and imaginative ideas the native could raise the status of the organisations led by him. Good location of otherwise weak Saturn helped by a strong and well placed Venus blessed the native with a long lease of happy married life.

Balance dasa of Jupiter : 10 years 4 months 20 days.

The Sun is fully afflicted by Rahu-Ketu axis in addition to former's being in the ending part of the sign. Mars, though in its own sign in the ninth house, suffers from weakness because of its being in the state of infancy. Venus occupies its own mooltrikona sign in the third house but is quite away from the mid point of the third house. The functional malefic, Moon, is closely conjunct with the mid point of the eleventh house and is closely afflicted by the aspect of Ketu from the seventh house. The house of income has relationship with the affluent lord of the twelfth house.

The fifth lord, Jupiter, is placed quite close to the mid point of the tenth house. Saturn placed in the tenth house does not form close conjunction with either mid point of the tenth house or Jupiter placed therein. Both Saturn and Jupiter enjoy

placement benefit.

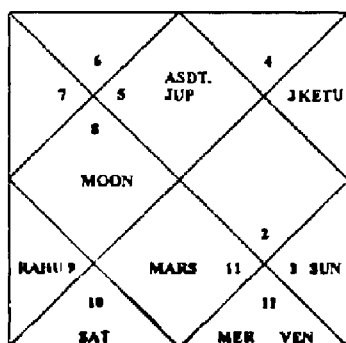

Due to weakness and severe affliction of the Sun the native could not attain any position in politics or in government organisations. The strength of Venus and Mercury took him to business. In exalted Mercury's main period the business of native flourished and native went and settled abroad. The business was doing well but suddenly decline was noticed from the start of the dasa of Ketu. In Rahu's sub-period in Ketu's main period, there were sudden problems resulting in heavy losses, hypertension followed by heart disease. Financial and social status of the native got a setback.

NAVAMSA

Balance dasa of Mercury : 10 years 4 months 6 days.

Rahu-Ketu axis fully afflicts the houses occupied and aspected, Jupiter and the lord of the ascendant, the Sun. Functional benefics Saturn, Mercury and Venus are placed in the

dusthanas. The Moon and Mercury occupy their signs of debilitation. Mars, unafflicted, ruling father, is placed well. Apart from Mars all other planets and houses face weakness and/or severe afflictions. The child was born in the sub-period of the Sun in the main period of Mercury. He died in the same period.

The traditional approach could not have indicated short life for this native as the Moon with the so called debilitation cancelled was placed in an angular house, Jupiter was placed in a kendra, yogakaraka Mars was aspecting the ascendant and the lord of the ascendant, the Sun, occupied its sign of exaltation in the ninth house.

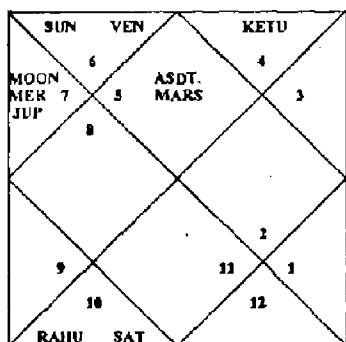

The System's Approach, however, gives clear indication. Whenever Rahu & Ketu axis is on the mid point of the houses of their location they severely afflict six houses, two by occupation and four by aspects. In case the lord of the ascendant and the mid point of the ascendant/other houses are also involved by way of conjunction or aspect, it becomes a case of retarded growth and short life. The inauspicious operating period, however, brings death. In this case as earlier stated it was the sub-period of weak and afflicted Sun in the main period of Mercury placed in the eighth house in its sign of debilitation.

Balance dasa of Rahu : 15 years 10 months 21 days.

Yogakaraka Mars is placed in the ascendant. The lord of the ascendant, the Sun is placed in the house of status. The lord of the house of initiatives and significator of wife, Venus, also is placed in the house of status though in its sign of debilitation. Debilitated Venus is also being closely afflicted by the aspect of Rahu. The functional malefic, the Moon, is just on the mid point of the third house reducing happiness from younger coborns as in addition to the affliction to the third house, the lord of the third house and significator for third house, Mars, are also weak. Mars is in the state of infancy. Jupiter placed in the third house is also severely afflicted by the functional malefic, the Moon, resulting in denial of male progeny and suffering on account of female children. Saturn, though in its own sign, becomes weak due to placement in the sixth house. The lord of the second house, ruling status, is placed in the third house quite away from the Moon and aspects the house of fortune. There are many combinations for acquiring high status in this chart. Firstly Leo rising in the ascendant. Secondly the lord of the ascendant being in the house of status. Thirdly the lord of the house of initiatives placed in the house of status. Fourthly, yogakaraka Mars being placed in the ascendant. Above all, the lord of the house of status aspecting the house of fortune.

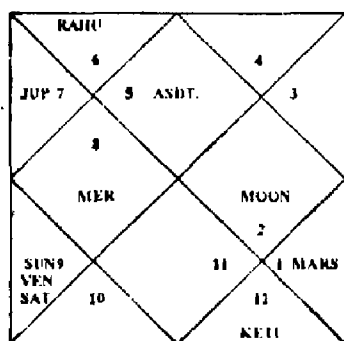

In spite of acquiring a very high position and accumulating immense wealth the native had to face unhappiness in life on account of younger brothers, lack of male progeny and marital inharmony.

NAVAMSA

Balance dasa of Mars : 6 years 9 months 10 days.

Rahu-Ketu axis is quite away from the midpoint of the houses of its location. Rahu closely aspects the functional malefic, the Moon, placed in the tenth house. The Moon is quite away from the mid point of the tenth house. Saturn, the lord of the seventh house is in the state of combustion and is placed in the fifth house in association with the Sun and Venus. The lord of the fifth house has exchanged position with the lord of the third house. As per the Systems' Approach both of these planets draw functional beneficence and placement strength. The significator for elder brother and male children,

Jupiter, is otherwise weak as it is in the ending part of the sign. The weakness of Jupiter weakens the position of the Sun, Saturn and Venus as they are placed in the mooltrikona sign of Jupiter. During the sub period of Jupiter in its own main period the native suffered accutely on account of serious health problem to his elder brother. During the sub-period of combust Saturn the sufferings to elder brother continued as he happened to be the partner of the native in the business enterprise. After his marriage in the sub-period of Mercury in the main period of Jupiter the native longed for a male child. His first child was a female. But the native did have chances of a male child as well due to placement of the Sun and Jupiter in favourable houses from the ascendant for which he was suggested yantra for providing strength to Jupiter. The strength to Jupiter will also take care of the miseries of his elder brother in addition to making his enterprises more paying and successful.

The ninth lord is placed in the ninth house. Mercury, the lord of the house of status, aspects the tenth house. As Mercury is a trader its influence on the tenth house has turned the native to be a contractor. Saturn's influence on the lord of the ascendant has taken him to the business of oil exploration.

During the Rahu's main period the native's parents saw many upheavels in life as Rahu closely afflicts the Moon, who is lord of the parental happiness in the natural zodiac. The exaltation of the Moon has been a tender saving factor.

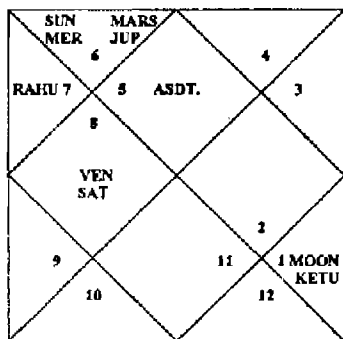

The native is a free lancer in his enterprises and earns good amount of money from his ventures.

Balance dasa of Ketu : 4 years 7 months 29 days.

Besides the lord of the ascendant, the Sun, there are three combust functional benefics in the second house indicating short lived auspicious contributions of their significations. Rahu-Ketu axis is very near to the mid-point of the houses of its location. In this case none of the planets suffers from the close affliction of Rahu-Ketu or functional malefic, the Moon.

Saturn, the lord of the seventh house, is closely conjunct with the mid point of the fourth house and closely aspects the sixth, tenth and first houses. the lord of the third house is placed in the fourth house but quite away from the mid-point.

The unafflicted position of the Sun, in the house of status blessed the native with graduation in medicine and a flourishing business by way of a clinic. But on the other hand inspite of his being a physician himself he could not care for his own inherent health problems caused due to weakness of Jupiter, Mercury and Mars and placement of Rahu-Ketu on the midpoint of their houses of placement. The native saw the main periods of unafflicted functional benefics, Venus, and the Sun upto thirtieth year of his life. Physical problems started surfacing in the main period of the functional malefic, the Moon. The major problem is that of the inflammation of the head of the pancreas, ruled by the planet, Jupiter and signified by the fifth house. Jupiter is combust and the fifth house is closely aspected by Ketu.

Suggested effective remedial measures for warding off evils and generating good results in life for LEOS.

1. Render service to parents/parents-in-law and old aged needy persons.
2. Be considerate to wife.
3. Wear a KAVACH (protecting disc of mystical numbers) prepared on a silver/gold disc as per design below in a green/black colour thread or a golden chain around the neck with numbers to be engraved in an auspicious time.

Notes :

- 1 For working out the auspicious time for engraving of numbers and wearing the KAVACH for total effectiveness, the readers may refer to author's book, "SYSTEMS' APPROACH FOR INTERPRETING HOROSCOPES"
2. Assets acquired in the similarly elected time will be long lived and beneficial.

24

VIRGO ASCENDANT

The sign Virgo is the mooltrikona sign of the planet, Mercury. Mercury governs nervous system, abdominal umbilical region, bowel and intestines. It is a negative, human, earthy and barren sign and rules the power of analysis and discrimination.

If the sign Virgo rises and Mercury is strong and well placed, a person gets attractive personality and is charming. The weak Mercury gives body with prominent veins, lack of witticism and lack of charm. The weak and afflicted Mercury causes sufferings through nervous breakdown, appendicitis, constipation, etc.

Their analytical nature makes Virgo borns thorough and critical leading to perfection. They are realistic in their approach, weigh pros and cons carefully and are appreciative of the events liked by them. They are practical, fully composed and sometimes perceived to be fussy. All these depend upon the strength and placement of Mercury in the natal chart. They are generally not content because environment is quite away from idealism. The usual weakness of Mercury makes Virgos feel insecure in life. They are generally worrisome. Virgos are mostly truthful, sincere and dependable. The reason is that the house ruling character and inclination has the mooltrikona sign of the planet, Jupiter. The oft-existent weakness of Mercury makes Virgos nervous. The role played by functional malefics in making Virgos nervous is very significant.

The planets the Sun, Saturn and Mars turn functional malefics besides Rahu and Ketu. The transit influence of functional malefics on weak natal positions of Virgos rob them of stability and encounters them with new troublesome situations time and again. That is why Virgos are known as nervous, fussy and appear to be or are insecure. Virgos are art lovers and artists. Mercury, their ruler, is the planet of communications. Mercury, when strong, gives them art of communication which helps them in entering the field of performing arts if Venus, too, is strong and well placed in the nativity.

A strong Mercury with a strong Jupiter, ruling the fourth

house, blesses the native with all assets in life as the significations of the fourth house are dynamic in nature as observed earlier in the book. A strong and well placed Moon blesses them with fulfilment of desires and good income while a strong and well placed Venus blesses them with advisory status and a happy married life.

Close conjunction of functional malefic, Saturn, with weak natal positions generates disputes for the significations ruled by weak natal planets or the houses. Close conjunction of functional malefic, the Sun, generates losses and expenses connected with the weak natal positions. While a strong Mars blesses Virgos with good inheritance, its close conjunction/aspect with weak natal positions causes obstructions, accidents and violent end to the significations ruled by weak and afflicted natal positions. Apart from these conjunctions/aspects of functional malefics, the close affliction of Rahu and Ketu with Mercury can cause epilepsy or paralysis while affliction to Jupiter can ruin the whole life of Virgos. (End of 4th & 5th Ve)

The collective weakness of Venus, ruling the second house, and Jupiter, ruling the fourth house, delays the marriage while bad placement of these planets and affliction causes denial/distrubed marital life to Virgos.

Unfavourable colours

Orange, black, red, grey and dull brown.

Unfavourable stones

Hessonite(gomedh), cat's eye (Iasonia), ruby, blue sapphire and red coral.

Weak and afflicted planets

Effects

SUN	Heart trouble, middle life span, expenditure on health, troublesome foreign journeys & stay.
MOON	Less income, non-fulfilment of desires, loss of assets and mental peace.
MARS	Middle life span, loss of inheritance or small inheritance, angry, unhappiness on account of younger brothers.

MERCURY Weak health, nervous breakdown, ordinary social status, lack of analytical power, skin disease, intestinal problem.

JUPITER Loss of assets, domestic peace and education and trouble to male progeny. Selfish & diabetic.

Manaka

VENUS Inharmonious marital relations, difficulties in accumulating wealth, kidney problems, weak eyesight.

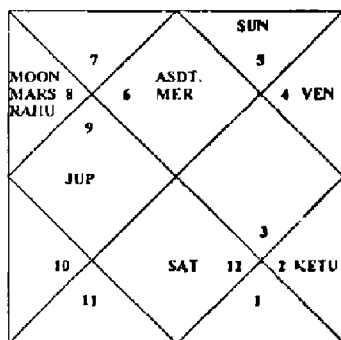

SATURN Tender health, aging process early in life, delayed success and joint pains.

NAVAMSA

Balance dasa of Saturn : 15 years 7 months 7 days.

Mercury occupies its own mooltrikona sign in the ascendant. Even after being exalted, Mercury lacks full strength as the same

is in the state of infancy and combustion. The lord of the second house, Venus, is placed in the eleventh house. Venus, though placed in an auspicious house becomes weak as its dispositor, the Moon, is debilitated. The debilitated Moon is in the third house in distant association with lord of the third house, Mars, and Rahu. Rahu-Ketu axis is not close to the mid point of the houses of its location. Rahu closely aspects and afflicts Venus. Weakness and affliction of Venus told upon the level of status and accumulation of wealth of the native.

Jupiter, the lord of the fourth house, occupies the fourth house in its own mooltrikona sign but is away from the mid point of the fourth house. In such cases the strength of Jupiter promotes the general significations of Jupiter, e.g, male progeny, disciplined and ethical life, sincerity and honesty. It does not powerfully influence the significations of the fourth house where it is placed as it is quite away from the mid point of the house of its location. Functional benefics, Mercury, Venus and the Moon, are weak while Jupiter is in strength. Whenever, a mooltrikona sign rises in the ascendant the longevity comes into focus. In this nativity the weakness of Mercury and close affliction to the ascendant by functional malefic, Saturn, is indicative of middle life span. Had such a Mercury been placed in a dusthana, say, the twelfth house, other things remaining same, the native would have had a short life span. The native was born in the sub-period of the functional benefic, well placed and weak Mercury, in the main period of Saturn. The native also saw the main period of Mercury in life. The native pursued the course of engineering but due to weakness and affliction to the lord of the second house, ruling status, could not acquire higher status in life. Debilitated lord of the eleventh house kept the earnings on lower side. The strong lord of the fourth house helped the native acquiring the degree of engineering. This Jupiter also blessed the native with well behaved sons and domestic happiness.

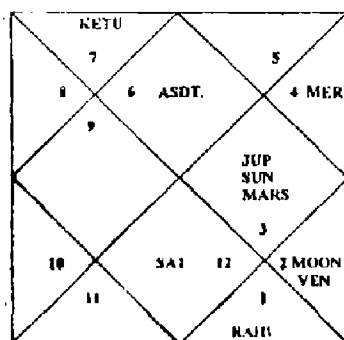

Though due to the weakness of the Moon and affliction to the ascendant by Saturn there were spells of mental worries to the native, yet he generally maintained good physical health. As the chart did not indicate full span of life the native died of an accident in the fifty first year of his life.

RASI

NAVAMSA

Balance dasa of the Sun : 1 year 7 months.

The sign Virgo rises in the ascendant, whose lord Mercury is placed in the eleventh house. The functional malefic, Mars, closely aspects the mid points of the ascendant, the fourth and fifth houses and afflicts the houses occupied and aspected. The Sun, the lord of the twelfth house, ruling bed comforts i.e. peaceful enjoying the company of the spouse, is closely aspected by the functional malefic, Ketu. Rahu in its own sub-period gave the marriage as it is placed in the house of marital tie. The gains of Rahu's period are seldom retained on permanent basis. Especially, when Rahu is badly placed i.e. placed in a malefic house, the gains of Rahu's period are always lost. In addition to the affliction to the Sun, Jupiter, whose mooltrikona sign falls in the fourth house ruling bliss of the marital life, is also combust. Both significators, Jupiter for

husband in a female chart and the secondary significator for husband, the Sun, are weak and afflicted by Ketu. The weakness of the fourth house and affliction to significators indicate disturbed and short lived marital bliss. The lady lost her husband after two and a half years of the marriage in the sub-period of the combust Jupiter. The functional malefic, Saturn, also closely afflicts the houses, occupied and aspected as also the Moon, the lord of the eleventh house.

The close affliction of various houses and the Sun and the Moon by functional malefics, is clearly indicative of tragic happenings in life. The weak and afflicted fourth house also indicates the uncomfortable position of the parents.

Some people hold the view that those, who prescribe astral-remedial measures are incompetent to make predictions. I can only pity at their lack of power to understand. The afflictions and weaknesses identified with the help of the Systems' Approach clearly indicate the picture as in this case and there cannot be two opinions. The only opinion will be suffering. But such people forget and disregard Maharishi Parashar, who propounded the theory of remedial measures. The preventive remedial measures provide relief from sufferings while remedial measures after some tragic incidence help in rehabilitation.

The placement of the Moon in the ninth house shows relationship between income and father. The native, in such cases, derives benefit from his/her own father. The lord of the house of status, though in old age, is well placed in the ninth house in its own non-mooltrikona sign. This is indicative of native acquiring position in life through the help and assistance of father. The placement of the lord of the ascendant is also indicative of earnings by self effort.

Predicting future is one part of the story in case of astrology while remedial measures is the essence, which helps us in providing umbrella during cloudy days.

NAVAMSA

Balance dasa of the Moon : 1 year 1 month 16 days.

Mercury, when strong makes a person analytical in approach and its weakness robs the person of that power. In this case, Mercury and Jupiter, ruling the ascendant and the fourth house, are combust. The native had higher education in non-analytical subjects. Weakness of Jupiter and severely afflicted and badly placed Venus denied the marital bliss to the native. Functional malefic, Saturn, do not form close conjunction/aspect in the chart while the Sun is closely afflicting Mercury and the houses occupied and aspected. Mars is closely aspecting the weak Jupiter. Here the marriage was delayed and denied up to the age of 47 years due to the factors elaborated earlier. However, performance of remedial measures generated circumstances for marriage but because of the weak Mercury the native erred in judgement and agreed for marriage with a person whose

divorce for an earlier marriage was pending in the court of law. The celebration of the marriage got delayed for some time. The somewhat close association of Rahu-Ketu with the lord of the eighth house eludes the enjoyment of the conjugal life.

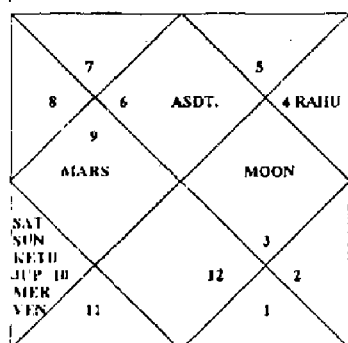

The good placement of the Moon in the chart have given the native self earned income and benefits from parents. The influence of Jupiter, the planet signifying education and knowledge, has given the profession of a teacher to the native. The native has been advised strict observance of remedial measures for Rahu, Ketu, Sun and Mars for success in the delayed marriage. Here again the only conclusion from weak and afflicted Jupiter, Venus and Mars without the help of astral remedies, is absence of marital bliss.

NAVAMSA

Balance dasa of Rahu : 11 years 0 month 12 days.

Very peculiar chart indeed. The native wanted to go in for administrative services while astrological factors indicate that the native can work in an organisation dealing with research or analysis. Mercury is placed in the fifth house in close conjunction with debilitated but functional benefic, Jupiter, and Ketu. Ketu's affliction outweighs the influence of weak Jupiter. In spite of his attaining a good academic post graduate degree in economics, native could not find a job. First his direction was wrong and secondly when he got selected for some foreign fellowship in the field of research he could not go because of paucity of funds. Let us see the rest of the planets in the chart. Venus (ruling the house of status), Mars and Saturn are combust. Rahu-Ketu axis closely afflicts the houses occupied/aspected including the income and mental peace. The lord of the eighth house is closely conjunct with the fourth house. The Moon is well placed and unafflicted but is quite away from the mid point of the tenth house. Though it has not given the results in the tenth house as affliction of the eighth lord to the tenth house is more grave, the Moon has promoted its general significations like long lived parents, education, good mental strength and elder coborns.

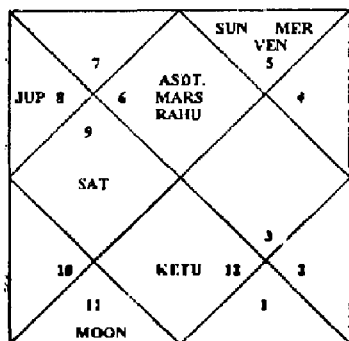

The operation of inauspicious sub-periods of Mars and Rahu in the main period of weak and afflicted Jupiter and sub-periods of combust Saturn and afflicted Mercury in the dasa of Saturn has completely shattered the native because of successive failures inspite of the good educational background and family circumstances. Weakness and affliction of the lords of the second and fourth houses have delayed employment and marriage. The strict observance of astral remedies can better the situation to a limited extent at the rehabilitation stage.

NAVAMSA

Balance dasa of Rahu : 3 years 4 months 4 days.

The lord of the ascendant is combust (weak), badly placed (in the twelfth house) and is afflicted (closely conjunct with the lord of the twelfth house). Rahu-Ketu axis and functional malefic, Mars, are closely related with the mid point of the ascendant. The fourth lord is placed in the third house in the state of infancy and the mid point of the third house is closely aspected by Ketu. The lord of the second house is placed in the twelfth house. The functional malefic, Saturn, is closely afflicting the houses occupied and aspected by it. The ascendant and its lord are having severe afflictions and are devoid of a benefic influence.

The marital life of the native is totally inharmonious. The native is so much harassed in life that she tried to commit suicide in the main period of Saturn (a functional malefic) and sub period of the Sun (another functional malefic afflicting the lord of the ascendant closely). The lord of the eleventh house, the Moon, is also badly placed in the chart. All the functional benefics have been rendered helpless due to weakness, afflictions and bad placements. Though the suicide attempt of the native did not succeed in September, 1989, yet the chart only promises a middle life span. If as per the traditional theory we consider this chart from the Moon, the chart will never indicate the circumstances prevailing in life. The major difference between the traditional theory and Systems' Approach is that

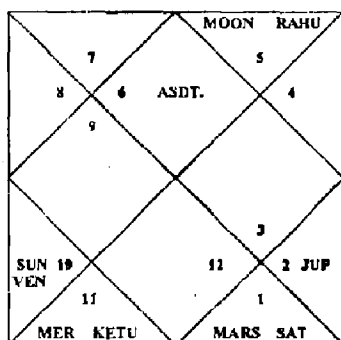

it guides the astrologer to correct analysis more confidently.

Balance dasa of Ketu : 3 years 8 months 16 days.

The lord of the ascendant, Mercury, is badly placed but closely aspected by functional benefic, the Moon. The lord of the fourth house is unafflicted and powerfully placed in the ninth house. The ascendant is not having any close malefic aspect but is aspected by the benefic, Jupiter. The combust Venus is closely afflicted but having close favourable aspect from Jupiter. The eighth lord's placement in the eighth house has provided strength to the eighth house for conferring substantial inheritance on the native. The position of the fourth lord in the ninth house shows that the parents, property and education play very important part in the life of the native. Benefic Jupiter's placement in the trine is very strategic as it aspects the ascendant, third house, the lord of the house of

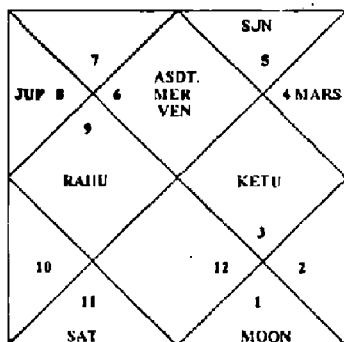

status and the fifth house. Jupiter conferred good education and high status and the sub-periods of Jupiter favoured the native gainfully. Saturn's placement is indicative of some dispute in the matter of property as mooltrikona sign of Saturn falls in the sixth house and its placement is close to the mid point of the eighth house. The placement of the Moon in the twelfth house gave income to the native from foreign lands in the dasa of the Moon. The placement of the Sun, though afflicting for Venus, is beneficial for the natural significations of the Sun,

NAYAMSA

Balance dasa of Ketu : 2 years 1 month 6 days.

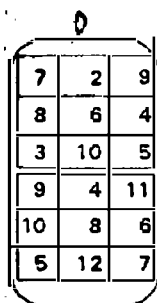

The lord of the ascendant, Mercury, is closely conjunct with the ascendant in its sign of exaltation. The ascendant is occupied by another functional benefic, Venus, which is weak due to its being in its sign of debilitation. The functional malefics, the Sun and Saturn occupy their respective mooltrikona

signs in the chart providing strength to natural and particular significations in the nativity. The other afflictions are close aspect of Mars to Saturn and the close aspect of Saturn to Jupiter. Jupiter is in its sign of debilitation in the navamsa. The lord of the eleventh house, the Moon, is in the eighth house which is closely aspected by Rahu. There is exchange of houses by Mars and the Moon in the nativity. The relationship of eighth lord with the lord of the eleventh house is indicative of income from foreign lands. The weakness and affliction of the Moon is indicative of undesirable behaviour of friends.

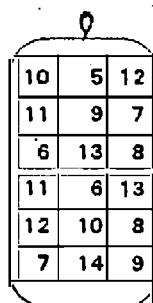

The strong and unafflicted Mercury made the native an engineer, M.B.A. and highly analytical in approach. The weakness of Jupiter and Venus were responsible for lack of total cooperation by the spouse. During the main period of Mars the native served in a foreign country and earned wealth. The sub period of Jupiter in the main period of Rahu brought the native back to his native place. Rahu's affliction to the Moon occasionally created obstructions in the sources of income. The weak functional benefics give benefits of comparatively lower order but whenever they are transited by functional malefic there is some amount of harm.

Suggested effective remedial measures for warding off evils and generating good results in life for VIRGOS.

1. Render service to parents/parents in law and old aged needy persons.
2. Observe law of the land meticulously.
3. Be considerate to younger brothers and servants.
4. Wear a KAVACH (protecting disc of mystical numbers) prepared on a silver disc as per design below in a green colour thread or a gold chain around the neck with numbers to be engraved in an auspicious time.

KAVACH

NOTES.

1. For working out the auspicious time for engraving of numbers and wearing the KAVACH for total effectiveness, the readers may refer to author's book, "SYSTEMS' APPROACH FOR INTERPRETING HOROSCOPES".
2. Assets acquired in the similarly elected auspicious time will be long lived and beneficial.
3. KAVACH to be used permanently and should not be removed after wearing in the auspicious time.

♄(9) = raja yoga but ♄ not full benefic (9/12)

LIBRA ASCENDANT

The sign Libra is ruled by the planet, Venus. It is the mooltrikona sign of Venus. It rules lumber region, skin, kidneys and bones of the lumber region. The sign Libra rising in the ascendant gives magnetic personality, if Venus is fully strong. The person makes use of the body language for communicating with others.

If Venus is weak and/or afflicted in a Libra nativity, the person suffers from diabetes, venereal diseases, arthritis, gout pains and renal diseases. It is a talkative, positive, airy and semi-fruitful sign. Its talkative characteristic provides the person capacity to communicate including the use of body language and facial expressions for making the communication more effective.

Its positive characteristic makes the person a contributor in place of being only a consumer. Its airy characteristic makes the person a thinker. Its semifruitful characteristic blesses the native with affluence and resourcefulness in life. The sign Libra signifies the sense of justice, clarity, strong will power, optimism and is highly sensitive. Librans are intelligent, restless, good natured and have pleasant disposition. They want to win others with love and hate violence. They have keen interest in performing and fine arts. The weakness and affliction to Venus can turn them into a depressed, stubborn, argumentative and annoying person. Librans are cautious, confident, interested in learning, gentle, artistic and are able to clear themselves out of difficult situations.

Libra is a comparatively fortunate sign to have birth. The lord of the sign is an affluent planet and is significator for enjoyments and comforts. It gives advisory roles in the fields of finance and law, makes the person life-saviour through practice of medicine and tremendous growth in business activities. The reason is that apart from Rahu and Ketu, Mercury is the only planet which acts as a functional malefic for Librans. As Mercury is a fast moving planet, obstructions caused by its transit over natal positions are short lived. A strong, well placed and unafflicted Venus blesses all good

things mentioned hereinbefore. Enterprises of Librans are signified by Jupiter as per its strength in the nativity. Strong Saturn being yogakarka planet for this nativity, makes the person worldly wise and shrewd. The life and business partners of Librans are highly active as they are signified by Mars. They easily conduct their professional affairs as their tenth house is ruled by the Moon.

The eleventh house, signifying income, elder brothers, friends and desires, is ruled by the royal planet, the Sun. They think big and enjoy successes of high orders. They enjoy the patronage of highly placed friends, elder brothers and governmental authorities whenever the Sun is strong in the nativity. That is the reason that big industrialists are always friendly with top political bosses. A strong Mercury assures a disease free and happy married life for Librans.

Unfavourable colours

Green, smoke grey, steel grey and dull colours.

Unfavourable stones

Emerald, gomedh and cat's eye.

Weak and afflicted planets

Effects

SUN	Deficient income, weak heart and discontentment, trouble to father.
MOON	Changing professional activities time and again, loss of mental peace, trouble to mother and wife.
MARS	Steals dynamism, loss of spouse early if Venus and Moon, too, are weak, tender health.
MERCURY	Disturbed married life, more physical ailments in later part of the life and nervous nature.
jup	Lack of happiness from male progeny and younger brothers, less enterprising and lack of fame. Lack of communicative power.
VENUS	Weak health, diseases of rheumatism and renal, lack of affluence and lack of charm.

SATURN

Difficulties in academic and professional career, lack of mental peace and intelligence, spinal problems.

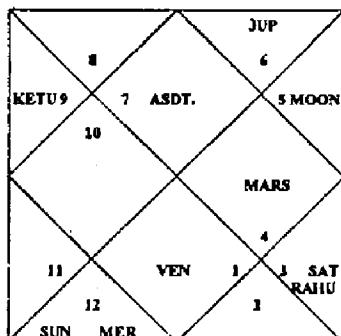

Further peculiarities of natives with Libra as the ascending sign are being discussed in the case studies for better understanding.

Balance dasa of Venus : 17 years 0 month 27 days.

The ascendant is closely aspected by its lord, Venus, which gave the native a handsome physical structure and pleasant disposition. At the time of the birth of the native, he was running the main period of Venus up to the seventeenth year of age. This gave good school education which enabled the native to go in for medical education as practice of life saving drugs is one of the professions ruled by the planet, Venus. The Moon is placed in the sign Leo but its dispositor, the Sun is weak

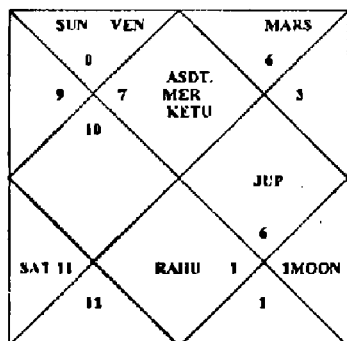

and badly placed. The functional malefics do not form any close conjunctions/aspects in the nativity. That is why the native is leading an affluent and reputed life with occasional disturbances caused by transit influences. Jupiter is in the state of oldage while infant Mars is in its sign of debilitation. The yogakaraka, Saturn, is well placed in the ninth house. The weak and debilitated Mercury aspects its own mooltrikona sign in the twelfth house. The weakness of Mars has given weak health to wife, who is diabetic. The weakness of the Sun has resulted in loss of highly placed friends. The weakness of Jupiter has denied the happiness of younger brothers and initiatives in life. The native has many friends because of his magnetic personality. The Moon and Mars are vargottama but Mars because of its weakness is not in a position to bestow any benefit because of its being in the state of vargottama.

NAVAMSA

Balance dasa of Jupiter : 15 years 11 months 07 days.

The sign Libra rises in the ascendant, whose combust lord in conjunction with the Sun, is placed in the second house. The boy is handsome and makes use of his facial expressions in conversation. Functional malefics, Mercury and Ketu, are closely conjunct with the mid point of the ascendant. Their association gave the boy the habit of intoxication very early in life and the diseases of fits in the Rahu's sub-period in the main period of Jupiter. The yogakarka planet, Saturn, though weak occupies the fifth house. Both the Sun and the Moon are rightly placed giving birth to the child in an affluent family with long lived parents. The placement of the tenth lord, the Moon, close to the midpoint of the ninth house has given the business of exports of the articles governed by the Moon. The placement of Jupiter in the tenth house has given tremendous initiative concerning business in the young age. Jupiter occupies tenth house in exaltation. The placement of the lord of the seventh house in the twelfth house delays the celebration of marriage.

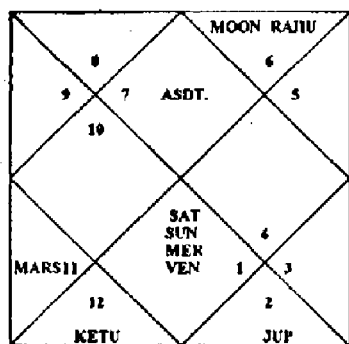

During the sub-period of Mercury in the main period of Saturn the boy was almost a drunkard. The health was badly affected. The Sun in the second house is aspected by another functional benefic, exalted Jupiter, closely. This gave high status to father, elder sister and promises affluent income to the native. Owing to potentialities in the chart in favourable periods the bad habits of the native could be controlled. With the astral remedial measures the health also improved remarkably in the sub period of the Moon in the main period of Saturn.

NAVAMSA

Balance dasa of the Sun : 4 years 2 months 26 days.

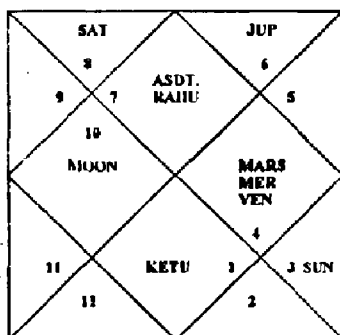

The functional malefic, Mercury, afflicts the mid-point of the ascendant, Venus, the Sun and Saturn by way of aspect/conjunction. The functional benefics, the Sun, Saturn and Venus though afflicted with Saturn and Venus being weak, as well, create an auspicious combination which influences the mid point of the ascendant. The Moon and Jupiter are weak due to their being in the state of infancy and placement in inauspicious houses. The Mars is weak due to infancy. The afflictions to the lord of the ascendant and the ascendant have reduced the attractiveness of the personality to a great extent but traits of Venus that is pleasant disposition, etiquettes, affluence, has helped the native to achieve a tolerably good financial and social status. Rahu and Ketu do not form close conjunctions. The native is troubled for a period of about six months almost every three years when Rahu and Ketu form transit conjunctions with weak natal planets.

NAVAMSA

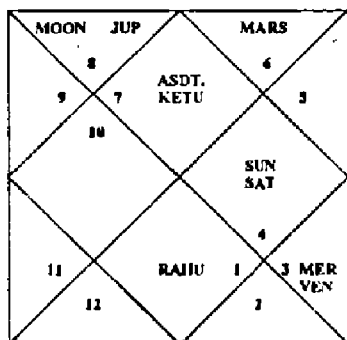

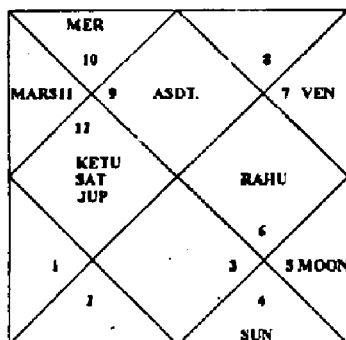

Balance dasa of the Moon : 7 years 7 months 19 days.

The malefic Rahu forms close aspect with the Sun in the chart. The lord of the ascendant in close conjunction with another functional benefic, Mars, is placed in the tenth house. The Moon is closely conjunct with the mid point of the fourth house. The Sun is placed in the ninth house. Jupiter is doubly weak due to its being in the state of infancy as well as its placement in the twelfth house. The yogakarka Saturn is closely conjunct with the mid point of the second house. The native is a beautiful multi-millionaire lady blessed with affluent long lived parents, happy marital life and three sons. The weakness of Jupiter has not made the native dynamic and enterprising and she is leading a passive life. Well placed Moon and Venus make the native generous, kind and royal in nature. Yogakarka Saturn in close conjunction to the mid point of the second house harnesses the happiness on account of family matters, accumulation of wealth, status in society and enjoyments. The weakness of Mars is reduced due to benefic conjunction of Venus. The affliction of Rahu to the Sun has turned the native towards total materialism.

Balance dasa of Saturn : 16 years 5 months 19 days.

Rahu-Ketu axis is not causing any affliction in the nativity. The functional malefic, Mercury, closely afflicts the mid point of the ninth house. The lord of the ascendant, Venus, is placed in the ninth house in the state of infancy. The Sun is weak due to its being in the state of infancy while Saturn is weak due to its being in the state of old age. During the career building years, the native had the main period of the functional malefic, Mercury, which badly afflicted the career prospects of the native. The tenth lord, the debilitated Moon, is very near to the mid point of the house of status. The native had many highly placed friends and with the help and assistance of these friends and connections, the native could become the proprietor and editor of a monthly magazine giving rise to handsome earnings in the main period of Venus. The weak position of Mars gave health problems to both self and spouse.

The charm of personality increased during the dasa of Venus and the native could be oftenly seen in the company of highly placed ruling politicians of the country in the capacity of a journalist.

NAVAMSA

Balance dasa of Mercury : 16 years 5 months 3 days.

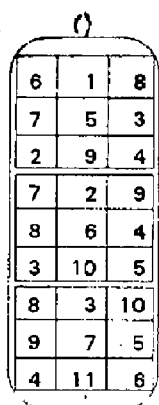

Rahu-Ketu axis is close to the mid point of the houses occupied and aspected. Whenever, this type of situation prevails and the lord of the ascendant is weak the proper development of the child is retarded giving rise to undiagnosed and incurable diseases. This boy is suffering from excessive corpulence as infant lord of the ascendant, Venus, is under the exact aspect of Rahu. Functional malefic, Mercury, closely afflicts the tenth lord, the Moon, in the tenth house. The lord of the house of development is weak due to its being in the state of oldage. Disproportional growth of the physique retards the normal mental growth as well. The yogakarka Saturn's

position in the second house, which is exalted in navamsa in this case, has, however, not allowed the retardation of the mental functions. The medical diagnostic facilities in the top institutions of the country have neither been able to diagnose the causes of excessive corpulence nor provide any relief from further growth. The operating period is that of the functional malefic, Mercury. This is to be followed by the dasa of Ketu which is badly afflicting the ascendant by conjunction and fifth, seventh and ninth houses by aspect.

Suggested effective remedial measures for warding off evils and generating good results in life for Librans.

1. Render service to parents/parents in law and old aged needy persons.
2. Help poor students.
3. Wear a Kavach (protecting disc of mystical numbers) prepared on a silver/gold disc as per design below in a black colour thread/gold chain with numbers to be engraved in an auspicious time.

KAVACH

The front side of the Kavach disc is a rectangular plate with rounded corners and a small circular hole at the top center. It contains a 6x3 grid of numbers. The numbers are arranged as follows:

6	1	8
7	5	3
2	9	4
7	2	9
8	6	4
3	10	5
8	3	10
9	7	5
4	11	6

Front side

The back side of the Kavach disc is a rectangular plate with rounded corners and a small circular hole at the top center. It contains a 6x3 grid of numbers. The numbers are arranged as follows:

10	5	12
11	9	7
6	13	8
11	6	13
12	10	8
7	14	9
12	7	14
13	11	9
8	15	10

3rd House + Last = Bad Luck

born in 15° to 30° = Grandchild birth = will not
live - Lose his mother or will not
have descendants - if survives = becomes prominent phase

CHAPTER 10

SCORPIO ASCENDANT

The sign Scorpio is ruled by the planet Mars. Scorpions are egocentric, straight forward, determined, disciplined and fearless. They are tough and they rarely smile. They are highly active and generally keep good health. Scorpions are generally short statured and well-built.

Scorpions are administrators, politicians, advocates, surgeons, officers in the armed forces and the traders in metals and chemicals.

This sign rules urinary and sexual organs, anus, generative organs, bladder, nasal and pelvic bones. Scorpions suffer from the diseases of piles, urinary track infection, boils and fractures whenever the ascendant and/or Mars are afflicted and Mars is weak. Scorpio is a mute, violent, negative, watery and fruitful sign. They generally maintain silence and observe things keenly. Their reaction is sudden and forceful and they lack patience. Because of their silence they are misunderstood even though they may be innocent and straight forward.

The planets Mars and Venus are functional malefics in addition to Rahu and Ketu. Jupiter, Saturn, the Moon, the Sun and Mercury are functional benefics for Scorpions. Mars and Venus being fast moving planets, their transit afflictions are short lived. Both the slow moving planets, Jupiter and Saturn being functional benefic planets for Scorpions they have many long lived spells of pleasant events in life in addition to recurrent auspicious events generated by the fast moving benefics, the Sun, the Moon and Mercury.

The strong position of Jupiter in Scorpio nativities blesses the natives with high status/authoritative position and with good professional and academic education. Saturn rules their interest in the possession of real estate. They are possessive in nature and always keep on adding to their immovable properties.

A strong Mars gives good health suitable to their natural characteristics. They are fond of physical exercises for fitness of their physical health. The strength of the Moon governs the

status of the father and is potential for rise in life. The Sun rules the house of profession and Scorpions derive benefits from the state even if the Sun is weak in the nativity. They are very courageous and earn good amount of money. Mercury, whose mooltrikona sign falls in the eleventh house, gives fluctuating income of comparatively handsome order. Mercury's lordship of the eleventh house shows lack of happiness and support from friends, elder brothers and lack of fulfilment of desires. They lack friends because of their introvert nature and selfish inclinations. The strong position of Venus gives them comfortable foreign stay.

Unfavourable colours

Red, royal blue, steel grey and dull brown.

Unfavourable stones

Red coral, diamond, hessonite (gomedh) and cat's eye (Iasonia)

Weak and afflicted planets

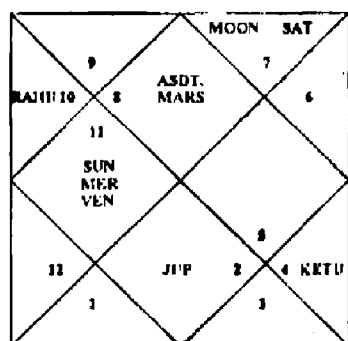

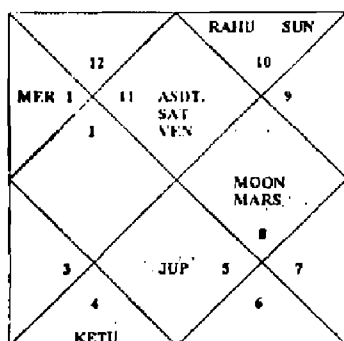

Effect

SUN	Loss of status, high BP, weak health, loss of education and trouble to father.
<i>by full benefic</i> MOON	Set backs in life and loss of mental peace.
MARS	Weak health, disease of piles and short tempered.
<i>benefits black</i> MERCURY	Fluctuating income, nervous pressure, skin disease, intestinal problems.
JUPITER	Loss of status, education, disturbed relation with spouse, trouble in eyes, dental problems, weak liver.
VENUS	Separation from wife, ill health to wife, middle life span, weak kidney.
SATURN	Trouble to parents, spouse, loss of education and assets, loss of mental peace.

RASI**NAVAMSA**

Balance dasa of Mars : 3 months 20 days.

The ascendant is closely aspected by the functional benefic Jupiter. Rahu-Ketu do not form close conjunctions/aspects in the chart. The lord of the tenth house, the Sun, is closely afflicted by the aspect of functional malefic, Mars. Venus is in the state of combustion and suffers from affliction by close aspect of Mars. The lords of the ninth and fourth houses are badly placed in the twelfth house.

The strong position of Jupiter blessed the native with the position as a lecturer while affliction of the twelfth lord, Venus, and the Sun placed in the fourth house caused problems in the areas of marital life and domestic peace. The native lost her first husband in the bhukti of Saturn in the dasa of Jupiter. Bhukti lord, though exalted Saturn, is badly placed in the natal chart in the twelfth house whose dispositor is combust and closely afflicted by functional malefic, Mars. The close

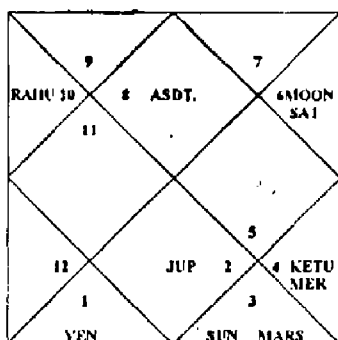

conjunction of the functional benefic Jupiter with the mid point of the seventh house and functional benefic, the Sun, with Venus gave highly placed husbands to the native. Transit influences of weak and afflicted planets keep on generating some problem every now and then connected with the significations ruled by the weak and/or afflicted planets. Mercury, the lord of the house of income, is placed near the mid point of the fourth house resulting in affluent parents and rich inheritance.

RASI

NAVAMSA

Balance dasa of Mars : 4 Years 3 months 26 days.

This is the chart of Mrs. Benazir Bhutto, who had been and is the Prime Minister of Pakistan. The functional malefics, Rahu-Ketu, are just close to the mid point of the houses occupied by them. The functional benefic, Jupiter, is in the middle of the sign and aspects the ascendant. The Moon and Saturn, inspite of their being weak due to old age, are closely conjunct with each other in the eleventh house and become yogakarka. The tenth lord, the Sun, closely aspects the house of status from

the eighth house. The functional benefic Mercury is also well placed but weak. The lord of the twelfth house is badly placed but aspects the twelfth house. Mars is in the state of combustion.

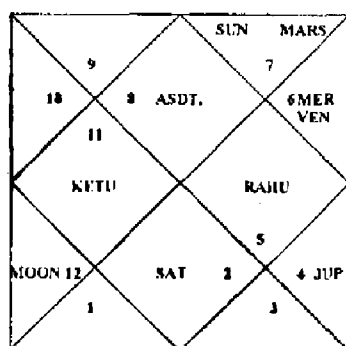

The well placed position of the lord of the house of status helped by the close aspect of the Sun to the house of status gave the native the position of a Prime Minister. The association of Mars, the lord of the sixth house with the Sun, the lord of the tenth house, gives rivalries connected with the work area of the native. The weakness of the planets generates inauspicious events every now and then. The axis of Rahu-Ketu near to the mid point of the third and ninth houses involves the third, fifth, seventh, ninth and eleventh houses of the chart besides the ascendant. The native suffered on account of significations ruled by all these houses. The position of PM acquired during Rahu bhukti of Jupiter dasa proved to be short lived. Her second term starting in the sub period of Saturn in its own main period is likely to be long lived as Saturn is associated with the royal planet, the Moon.

NAVAMSA

Balance dasa of Mercury : 6 years 11 months 4 days.

The malefic Ketu forms close aspect with the Sun in the chart. The ascendant is aspected by functional benefics, Jupiter and Saturn. The aspect of Saturn is close and more effective. Jupiter, ruling the house of status, is well placed in its sign of exaltation but is weak due to its being in the state of infancy. Taken everything together it makes positive contribution in the matter of status. The lord of the house of fortune, the Moon, is just on the mid point of the fifth house giving rise to fructification of good deeds of the past life. The functional malefic, Mars, is weak due to being in the state of infancy and combustion. Venus is weak due to its being in the state of old age and debilitation. The weakness of four planets gives deterioration of functional health at an early stage in life i.e. the aging process starts early in life.

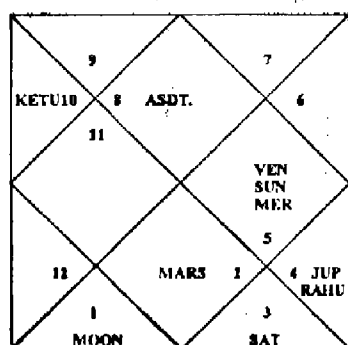

The weakness, bad placement and Ketu's affliction to the lord of the tenth house resulted in obstructed growth in career in the dasa of the Sun. The dasa of the Moon, however, put the things back in shape. The weakness of Venus resulted in weak health of the wife, who became diabetic in a very early stage of life. The native belongs to an All India Service. The main period of Mars does not augur well for health and status matters. The strong position of Saturn is indicative of satisfactory level of assets in life. The strong position of the lord of the eleventh house, Mercury, ensures continuous inflow of good income.

MER	04-29-06				

RASI

NAVAMSA

Balance dasa of Ketu : 4 years 5 months 29 days.

Mars, the functional malefic, is in close conjunction with the mid point of the seventh house, thus, forming manglik dosha recognised by the "Systems' Approach" which fructified, as well, in this nativity. Mars also closely afflicts the Sun by way of aspect. The functional benefic, the Sun, though in infancy, yet influences the house of its placement due to being in close conjunction with the mid point of the relevant house. The functional malefic, Venus, closely afflicts the weak Mercury. Rahu forms close conjunction with Jupiter

The native lost her husband at the age of 47 years during the dasa of Mars and bhukti of the afflicted Sun in the natal chart. The traditional approach, however, exempts Scorpio ascendant from manglik dosha. Whenever Mars acts as a malefic, it causes sufferings due to violence, cuts, wounds, accidents, death, etc. In this case the native lost her husband when she later was undergoing a minor surgical operation. The weakness and bad placement of the lord of the fourth house in association with presence of very powerful Manglik yoga clearly indicated disturbed marital life.

The placement of the lord of the house of status in bhagyasthana (the ninth house) and of the Sun in the tenth house indicate employment for the native. The native is employed in a bank and is in a position to financially support her ownself and the family in her life as a widow.

badly placed. The real damage amounting to tragedies is when a planet is weak, badly placed and afflicted. In this case the weakness of the fourth house is taken care of to some extent by association of the functional benefic, the Sun, with the fourth house. The lord of the ninth house, the Moon, is placed in the twelfth house. During the most of the period of the weak Saturn, her parents languished for want of resources and comforts. But as the Saturn's *dasa* draws to a close during the sub period of a well placed functional benefic, Jupiter, the family has benefited by landed property in premium locations in a metropolitan city. The following main period is of Mercury, which is a functional benefic, is well placed and aspected and does not suffer from close conjunction/aspect of functional malefics. Good placement of Jupiter (the significator for husband), the Sun (the secondary significator for husband) and Venus (the significator for luxuries and comforts) promises early and happy marriage. As already observed, the functional malefics harm the native only if they form close conjunction /aspect in the natal chart. The transit affliction of functional malefics over weak position is not as grave as natal afflictions.

Suggested effective remedial measures for warding off evils and generating good results in life for SCORPIONS.

1. Render service to parents/ parents in law and old aged needy persons.
2. Exercise patience.
3. Be considerate & helpful to wife, servants and younger brothers.
4. Wear a KAVACH (protecting disc of mystical numbers) prepared on a silver disc as per design below in a black coloured thread around the neck with numbers to be engraved in an auspicious time.

CHAPTER 11

SAGITTARIUS ASCENDANT

Sagittarius rising in the ascendant gives magnificent personality and such persons are best suited for training or advisory roles due to their pleasant presence. The body description gets modified if Jupiter is weak in the nativity and Jupiter and/ or the ascendant are closely associated by malefic planets. Sagittarians believe in hardwork and God. They are humourous and generally maintain composure. They are clever, progressive, generous, organised, ambitious and successful when Mars and Mercury are strong in the nativity. They are straight forward, vocal and extroverts.

Sagittarius is a fiery sign ruled by Jupiter. The sign rules hips, thighs, arterial system and nerves. An afflicted ascendant with weak Jupiter poses health problems to the native on account of anaemia, poor digestion, jaundice, high fever, cold, diabetes, etc. etc.

Besides Rahu and Ketu, the Moon is the only other functional malefic for the Sagittarians. As the Moon is a fast moving planet, the transit unfavourable events caused by the Moon are very very short lived as the Moon separates from the conjunctions/aspects in a matter of just few hours. The stress areas for Sagittarians are the indications of the tenth house and the all prevailing impediments. The impediments are caused by the transit impact of the Moon and the transit and/ or natal weakness of weakness prone Mercury. Weakness of Mercury is responsible for stress in the work area.

A strong and well placed Sun confers name, fame and evolution of the soul while a well placed and strong Venus blesses the native with affluent financial gains and resources. Sagittarians are very cautious in their endeavours as the third house is ruled by Saturn. A strong and well placed Mars makes them dynamic and blesses with male children as the mooltrikona sign of Mars falls in the fifth house. Mars acts for them as a yogakarka planet. A strong Moon confers inheritance. A lot of their energy and time is dissipated because of their extravagance in the matter of uncalled for advisory role assumed by them. Self control in this regard will help them in

using the savings for their material and spiritual growth. The peculiarity of the Sagittarius ascendant is that they remain dissatisfied in life as their achievements are not commensurate to their knowledge and competence. Their knowledge and competence is governed by Jupiter while achievements are governed by the state of strength of Mercury. Sagittarius is otherwise an enviable sign to be born in as irrespective of their status and level of knowledge, people may throng in for their advice. They generally maintain good physical health.

Depending upon the strength of the Sun, Jupiter and Mercury, the Sagittarians take up professions of religious perceptors, teachers, managers, legal and financial advisors. The strong Sun in its period indicates involvement and success in administrative and political fields. The powerful influence of other functional benefics does change the course of professional pursuits of Sagittarians.

Unfavourable colours

White, steel grey and dull brown.

Unfavourable stones

Pearl, hessonite (gomedh) and lasonia (cat's eye)

Weak and afflicted planets

Effects

<i>Benefic</i> SUN	Trouble to father and set backs in life, trouble to male children, loss of vitality.
MOON	Weak health, high BP in early stages of life, loss of mental peace, delayed marriage.
<i>Benefic</i> MARS	Trouble to sons, obstructed education, highly ambitious, unfulfilled desires.
<i>along but benefic</i> <i>harsh</i> MERCURY	Nervous, middle life span if Jupiter, too, is weak and afflicted.
<i>infer as malefic</i> <i>to give good results generally</i> JUPITER	Weak and diseased physical health, selfish, greedy, evasive, weak vision, high fevers.
<i>malefic</i> VENUS	Less income, weak health of spouse, weak renal function, lack of vitality.

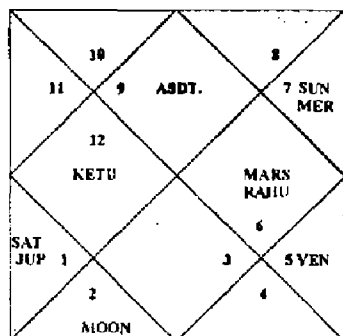

901 SATURN Failures in life, unsuccessful enterprises, delays, lethargy, lack of clarity and communicative power.

NAVAMSA

Balance dasa of Mars : 3 years 9 months 17 days.

Rahu-Ketu axis is closely conjunct with the houses of its placement and closely afflicts Mars, the lord of the fifth house. The lord of the ascendant is placed in the fifth house in complete conjunction with the debilitated lord of the third house, Saturn. The lord of the house of income is placed in the ninth house indicating income from foreign lands. The ninth lord is weak due to debilitation and being in the state of infancy. Mercury is weak due to its being in the state of old age. Jupiter-Saturn complete conjunction has given the native an urge and initiative for educating people working with him not only on worldly matters but on spiritual matters, as well. The fifth lord aspects the fifth house and Jupiter and Saturn placed therein,

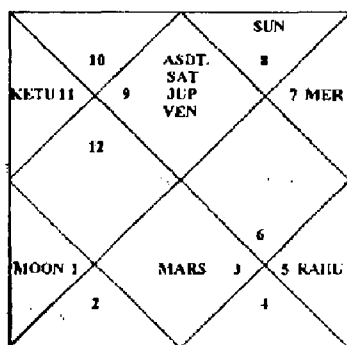

very closely. This is also a good combination and in fact the most prominent one as it has made the native not only intelligent but also mentally alert. The influence of Saturn in this, however, sometimes causes delay in execution of the ideas. Jupiter's dasa gave him opportunity for improving his academic, professional and spiritual knowledge. It also gave rise in status. The period of debilitated Saturn kept the pace of growth of acquiring further knowledge and status low. Rahu's close association to Mars never kept the native free from worries of the health of his sons. The astral-remedies, however, provided some relief. In spite of the weak position of the lord of the tenth house, the close influence of the fifth lord, Mars, highly activated by the association of Rahu and the powerful aspect of the lord of the ascendant to the ascendant, the native enjoys good social and official status.

Balance dasa of Venus : 9 years 2 months 12 days.

The lord of the fifth house closely aspects the ascendant and

functional benefics, Venus and Saturn, placed in the ascendant. The lord of the ascendant, Jupiter, is powerfully placed in the ascendant.

Rahu - Ketu axis closely afflicts the houses occupied/ aspected and the planets the Moon, Jupiter and Saturn. The afflictions caused by the nodes have tarnished the auspicious influence of functional benefics.

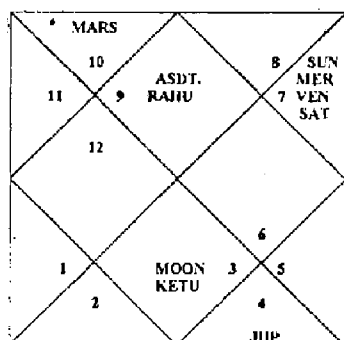

The native is an officer with the revenue department of the Govt and can enjoy temporary material possessions if he resorts to the means of Rahu. Good placement of Venus and close aspect of Mars to same has given the native a fortunate wife, who is a medico. Venus has also afforded good amount of comforts and luxuries. Affliction to the ninth house by nodes and weak and bad placement of the lord of the ninth and significator for father, the Sun, is indicative of the poor financial and social status of the father. Weakness of the Sun and Mercury indicates poor promotional avenues for the native.

Rahu & Ketu do not form close conjunctions/ aspects in the nativity. The functional malefic, the Moon, is placed in the twelfth house in its sign of debilitation but quite away from the mid point. The ninth lord, the Sun, is placed powerfully in the ninth house which blessed the native with a highly placed and

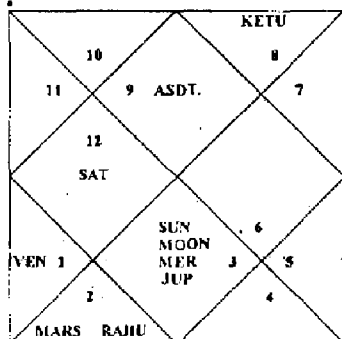

rich father. The tenth and eleventh lords are conjunct with each other in the tenth house indicating self earned income from trading of artistic/fashion goods. The native is engaged in the manufacture and trading of artistic jewellery. The lord of the house of initiatives is in the house of emotions in its sign of debilitation. The lord of the house of emotions is placed in the eighth house. The initiatives of the native had been involving herself in intense emotional attachment resulting into a love cum arranged marriage. The native keeps interest in training her artists. The combustion of Jupiter and weakness of the lord of the eighth house, however, is indicative of middle span of life. Weakness of the lord of the third house, Saturn, and significator of younger brother, Mars, denied the native a younger brother and weakness of the lord of the eleventh house, debilitated Venus and significator for elder brothers, Jupiter, denied the native the happiness of an elder brother. The placement of the eighth lord in the house of losses in the state of debilitation, is indicative of loss of inheritance.

RASI

NAVAMSA

Balance dasa of Rahu : 7 years 7 months 8 days.

Mars, the fifth lord, is combust, debilitated in navamsa and badly placed. The functional malefic, the Moon, forms close conjunction with Jupiter, the lord of the ascendant. In spite of the affliction, Jupiter is well placed and aspects the ascendant. The native was a brilliant student and obtained a post graduate degree in management from USA. The good placement of the Sun, Jupiter, the Moon and Venus blessed the native with affluent parents and comforts. The affliction of the Moon, particularly, when it is weak in pakshabala, is not very strong.

The placement of many planets in the seventh house is indicative of residence in a distant/ foreign place. The native resided in a foreign country at the time of his education and is likely to stay there for his business. The weakness and bad placement of Mars poses problems in the matter of progeny, initiatives and activeness. The native takes keen interest in acquiring knowledge and educating others. The close aspect of the Sun, the ninth lord, to the ascendant makes the native royal in disposition.

RASI

NAVAMSA

Balance dasa of Rahu : 15 years 2 months 24 days.

The lord of the ascendant is placed in the eighth house and is weak due to its being in the state of infancy. The Moon is closely afflicted by the aspect of Ketu. The lord of the third house is placed in the sixth house but it aspects its own house.

Functional benefics Mars, Mercury and the Sun from close conjunction amongst themselves and give rise to a beneficial combination. The planets involved rule activeness, intelligence, profession and general fortune. The lord of the eleventh house also is placed in the tenth house giving rise to affluent level of income. In the process, the planets Mars, Mercury and Venus have become combust and lost some of their power. The lord of the house of inheritance, the Moon, has gone to the house of income but the affliction to the Moon involved the inheritance in litigation obstructing the income.

The weakness of planets delayed marriage, and caused lack of harmonious relationship thereafter, delayed the promotions, denied male children and triggered inauspicious events due to transit conjunctions/aspects of the malefics during the sub periods of the weak planets in particular. The native found the life as driving a tyreless vehicle on an unmetalled road. The only thing favourable was that the native was running the periods of functional benefics after the opening dasa of Rahu at birth. The native was a service officer but had to leave his career in between to start afresh with another organisation. The career became static. The job involved training and developing juniors, which native enjoyed keenly.

Suggested effective remedial measures for warding off evils and generating good results in life for Sagittarians.

1. Render service to parents/parents in law and old & aged needy persons.
2. Be considerate to wife.
3. Wear a KAVACH (protecting disc of mystical numbers) prepared on a silver disc as per design below in a black coloured thread around the neck with numbers to be engraved in an auspicious time.

CHAPTER 12

CAPRICORN ASCENDANT

The sign Capricorn is ruled by Saturn. It rules knees, bone joints and knee caps. It is a negative, non-human, earthy and semi-fruitful sign. It signifies tact, cheating, lethargy and melancholic nature if its ruler, Saturn, is weak. If Saturn is weak and this sign is afflicted by functional malefics, the person born under this sign suffers from the diseases of eyes, throat, teeth, joint pains, general weakness, emaciated body, etc.

Capricornians are social as Venus rules their tenth house. They are conservative, selfish and selective in approach. They are secretive, pensive, organised, proud and fastidious. They are vigilant and tactful. They have compromising nature in order to achieve leadership.

Depending upon the strength of the planets, Capricornians are born to rich and well placed parents, get good inheritance, have pleasant temperament and are emotional in the matter of partnership. The major stress area is the fluctuating status of the father and their own fortune as Mercury, the planet of fluctuations, rules the ninth house of Capricornians. They long for leadership, political power, practice of law and business. Their major pursuits in life include acquisition of assets, partnerships and social contacts for personal benefits and selfish ends.

The significator for the soul, the Sun and significator for morality and generosity, Jupiter, are functional malefics for Capricornians. The strong Sun and Jupiter ensure a happy and harmonious married life and Capricornians prefer enjoying disposition in life.

The mooltrikona sign of Mars is in the fourth house and the strength of Mars in its period governs the acquisition of assets, good education, alertness and passionate married life. One gets happiness from long lived mother when Mars is strong. A strong and well placed Moon assures happy married life and rich parents in law. As stated earlier, the major stress area is the ninth house where mooltrikona sign of weakness prone Mercury falls. The sign Libra of Venus plays a major role in the

life of Capricornians as their professional success is dependant on the good strength of Venus.

Favourable colours

Shining black, white, all shades of blue colour, green and red.

Unfavourable colours

Steel grey, dull smoke grey, orange and yellow.

Favourable stones

Blue sapphire, red coral, pearl, emerald, and diamond.

Unfavourable stones

Gomedh, cat's eye, ruby and yellow sapphire.

Weak and afflicted planets

Effects

SUN Short life if Jupiter, too, is in similar position, lack of inheritance, trouble to father and loss in speculation.

MOON Inharmonious relationship with spouse, loss of mental peace, difficulty in acquisition of immovable property and having domestic happiness if Mars, too, is weak and afflicted.

MARS Loss/Lack of assets, disturbance in education, setbacks in life, lethargic.

removes **MERCURY** Poor parents, average life, constipation, nervous.

labeled **JUPITER** Middle life span, loss of bed comforts, weak liver.

inverts **VENUS** Losses in business, static career, lack of job satisfaction, less remunerative ventures, weak renal functions.

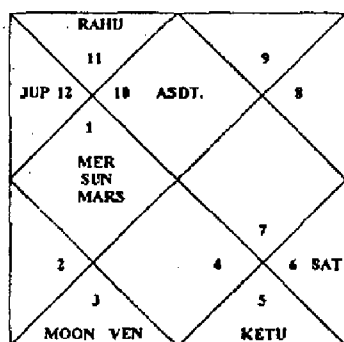

SATURN Ordinary or deteriorating status, loss of happiness in marriage, loss of wealth.

RASI

NAVAMSA

Balance dasa of Mars : 0 year 3 months 20 days.

The functional malefic Jupiter is close to the mid point of the third house and afflicts the seventh, ninth and eleventh houses by way of aspect. The lord of the fourth house, Mars, is closely afflicted by the functional malefic, the Sun. Both, the Sun and combust Mars, are severely afflicted by the close aspect of Ketu. Besides being afflicted and combust, Mars is in the state of old age. Functional benefics, Venus and the Moon, are badly placed in the sixth house ruling disputes and debts. Functional benefic Mercury is placed very close to the midpoint of the fourth house. The lord of the house of wealth and status is placed in the house of fortune in the state of infancy.

The native, whose parents had bare minimum resources, started his career as a clerk with remote chances of growth in career. His wife remains ill. The native could not construct his own house inspite of his best efforts. Rather due to severe

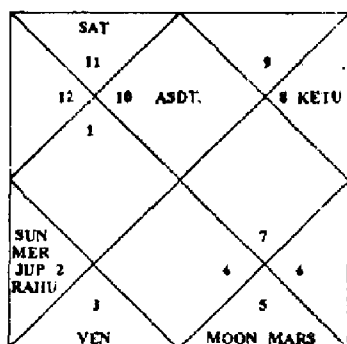

afflictions to weak fourth lord, Mars, he wasted his paltry savings in speculation. Saturn as lord of the house of status, rules the subordinate services, when weak. The close conjunction of Venus and the Moon is auspicious but have limitations to bestow good results due to bad placement. Jupiter's close affliction to mid point of various houses is also a static setback to progress in life.

NAVAMSA

Balance dasa of Ketu : 0 year 10 months 24 days.

The lord of the second house ruling family, wealth and status is placed close to the mid point of the second house. Saturn's influence caused selfishness of the spouse, meagre wealth and no personal status for the lady. Functional malefic, the Sun, is closely conjunct with other malefics, Jupiter and Rahu. From a very young age of 21 years, the native started suffering from high blood pressure and had to undergo surgery. Jupiter and Mercury are combust. The functional malefics are close to the

mid point of the fifth house giving emotional set back, lack of male child and mental peace. The lord of the tenth is weak due to placement in the sixth house. The functional benefics, the Mars and Moon, are badly placed in the eighth house. The native suffers mental unrest on account of careless attitude of her husband. The domestic life is far from satisfactory but continues due to the close conjunction of lord of the second house to the mid point of the second house. Rahu's exalted position has afforded the native some material affluence. The weakness and affliction of Mercury shows the worried status of father and nerve wracking fortune.

NAVAMSA

Balance dasa of Rahu : 0 year 7 months 18 days.

The lord of the fortune, Mercury, is badly placed and suffers from combustion and close conjunction of functional malefics. The lord of the seventh house, the Moon, suffers from the close aspect of the functional malefics, the Sun and Rahu and

conjunction of Ketu. The lord of the fourth house is weak due to its being in the old age. While Saturn ruling the second house is badly placed and afflicted in the house of losses, the tenth lord is weak due to its being in the state of debilitation.

The weak planetary influences and affliction to the planets ruling marriage and family life gave the native birth in a poor family, a short lived marital alliance, non-officer cadre job and loss of mental happiness. The weakness of the twelfth lord and severe affliction of the eighth house and its lord are indicative of a middle span of life. The native was married in Dec., 1986, and his wife deserted him in April, 1987. Thereafter he had to languish in courts to get a divorce. He is now so much afraid of marriage that never thinks of entering into a fresh wedlock. The native was married in the bhukti of Venus in the dasa of Saturn. The following sub-period of severely afflicted Sun could only create such experience and influence that the native has for the time being decided not to remarry.

NAVAMSA

Balance dasa of Rahu : 8 years 9 months 17 days.

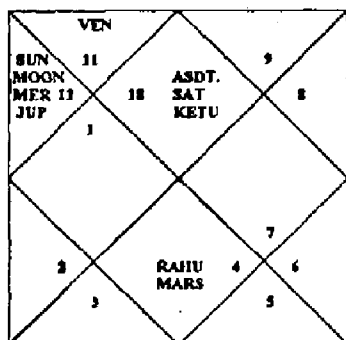

The native was born in the dasa of Rahu placed in the twelfth house. The next dasa was of a functional malefic, Jupiter, indicating unfavourable conditions in life in the early and career building years. Saturn's period has its own peculiarities of limitations. The Sun, lord of the house of marital tie, is placed in the sixth house and suffers from close affliction through aspect of functional malefic, Jupiter, and association of Rahu-Ketu axis. The lord of the seventh house is placed in the tenth house indicating continued marital relationship. Ketu's affliction to the Sun gave loss of vitality and number of physical ailments to the native. The lord of the house of fortune is badly placed in the sixth house which gave persistent set backs in life. The bad placement of the lord of the tenth house compelled the native to work in unhappy situations. During the dasa of badly placed Mercury and sub period of Ketu, which is afflicting the Sun, the son of the native was involved in a framed criminal case. The bad placement of next bhukti lord Venus could not bring the native out of the legal case started in the dasa and sub period of planets placed in the sixth house. It was only in the sub period of the Moon, which is well placed, that the son of the native could get himself cleared of the charges.

NAVAMSA

Balance dasa of Mercury : 16 years 1 month 17 days.

The mid point of the ascendant is having close conjunction of Saturn, whose mooltrikona sign falls in the second house. Functional malefic, the Sun, is placed in the third house closely afflicting Mercury and the Moon. Jupiter, the Moon and Mercury are in the state of combustion. The lord of the house of profession, Venus, is placed in the house of status in the state of infancy. The lord of the house of parents and assets is in its sign of debilitation and aspects the ascendant. Rahu closely aspects and afflicts Jupiter and Mercury.

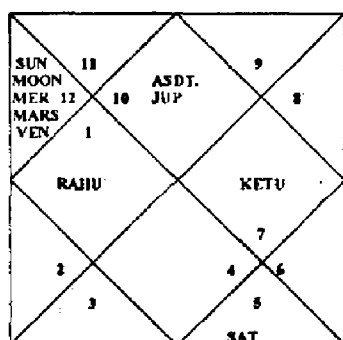

Venus has given the profession of a lawyer but due to its weakness the practice is not remunerative. The affliction of Jupiter has turned the native towards vices. Debilitated Mars has given deteriorating assets but supportive attitude of the parents within the possible means. Severe affliction and weakness of Mercury and the Moon has given many set backs in life including unsatisfactory marital life. The close conjunction of Saturn to the ascendant also is indicative of a humble status in life as Saturn is personified as a servant in the planetary cabinet.

RASI

NAVAMSA

Balance dasa of Saturn : 11 years 3 months 28 days.

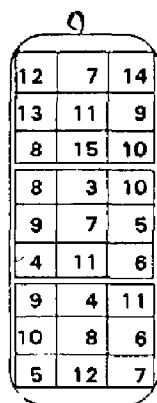

The lord of the second house, badly placed in the eighth house, is afflicted by the close aspect of Rahu. The functional malefic, debilitated Jupiter, is not forming any close conjunction/aspect. Another functional malefic, the Sun, is afflicting the combust Moon, Mars and Venus. The lord of the house of fortune is in the state of debilitation and infancy. Venus, though afflicted and weak, is exalted and involved in an auspicious conjunction with functional benefics, the Moon and Mars. The placement of the planets in the third house make many positive and negative contributions. The position of second lord shows the status of resources. The Mercury's period kept the position almost at the same level. In Ketu's period the native took up the work as interior decorator. Ketu does not form any close conjunction aspect in the chart. The tenth lord is exalted in rasi and debilitated in navamsa. Such a Venus gave profession

profession of interior decorator but could not give affluent income in the same. In her middle age the native enjoyed the dasa of somewhat auspicious and yogakarka, Venus. At birth the eighth and twelfth lords are not afflicted and there is no mooltrikona sign rising in the ascendant. In spite of the setbacks due to unwanted malefic transit over weak natal planets, the native is likely to live upto the main period of the Sun, the lord of the eighth house. However the native has to lead an austere life.

Suggested effective remedial measures for warding off evils and generating good results in life for Capricornians.

1. Render service to parents/ parents in law, perceptor and old aged needy persons.
2. Observe law of the land meticulously.
3. Wear a KAVACH (protecting disc of mystical numbers) prepared on a silver disc as per design below in a black coloured thread or a gold chain around the neck with numbers to be engraved in an auspicious time.

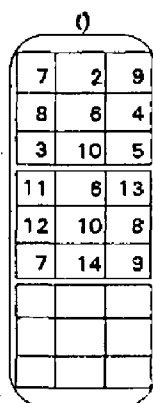

KAVACH

The front side of the KAVACH disc is a rectangular plate with rounded corners and a small circular hole at the top center. It contains a 7x3 grid of numbers. The numbers are arranged as follows:

12	7	14
13	11	9
8	15	10
8	3	10
9	7	5
4	11	6
9	4	11
10	8	6
5	12	7

the readers may refer to author's book, "SYSTEMS' APPROACH FOR INTERPRETING HOROSCOPES".

2. Assets acquired in the similarly elected auspicious time will be long lived and beneficial.
3. KAVACH to be used permanently and should not be removed after wearing in the auspicious time.

4 + 07 = Raja yoga

2 = first rate malefic

CHAPTER 13

AQUARIUS ASCENDANT

The sign Aquarius is the mooltrikona sign of Saturn, who rules the physical health of Aquarians fully. It rules legs, ankles, blood and its circulation, shin bones, etc. If Saturn is weak and the sign Aquarius is afflicted by functional malefics, the native stands chances of suffering from cancerous diseases, fracture of lower portion of leg, wounds, etc., in the body parts signified by this sign.

Aquarius is a talkative, positive, human and airy sign and signifies characteristics like honesty, ideals and sensitiveness, etc. depending upon the strength of Saturn in the nativity. Aquarians are very active, industrious, deliberative, leaders of non-affluent sections of the society and courteous. Weak Saturn makes Aquarians suspicious and lethargic. They are comparatively more concerned about the ends in comparison to means. They are invariably not content with their possessions.

The fast moving planets, the Moon and Mercury, are functional malefics for Aquarians besides the nodes. As a result of this, recurrent short lived disturbances are more in the lives of Aquarians. A strong Mars, whose Mooltrikona sign falls in the third house, turns them to the field of communications which suits their general nature of a thinker. Close conjunction/aspect of the Moon with functional benefics or the mid point of the houses puts them to a disadvantageous position due to disputes and diseases. A strong Sun blesses them with a spouse from a well connected family. A strong Mercury blesses them with good inheritance but at the same time its close connection with any other planet or mid point of a house is highly undesirable due to Mercury's functional nature being malefic. A strong Venus, in its periods, promises good fortune and a noble wife. A combust Mercury endangers the smooth continuance of married life. Powerful connection of a strong Jupiter with the house of profession, finances or any other house indicates progressing future during the periods of Jupiter.

Aquarians are writers, thinkers, servants, leaders of non-affluent sections of society and industrialists. As Saturn is a significator for longevity, its strong position in the chart

blessees the native with long life. They are traditional in their approach but can resort to even undesirable means to achieve their ends.

Favourable colours

Shining black, red, orange, yellow and all shades of shining blue.

Unfavourable colours

White, steel grey, smoke grey and green.

Favourable Stones

Blue sapphire, red coral, ruby, diamond and yellow sapphire.

Unfavourable Stones

Gomedh, cat's eye, pearl and emerald.

Weak and afflicted planets

Effects

SUN Disturbed marital life, loss of vitality and lack of will power.

MOON Indifferent health, debts, defeat in disputes, loss of mental peace.

MARS Unsuccessful ventures, lack of courage, lack of younger brothers, selfish, quarrelsome

MERCURY Middle life span, accidents, weak health, nervous, constipation, operations

JUPITER Loss of income, lack of happiness from friends/ elder brothers, weak liver.

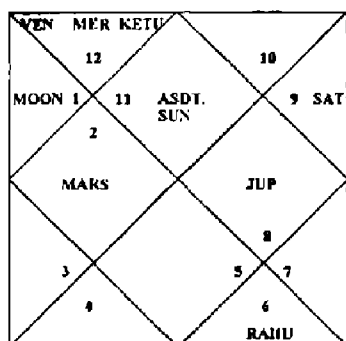

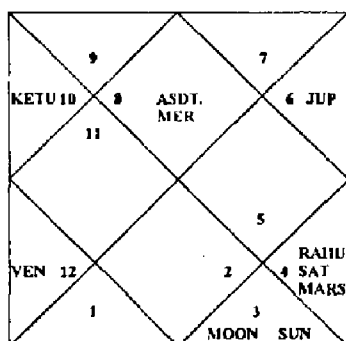

die **VENUS** Trouble to father and wife, loss of comforts.

SATURN Joint pains, breathing problems, rheumatic pains, accidents, fractures, loss of status.

RASI**NAVAMSA**

Balance dasa of Ketu : 2 years 9 months 14 days.

The lord of the ascendant is in the eleventh house and lord of the eleventh house is closely conjunct with the mid point of the tenth house. The lady is working as a teacher (meagre income due to involvement of Saturn and teaching profession due to involvement of Jupiter). Rahu - Ketu axis afflicts debilitated Mercury closely and old aged exalted Venus. The lord of the third house is closely aspected by Rahu and is debilitated in navamsa and the mid point of the third house is closely afflicted by the Moon resulting in absence of happiness from a younger brother and lack of initiative. Both Jupiter and the Sun are well placed though the Sun is in old age. The Sun is lord of the seventh house, which gave the native a well placed, service officer as a husband. The influence of functional malefic, the Moon, and weakness and affliction of Mercury gave functional disorders to the native delaying conception for which

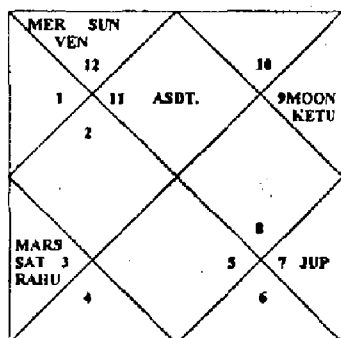

she had both medical treatment and astral remedies. Medically, positive hope has been indicated for a child. Exalted Venus rules the affluent parents and reasonably good fortune.

NAVAMSA

Balance dasa of Venus : 3 years 7 months 14 days.

The lords of the ascendant and third houses are closely conjunct with each other in the fifth house. They make the native highly agile and enterprising. Debilitated and combust Mercury is just on the mid-point of the second house indicating obstructions in life. Yogakarka Venus occupies the second house in its sign of exaltation. The native was born in a well-to-do family. The lord of the sixth house, the Moon, is in the eleventh house but quite away from the mid point. Infant Jupiter is closely aspected by Rahu. Rahu highly activates the significations of the planets under its influence. Jupiter is placed in the mooltrikona sign of Venus. It gives indication for entering the cine world for income. Rahu inflamed the passions

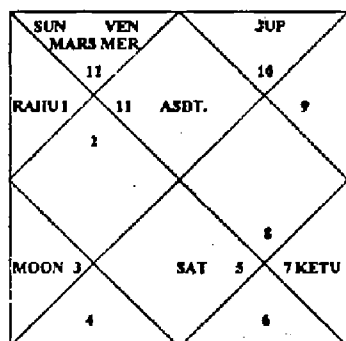

and in a very short span of time the native started producing a Hindi movie. The wife of the native also supported the native in his efforts for rise in status but the obstructions are caused due to close conjunction of the functionally malefic debilitated Mercury. This puts nervous pressure. Rahu's close influence on Jupiter gives static bad mental health to the son. Jupiter gives affluent income and its placement in the bhagyasthana in this nativity does give indication of role of handsome income. This could not have come from the service in which the native was employed. Jupiter's sub period changed the course of professional career. Performance of astral remedies will surely lessen the malefic effect of Rahu and Mercury.

RASI

NAVAMSA

Balance dasa of Mars : 2 years 2 months 14 days.

Rahu closely aspects and afflicts the lord of the ascendant and gives weak health. Ketu closely afflicts the lord of the house of health, that is sixth, for aggravating the health problems of

the native. The native started suffering from excessive corpulence and diabetes in early stages of life. The lord of the seventh house, the Sun, is placed in the house of status indicating high official rank of the spouse. The husband of the native is a high ranking officer with the country's law and order machinery.

The lord of the third house, Mars, closely associates with the lords of the seventh, ninth and eighth houses. Mercury's involvements in the set of planets in the second house is unwanted and afflicting.

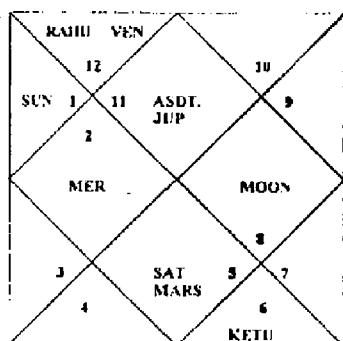

The lord of the eleventh house, Jupiter, is weak due to debilitation. Jupiter's weakness has also added to the weak health of the native. Weak liver and pancreas have caused diabetes. However, placement of three auspicious planets in close conjunction amongst themselves has many good things to offer in life.

CHART - 77

MER	01-04-20				

RASI

NAVAMSA

Balance dasa of Saturn : 4 years 5 months 26 days.

The lord of the ascendant closely aspects the ascendant. Functional benefic, Jupiter, also occupies the ascendant. Functional benefic, the exalted Sun, closely conjuncts with the mid point of the third house. The Moon, in its sign of debilitation and closely aspected by Rahu, ruling the house of disputes, is in the tenth house. The functional malefic, Mercury, is in the fourth house but quite away from the mid point of the fourth house. The lord of the third house, Mars, is quite weak due to its being in the state of oldage. The strong position of the lord of the ascendant, position of functional benefic, Jupiter, in the ascendant and the exaltation of the benefic Sun, blessed the native with senior position in the Revenue Deptt. The placement of the sixth lord Moon in the tenth house and close affliction to same by aspect of Rahu involved the native into departmental enquiries on the charges of corruption.

A strong Sun in the case of Aquarians, gives the problems of adjustment in marital life. The ascendant gives the tendencies of being orthodox, selfish, greedy, feeling of insecurity and austere while a strong Sun gives the royal temperament of wife. The weakness of Mercury in the case of Aquarians gives a short lease of married life. Because of placement of the sign Cancer in the sixth house, the lord of which mostly remains weak for one or the other reasons, the Aquarians generally stand to lose in the disputes/litigation.

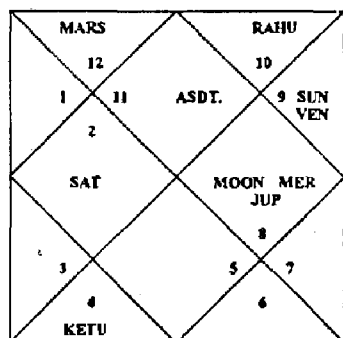

From 28th year of age the native had main period of the exalted yogakaraka planet, Venus, and enjoyed comforts and high social and governmental status. The native is destined to continue with his rising career as the main period of Venus is to be followed by the exalted Sun's main period. However, the ending period of his career may pose some problems because of the onset of dasa of weak and highly afflicted sixth lord.

NAVAMSA

Balance dasa of Mercury : 5 years 8 months 3 days.

At birth the native was running the balance period of the functional malefic, Mercury, followed by the main period of Ketu. During these periods the native suffered constantly on account of ill health. The next main period of yogakaraka Venus, though functionally benefic, could not give tremendous rise to the native due to the weakness of Venus as it is in the state of old age. Let us now see the factors for bad health and other aspects of life.

Rahu closely aspects the lord of the ascendant, Saturn, and afflicts the later. Functional malefics, the Moon and Mercury, jointly closely afflict Jupiter and mid point of the tenth house. The Sun and Mars are weak as they are in the state of infancy. The Moon, Mercury and Jupiter are combust. Besides, the Moon is in its sign of debilitation in both rasi and navamsa charts. The Sun is exalted in navamsa.

Majority of the planets are weak and afflicted, which gave weak physical constitution, weak eyesight, liver and intestinal disorders. The native is pursuing his studies in a foreign country and working on part time basis to support himself.

In 1986, when the native was a student of eleventh standard his father asked whether his son would be successful in the competition for Indian Administrative Service. By seeing the planetary combinations, I just kept quite wondering the

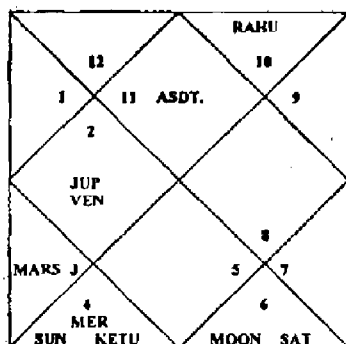

gap between the indications of the chart and the expectations of the father. As the luck would have it just to pursue his own ambition of a foreign posting in life the father unknowingly sacrificed the career of the child. The child had been studying brilliantly before his departure to a foreign country to accompany his father. This happened in the sub-periods of the Sun in the dasa of Venus. The native as of now is lost in the crowd but has to see more troublesome periods in the sub-period of combust and highly afflicted Jupiter. There may be serious obstructions in his career growth due to bad health and he is likely to return to his native place to start afresh and to toil.

NAVAMSA

Balance dasa of Mars : 5 years 1 month 16 days.

Functional benefics, Jupiter and Venus, are closely conjunct with each other in the fourth house while Jupiter influences the mid-point of the fourth house, as well. This is a very powerful planetary influence in this chart. Jupiter aspects closely and

promotes both the Moon and Saturn, ruling health in particular, which are otherwise badly placed in the eighth house. The eighth lord, Mercury, is placed in the sixth house and is closely associated with Rahu-Ketu axis. The seventh lord, the Sun, is placed in the sixth house in the state of infancy.

The native had main period of well placed favourable Jupiter from 24th year of age onwards. With the financial help from parents, the native ventured into business of trading, went into purification of edible oils and set up a joint venture with participation of a foreign collaborator.

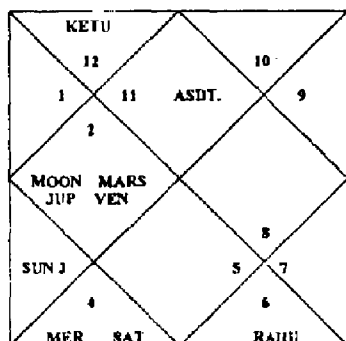

During the sub-period of Rahu in the main period of Jupiter, however, there were obstructions and financial constraints, as Rahu afflicts Mercury ruling inherited wealth and obstructions. The wife of the native keeps indifferent health. Due to the weakness of Mars, though enterprising, the native is lacking activeness. The real problems are seen in the sub-period of Mercury in the main period of Saturn both of whom are ill-placed with slightly better position of Saturn due to Jupiter's aspect. Mercury on the other hand is heavily afflicted. This period is bad for health of self and spouse and loss of some portion of the inherited wealth or its being involved in litigation. However, due to powerful placement of Jupiter the native was impelled to seek help of divine science and as a result of that the ill effects may be reduced to a large extent due to sincere performance of astral-remedies.

NAVAMSA

Balance dasa of the Moon : 5 years 6 months 5 days.

The lord of the ascendant, Saturn, is placed in the sixth house and closely afflicted by the aspect of Ketu. Functional malefic, the Moon, is closely conjunct with the mid point of the fourth house and Venus while functional malefic, Mercury, is closely conjunct with the mid point of the sixth house. The old-aged Jupiter is severely afflicted by close aspect of Rahu from the eighth house. The lord of the third house, Mars, is in the state of infancy while lord of the seventh house, the Sun, is in the state of old age. The weak, badly placed and afflicted lord of the ascendant, Saturn, and weak and afflicted Jupiter made the native physically handicapped. Severely afflicted Venus was responsible for loss of father early in life at the age of 11 years in the sub-period of Venus in the dasa of Mars.

The chart is indicative of diseased and short span of life, lack of happiness from father, lack of income, lack of marital bliss because of severe afflictions to the fourth house, obstructions in education and difficulties to mother.

Suggested effective remedial measures for warding off evils and generating good results in life for AQUARIANS.

1. Render service to parents/parents in law, needy students and old-aged persons.
2. Be considerate to your wife.

3. Wear a KAVACH (protecting disc of mystical numbers) prepared on a silver disc as per design below in a black coloured thread or a gold chain around the neck with numbers to be engraved in an auspicious time.

1. For working out the auspicious time for engraving of numbers and wearing the KAVACH for total effectiveness, the readers may refer to author's book, "SYSTEMS' APPROACH FOR INTERPRETING HOROSCOPES".
2. Assets acquired in the similarly elected auspicious time will be long lived and beneficial.
3. KAVACH to be used permanently and should not be removed after wearing in the auspicious time.

Indicates a birth in 15° to 30° birth = will not survive or become prominent or will not have descendant or lose his mother

CHAPTER 14

PISCES ASCENDANT

The sign Pisces is ruled by Jupiter and rules feet, toes, lymphatic system, bones of feet and toe, etc. Afflicted and weak Jupiter together with close affliction of functional malefics to the midpoint of the ascendant gives gout pains, joint pains, problems of blood circulation and the diseases connected with the parts ruled by this sign.

Pisces is a negative, non-human, watery and fruitful sign and signifies enjoyments, sensitiveness, etc. Mercury gets debilitated in this sign and Venus gets exalted in this sign. With strong and well placed Jupiter in the chart, it gives a spectacular rise in the career.

Pisceans are restless and are always on the move. They are generally devoted to duty, have strong moral value and are good advisors whenever Jupiter and/or Mercury are strong in the horoscope. They are idealistic, generous, emotional and enthusiastic.

As Jupiter rules the tenth house and Mars rules the second house the Pisceans enjoy good status in life in the professions of administration, training and development. They are best suited for advisory roles in the fields of finance, commerce and law. The sign Cancer in their fifth house makes them highly sensitive and emotional. The weak and afflicted placement of the Moon gives emotional set backs in life. The weakness prone planet Mercury makes the marital life of Pisceans unsuccessful. A strong Sun in the nativity without afflicting to other natal positions blesses the native with good health while a similarly placed Saturn gives long life and Venus gives a long lease of marital life. However, transit close afflictions of the Sun, Saturn and Venus do trigger the inauspicious significant events quite oftenly in life.

The planets Jupiter, Mars, Mercury and the Moon are functional benefics for this ascendant. The presence of these planets in strength in a nativity assures a happy married life, a successful career, happiness on account of progeny and a good status in life. On the other hand the planets the Sun, Saturn

and Venus are functional malefics. The functional malefics, the Sun and Venus, are generally associated with Mercury in all nativities but because of the malefic nature of the Sun and Venus for the Pisces natives, this association turns into affliction and spoils the marital affairs of the Pisceans by way of close conjunctions of functional malefics. Besides, Mercury may be weak due to combustion, debilitation, infancy or oldage. The affliction by way of association/close conjunction of the Sun and Venus is more frequent, as you all know. As the mooltrikona sign of Mercury falls in the seventh house, in addition to the person being nervous he may lack vitality. Both of these things are necessary for fostering physical and mental compatability for a successful married life. These are the reasons why the married life of the Pisceans are generally stressful and end up in divorce/death of spouse/persistent bickerings.

The close unafflicted conjunctions amongst functional benefics become auspicious and yogakaraka. The conjunction of Jupiter and Mars gives an authoritative and charming professional career with the Govt in financial or judicial departments. The close conjunction of Jupiter with the Moon is indicative of high academic qualifications and blesses the native with affluent level of assets and a career in the teaching, training and development. The close conjunction of Jupiter with Mercury makes the person highly suitable for analytical/research oriented jobs and confers distinctive name and fame. The strong and well placed conjunction of the Moon and Mars bestows a position in the highest rungs of administration. On the other hand affliction by functional malefics mar the good significations of other planets.

Unfavourable colours

Orange, royal blue, black, steel grey and dull brown.

Unfavourable stones

Ruby, diamond, blue sapphire, hessonite (gomedh) and cat's eye (Iasonia).

Weak and afflicted planets

Effects

SUN	Loss in disputes, loss of health & vitality, debts.
MOON	Progenic problems, loss of mental peace, phlegmatic, diseases of respiratory canal/ system.
MARS	Average status, lack of vitality, body-aches, sharp tongued, dental problems, inharmonious relations with spouse.
MERCURY	Disturbed marital life, loss in partnership, troubled stay in distant places.
JUPITER	Less remunerative and unsatisfactory job, absence of status in life.
VENUS	Lack of body power and vitality, lack of physical enjoyments, weak renal function, piles, etc.
SATURN	Middle life span, weak physical structure, spinal problems, loss of bed comforts, heavy expenses on health.

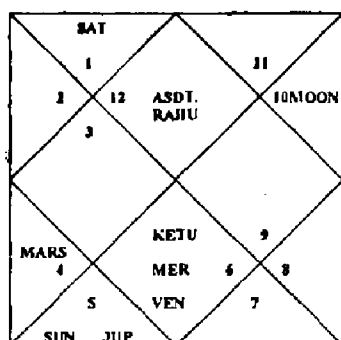

Now I will take up a few case studies which will enable the learned friends in analysing the marital affairs of the Pisceans in a more meaningful and precise way.

Balance dasa of the Sun : 2 years 1 month 17 days.

In this case the marriage is on the verge of divorce in the sub-period of Saturn in the dasa of Rahu. The husband was completely under the influence of his parents and the native was not allowed to communicate with her parents. The married life had been inharmonious and was full of tension.

Here, Mercury occupies its sign of exaltation but is closely conjunct with Venus, the lord of the eighth house. The tenth lord of the native is in the sixth house with the sixth lord. This shows that the native lacks capacity of adjustment and compromise and is basically of argumentative nature and has inclination for entering into a dispute, if required. The lord of the house of the family, that is the second house, occupies its sign of debilitation and the mid-point of the second house is having close conjunction of the lord of the twelfth house. Significator for the husband, Jupiter, is weak due to combustion and placement in the sixth house. The lord of the house of marital tie, Venus, too, is weak on account of its presence in its sign of debilitation. In navamsa, the seventh lord, Mercury, is debilitated. The sign Leo rises in navamsa ascendant and its lord, the Sun is under the aspect of Ketu. In spite of occupying its sign of exaltation in navamsa, Venus, does not derive strength due to its debilitation in the main chart. The marriage took place in Rahu-Rahu and differences became disputes in Rahu-Jupiter as Jupiter is placed in the house of disputes. Separation started from Rahu-Saturn.

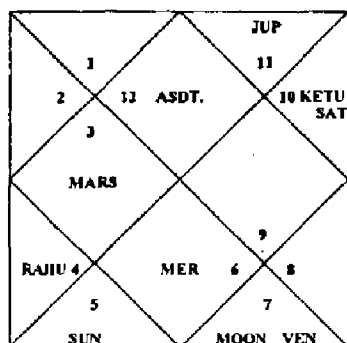

Functional benefic, bright Moon, is placed close to the midpoint of the eleventh house. For material comforts and wealth this is a very good position. The lord of the house of accumulated wealth, functional benefic, Mars, though debilitated is placed in the fifth house but indicates problems due to transit afflictions. Functional benefic, Mercury, though afflicted, is yet in its sign of exaltation and speaks of the wealthy position of the spouse.

NAVAMSA

Balance dasa of the Rahu : 4 years 6 months 24 days.

The planets, the Sun, Mercury and Venus occupy their respective mooltrikona signs in the chart. The fifth lord is placed in the eighth house and receives close aspect from the functional malefic, Saturn, and functional benefic, Jupiter. The lord of the tenth house and significator for husband, Jupiter, is weak due to its placement in the twelfth house and due to affliction of close aspect of functional malefic, the Sun.

Mercury, the lord of the seventh house is in the seventh house itself having close aspect from functional benefic, Mars. Mercury suffers from affliction due to close aspect of Ketu. Saturn, whose mool-trikona sign is placed in the house ruling bed comforts, inter-alia other things, is having severe affliction due to close conjunction of Ketu. The functional malefic, the Sun, also closely afflicts the badly placed significator for husband, Jupiter, besides severely afflicted lord of the house of bed comforts.

The girl, after obtaining a post-graduate degree, was married in her 23rd year of age. Unfortunately, immediately, after the marriage, she had sub-period of severely afflicted functional malefic, Saturn, in its own main period. The bickerings started disturbing the bed comforts and finally resulting in a separation. As earlier stated, Saturn also afflicts the weak lord of the fifth house and significator for emotions, the Moon. The native received a mental setback.

In navamsa, the natal seventh lord, Mercury, and significator for husband, Jupiter, occupy angular houses. The navamsa ascendant lord, Saturn, occupies its sign of debilitation in navamsa and becomes fully representative of inconvenience in marital relationship in its own periods. The following sub-period of afflicted Mercury caused separation due to total uncompromising approach adopted by the family members of the spouse.

The favourable placement of functional benefics, Mars and Mercury, in the chart was outweighed by strong afflictions to the lord of the twelfth, seventh and fifth houses, and the significator for husband. No move has been made for a divorce by any party. The sub-period of Mars may generate a reunion.

RASI

NAVAMSA

Balance dasa of Sun : 1 year 3 months 3 days.

The native was married on 6th July, 1979, during the sub-period of Venus in the main period of Rahu. Venus as a significator for wife is strong due to its placement in an angle. Venus does not form close conjunction with the mid-point of the fourth house as well as the Sun. The functional malefic, the Sun, is closely conjunct with the mid-point of the fourth house. Mercury, the seventh lord is in the third house in close conjunction with the lord of the second house, Mars. The Moon forms close conjunction with the mid-point of the third house and is closely aspected by the functional malefic, Saturn. Towards the end of the Venus bhukti in Rahu's main period, the separation started and the sub-period of the Sun, lord of the house of disputes, hardened the attitude of both the wife and the native which steered the marriage into a divorce in Rahu/Mars. In the following sub-period of Jupiter, in its own main period, the native's desires of a happy married life could not be fulfilled because of debilitation of Jupiter. The sub-period of functional malefic, Saturn, afflicting the Moon kept the status quo going. In the sub-period of Mercury the native again started pursuing his divorce suit more vigorously including seeking astral remedies. The efforts were not bringing the desired results because of always changing strength of Mercury. Astral remedies did help and the native after a legal divorce, entered into a new wedlock.

Analysing navamsa, the ascendant is occupied by Ketu. The

Moon and Jupiter occupy the sixth house. Mercury, the seventh lord of the rasi chart associated with the significator, Venus, is in the ninth house. For getting consistent good and positive results, it is imperative that weak functional benefics are strengthened and propitiatory remedial measures for functional malefics are performed.

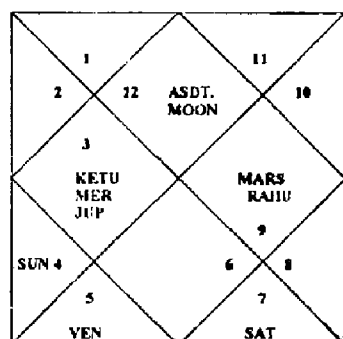

The debilitation of the tenth lord, a functional benefic, does not give a job with proper authority. The native, therefore, is working with the private sector. The placement of the functional benefics, the Moon & Mars near the mid point of the third house together with the functional benefic, Mercury, gave the position of an executive in the Media.

Balance dasa of the Saturn : 18 years 4 months 26 days.

The native had been deeply emotional, had pre-marital love affairs, was married to another person and was finally divorced after a short spell of tense married life.

The seventh lord along with significator for husband, Jupiter, is closely conjunct with Ketu and closely aspected by Rahu. The Moon, the fifth lord, and significator for emotions, is closely conjunct with the mid point of the ascendant. The sixth lord, the Sun, disturbs the mental peace and emotions due to its close conjunction with the fifth house. The Sun is almost closely aspected by another functional malefic, the Saturn. The lord of the house of marital tie is placed in the house of disputes. Her emotional nature and close influence of Rahu over Jupiter, the lord of the tenth, made the native a pleasure seeker and in the process caused loss of reputation. The pre-marital involvement started in the sub-period of Venus in the main period of Mercury. Venus is aspected by Rahu.

In navamsa Cancer rises. Rahu afflicts the fourth house and Mercury is placed in the eighth house.

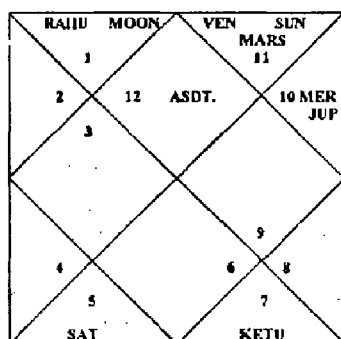

The marriage took place in the sub-period of Rahu in the dasa of Mercury and the divorce in the following sub-period of afflicted Jupiter.

Balance dasa of the Sun : 4 years 6 months 16 days.

In this case, the wife died after a prolonged illness and an inharmonious life. The lord of the house of family is placed in the state of combustion in the twelfth house in association with the lord of the eighth house and in close conjunction with another functional malefic, the Sun. Functional malefics, Venus and Saturn, form close aspect amongst themselves. Jupiter occupies its sign of debilitation in both main and navamsa charts.

The functional malefic, Sun, is close to the mid-point of the twelfth house.

The weakness of the second lord and severe affliction to the significator for wife is indicative of loss of spouse. In navamsa ascendant mooltrikona sign of weak Jupiter rises. In navamsa the seventh lord, Mercury, occupies the ninth house. The native was married in Rahu/Jupiter and his marital harmony was severely affected from Rahu/Venus. This caused separation from the joint family and caused ill health (both physical and mental) to wife. The wife was operated upon for tumor in Rahu/Mars. The wife had to be put on dialysis in Jup/Saturn and finally died during Jupiter's main period and Saturn's sub-period itself. Saturn, the twelfth lord afflicts severely the ill-placed significator for wife. The debilitation of the lord of the tenth house, Jupiter, involved the native in an insignificant profession. The good placement of Mercury gave remunerative

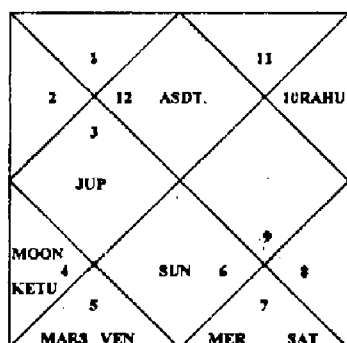

business connected with the means of communications.

NAVAMSA

Balance dasa of the Saturn : 18 years 8 months 1 day.

In this case the native became an addict and sought gratification of her physical requirements outside the wed-lock inspite of her being highly educated and a professional.

The functional malefic lord of the sixth house, the Sun, is just on the mid-point of the seventh house. Fifth lord placed in the fifth house suffers from the close affliction of Rahu-Ketu axis. Rahu's close conjunction/aspect with the Moon or Venus plays a major role in turning the native an addict or a person having fascination for intoxication, be it of any kind.

Mercury, the seventh lord, is in the eighth house in close conjunction with the twelfth lord, Saturn. The placement of Mercury and Saturn in the eighth house is indicative of greater

involvement in carnal pleasures during the periods of these planets. The sixth lord in the seventh house is indicative of disputes in marital life.

In navamsa again both seventh lord of the main chart and significator for husband are placed in the twelfth house while lord of the ascendant of the navamsa suffers from affliction of Rahu-Ketu axis.

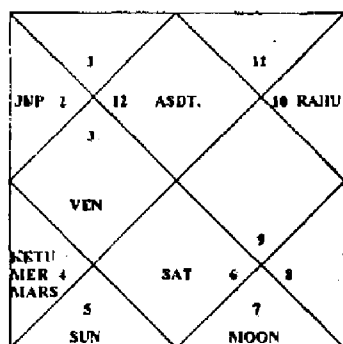

Good placement of Jupiter (though in infancy), placement of the lord of the house of status in the royal sign Leo and placement of the fifth lord in the fifth house (though again in infancy) blessed the native with a profession connected with teaching, intelligence and medicine.

NAVAMSA

Balance dasa of Mars : 1 year 1 month 26 days.

The significator for husband, Jupiter, and Saturn are in the state of old age. The lords of the sixth and fifth houses are in the state of infancy. The functional benefic, seventh lord Mercury, is closely conjunct with Ketu. Badly placed Moon is in debilitated navamsa. Debilitated Mars is in the state of combustion. All the planets in the nativity are weak while the planets ruling the family and emotional life, Mars, Mercury and the Moon are badly placed/afflicted. The lord of the eighth house is placed in the fourth house.

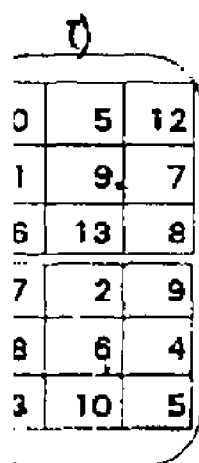

The native belonged to a poor family and was married in the sub-period of Mercury in the main period of Jupiter. Mercury, the seventh lord, though placed in a good house suffers from weakness due to badly placed dispositor, the Moon, and affliction of close conjunction/aspect of Ketu/Rahu.

Due to weakness of the lord of the fifth house, the Sun and weakness of Jupiter the native could not be blessed with a male child and gave birth to three daughters. This infuriated to the otherwise inimical attitude of the in laws. The native was badly tortured and was threatened for life in the sub-period of Venus ruling the eighth house.

Suggested effective remedial measures for warding off evils and generating good results in life.

1. Render service to parents / parents in law and old aged needy persons.
2. Observe law of the land meticulously.
3. Be considerate and helpful to your wife and servants.
4. Wear a KAVACH (protecting disc of mystical numbers) prepared on a silver disc as per design below in a green colour thread or a silver/gold chain around the neck with numbers to be engraved in an auspicious time.

SH

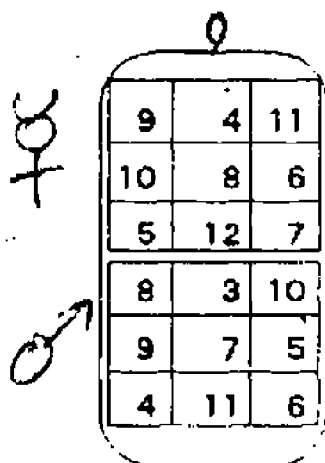

The front side of the KAVACH device is a rectangular grid with rounded corners and a small loop at the top. It contains a 6x3 grid of numbers. The numbers are arranged as follows:

0	5	12
1	9	7
6	13	8
7	2	9
8	6	4
3	10	5

Front side

Size: 1mm

The back side of the KAVACH device is a rectangular grid with rounded corners and a small loop at the top. It contains a 6x3 grid of numbers. The numbers are arranged as follows:

9	4	11
10	8	6
5	12	7
8	3	10
9	7	5
4	11	6

There are handwritten symbols to the left of the grid: a stylized '8' and a small circle with an arrow pointing to the grid.
